No.	Subject and Order.	Date of Order.	Date of previous Orders.
	on other work.—Communicated to the Deputy Commissioner, Bangalore District.		
41	Sanction was accorded to the writing off of irrecoverable balances in the 4 taluks of the Chitaldroog Sub-Division amounting to Rs. 146—0—11.—Communicated to the Assistant Commissioner, Chitaldroog Sub-Division, the Deputy Commissioner, Tumkur District, and the Comptroller.	19th Jan. 1886.	
42	In reply, the Comptroller was informed that the Assistant to the Resident had been addressed with a view to procure a copy of the Bombay Government Resolution relative to the payment to the Mysore Government of a moiety of the tolls levied on the Warda near Gondri in the Dharwar District and that no reply had yet been received.	Do do	
43	The fiscal statements of the Mysore District were forwarded to the officer in charge of the Mysore London Exhibition.	Do do	
44	Sanction was accorded to the writing off of Rs. 2,829—10—2 in favor of the ryots of the Malur Range on account of their lands lying waste for want of water during the year 1884—85.—Communicated to the Deputy Commissioner, Kolar District, and the Comptroller.	Do do	
45	With a view to adopt a uniform system throughout the State, the Deputy Commissioners of Districts were requested to submit the rain-fall returns of their Districts in future showing the total therein from January instead of from April.	Do do	
46	A notification regarding the sale of the jodi village of Andarakahalli and two others was forwarded to the Compiler of the Mysore Gazette for publication in English and Canarese in 3 successive issues of the Gazette, with a request that 5 copies in English and 10 copies in Canarese may be forwarded direct to the Deputy Commissioner of the Kolar District.	Do do	
47	Do do to the Proprietor of the Daily Post.	Do do	
48	The Assistant to the Resident was requested to apply to the Government of India by telegraph for the extension of the period for the supply of court fees stamps to this Government from the Superintendent of Stamps, Madras, up to the 31st instant to enable that officer to comply with all indents that may be received by him up to that date.	20th do	3rd Sept. 1885, Part II, R.
49	Five printed copies of the return of prices current of food grains and salt in the Mysore State for the fortnight ended 31st December 1885, were forwarded to the Assistant to the Resident.	Do do	
50	Orders were passed cancelling the sale of land, survey No. 9 in the village of Biraganahalli in the Kunigal Taluk and directing that it be reserved and planted over for the use of the public.—Communicated to the Deputy Commissioner, Bangalore District.	Do do	
51	Letter No. 1126—391, dated 12th December 1885, from the Deputy Commissioner, Kolar District, regarding the maintenance of tanks restored by the Public Works Department in the Ramasagar Series, Kolar District, was forwarded (in original) to the Secretary, Public Works Department, and certain vernacular papers on the subject were returned to the Deputy Commissioner, Kolar District.	Do do	
52	In reply, the Inam Superintendent was informed that the inam villages of Mailanahalli and 4 others referred to by him might be settled on the principle laid down in Proceedings No. 2387—123, dated 17th July 1884, and the inam registers of those villages were returned to the Superintendent, Inam Settlements.	Do do	
53	Sanction was accorded to the alienation of survey No. 2 for building purposes in the village of Amratur in the Kunigal Taluk with the intimation that a note should be made against this	21st do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
	No. in the survey accounts.—Communicated to the Deputy Commissioner, Bangalore District and the Survey Superintendent.		
54	Copy of an application, dated 12th January 1886, from Mr. J. D. B. Gribble for certain lands in the Kolar District for gold mining purposes together with 2 plans, were forwarded to the Deputy Commissioner of the Kolar District for report.	21st Jan. 1886.	
55	Sanction was accorded to the writing off of irrecoverable balances amounting to Rs. 85—6—2 in the Chiknayakanhalli Taluk.—Communicated to the Deputy Commissioner of the Tumkur District and the Comptroller.	Do do	
56	In reply, the Deputy Commissioner, of the Mysore District was informed that for reasons stated the appointment of a separate pujari for the Asvatnarayanaswami tree at Tirumakudlu-Narsipur was not necessary, but if, in the opinion of the Muzrayi Officer, a pujari be indispensable, proposals for a revised establishment costing not more than Rs. 18—10—0 may be submitted.	Do do	25th July 1885, Part II, G.
57	A copy of Proceedings No. 583—12, dated 3rd May 1883, containing the form of sanad issued to the Patels in the State, was forwarded to the Secretary to the Chief Commissioner of Coorg.	Do do	
58	In reply, the Deputy Commissioner, Bangalore District was informed that as the purchaser of certain land in the village of Neralur in the Anekal Taluk did not want it, he may give it up and that he could not get the deposit back, the land having been sold for building purposes only.	Do do	
59	A copy of letter, dated 12th January 1885 and of its enclosure, from Messrs. Hinde and Co., pointing out certain discrepancies in the acreage of the land granted to them for mining purposes, and stating that they have transferred the mining leases to the Nagamangala Inspecting Company and that the assessment on the lands would be paid by the Secretaries and Treasurer Messrs. Arbuthnut and Co., was forwarded to the Assistant Commissioner of the Hassan Sub-Division for note as well as for an explanation of the discrepancies, and Messrs. Hinde and Co. were requested finally to intimate the transfer to this office.	Do do	
60	Sanction was accorded to the writing off of Rs. 191—15—0 due by one Agasale Lingaiya of Kodihalli in the Belur Taluk.—Communicated to the Assistant Commissioner, Hassan Sub-Division, the Deputy Commissioner, Kadur District and the Comptroller.	Do do	
61	Two manuscript copies of the return of prices current of food grains in the Mysore State for the fortnight ending 15th January 1886, were forwarded to the Assistant to the Resident.	Do do	
62	With reference to his recommendation for the issue of fresh title-deeds in favor of Lakshminarayanavadhani for his inam lands in the village of Nonavinakere, Tiptur Taluk, the Deputy Commissioner of the Tumkur District was informed that fresh title-deeds could not be issued each time there is a change in the proprietorship.	Do do	
63	In reply to his letter No. 776, dated 10th instant, submitting for favorable consideration the prayer of Singalengar for the remission of a moiety of the assessment on his wet lands below the private tank of Gadyankanhalli, Gubbi Taluk, the Deputy Commissioner of the Tumkur District was informed that the grant of remission to cases like the one referred to was against the standing rule and could not therefore be sanctioned.	Do do	
64	In sanctioning the free grant of one acre of land assessed at Rs. 1—3—0 out of survey occupied No. 42 in the village of Bedanagere in the Kunigal Taluk for the extension of the village site, the attention of the Deputy Commissioner of the Bangalore District was drawn to the fact that there were already buildings on that number probably constructed without authority.	22nd do	
65	In reply, the Deputy Commissioner of the Shimoga District was requested to inform Tirumalachar of the Sulakere estate that there	Do do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
	was only one ram left in the Bangalore breeding establishment and that therefore it could not be spared.		
66	Sanction was accorded to the writing off of Rs. 613—4—0 being the moiety of assessment on wet lands in the Tumkur Taluk lying waste owing to the breach of the tanks.—Communicated Deputy Commissioner of the Tumkur District.	22nd Jan. 1886.	
67	Sanction was accorded to the grant to Subbannachar and another of 1 acre and 1 gunta of wet land out of Survey No. 113 Sub No. 2 under the Tumkur tank in exchange for a corresponding extent of the Inam which had been included in the Devarayadurga forest.—Communicated to the Deputy Commissioner, Tumkur District and the Survey Superintendent.	Do do	
68	A notification regarding the sale of the jodi villages of Venkataiyanachattram and Basavapur in the Chamarajanagar Taluk was forwarded to the Compiler, Mysore Gazette for publication in English and Canarese in 3 successive issues of the Gazette, with a request that 5 copies in English and 10 copies in Canarese may be forwarded direct to the Deputy Commissioner, Mysore District.	Do do	
69	Do do to the Proprietor, Daily Post for publication in 3 successive issues.	Do do	
70	In returning the vernacular papers connected with Survey No. 56 of Hiriyur which formerly belonged to Kallodi and which had been subsequently given to one Sidda, having been resumed on an incorrect report that the former was dead the Assistant Commissioner, Chitaldroog Sub-Division, was informed that the Dewan declined to disturb the existing arrangement.	Do do	
71	A notification transferring the Bedare kaval in the Anati Hobli of the Channarayapatna Taluk to the Arasikere Taluk, was gazetted.—Communicated to the Survey Superintendent and the Assistant Commissioners, French Rocks and Hassan Sub-Divisions.	23rd do	
72	In reply, the Deputy Commissioner of the Kadur District was requested to submit further information regarding the claim of Mr. Srinivasa Rao, holder of Pandevalli coffee jungle for a refund.	Do do	
73	In reply, the Deputy Commissioner of the Kadur District was requested to report if the cooly huts in the coffee estates and outside are taxed mohatarfa in all the Taluks of the District and the Hassan Sub-Division.	Do do	
74	The Inam Superintendent was requested to furnish copies of the undermentioned letters and the papers connected therewith on the subject of gogras allowances. To Inam Superintendent No. 5354—45, dated 8th August 1882. Do do No. 2810—18—66, dated 17th July 1882.	Do do	
75	In forwarding certain records and a letter received therewith from the muzarayi officer, Mysore, recommending that the inam once enjoyed by the temple of Avumaktesvara at Hanasoge in the Yedatore Taluk may be restored to it, the Inam Superintendent was requested to investigate the case with the evidence now offered and disposed of it on its merits.	Do do

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 5th February 1886.

READ—

Rules for Gold Mining leases in Mysore published with Notifications Nos. and 129, dated 10th February and 26th July 1881, respectively.

No. 6256-64—232, DATED BANGALORE, 5TH FEBRUARY 1886.

ORDER THEREON.—The recent marked progress in the development of the gold mining industry in Mysore has made it necessary for His Highness the Maharaja's Government to consider whether, in the interests of the State, the existing practice under which mining leases are granted to any applicant on a deposit of Rs. 1,000 should be allowed to continue any longer. After mature deliberation, they are of opinion that the time has arrived when a reasonable price, in addition to the present royalty and land assessment, may, very properly, be demanded for every block of land applied for for gold mining purposes. The policy of the Government in giving such lands without any price has been the means of establishing the industry upon a firm basis at least in the Kolar District, and of attracting large numbers of people to other Districts for mining purposes. The fact is that land containing gold has now in the market a certain value which it did not possess before, and His Highness' Government are therefore of opinion that they will not be justified in omitting to secure to the State a fair share of such value when granting leases hereafter. It is apprehended that the payment of a large price in the first instance would retard persons wishing to take up land for mining purposes and thus prejudicially affect the interests of all concerned. A far more preferable arrangement would be to adopt a self-adjusting rule, which, while not hampering those who wish to take up land for mining purposes, in the earlier stages of the enterprize, will, at the same time, secure to the Government a reasonable price for its land when a fair measure of success has been attained and when therefore the payment will not be felt as burdensome to any degree. A rule making every lease granted hereafter subject to the condition of the payment to the Government of a fine of 10 per cent of the consideration for every assignment will, it is believed, amply meet this end. A similar rule, it will be observed, was among the rules sanctioned by the late Chief Commissioner on the 10th February 1881. It was cancelled by the Rules of 26th July 1881 on the ground among others that the provision was easily evaded by fictitious sales for nominal prices in the first instance, upon which alone the fine was leviable. Any such evasion, however, is readily provided against by making the fine payable upon *every* assignment, whether made by the lessee himself or by his successors in title by virtue of assignments, only taking care to limit the amount of the fine upon a subsequent assignment to 10 per cent of the excess, if any, of the amount of consideration for such subsequent assignment over and above that for the previous assignment. A limitation to this effect will prevent the fine being needlessly burdensome to subsequent assignors. The arrangement altogether is a sound one, for, as the payment falls upon those who practically retire from the enterprize, it cannot possibly trench upon the funds which have to be found and devoted for the working of the mines.

2. Under such circumstances, His Highness' Government resolve to add the following rule to the Rules published with Notification No. 129 of the 26th July 1881, and to duly notify the same :—

> " XIV. Every assignment of the right, title and interest granted by the lease, whether such assignment be made by the lessees or their successors by assignment however remote, shall be subject to the payment to the Government of Mysore of a fine which shall be regulated as follows, namely :—for the first assignment a fine of $\frac{1}{10}$th of the consideration therefor, and for every subsequent assignment, a fine of $\frac{1}{10}$th of the excess, if any, of the amount of consideration for such assignment over and above the amount of consideration for the assignment immediately preceding it."

Illustration.

If the lessees assign the lease to A for a consideration of Rs. 100, the fine payable is Rs. 10; if A afterwards assigns the lease to B for a consideration of Rs. 1,000, the fine payable is Rs. $\frac{1,000-100}{10}$ or Rs. 90; if B afterwards assigns the lease to C and Company for a consideration of Rs. 1,00,000 in cash and of 500 shares in C and Company, the fine payable is Rs. $\frac{1\,00\,000-1,000}{10}$ or Rs. 9,900 in cash and 50 shares in the Company; and so on.

3. In the forms of leases to be granted hereafter, provision will be made for the due enforcement of the foregoing Rule.

PART I.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 18th February 1886.

No. 6577-80—74, DATED 18TH FEBRUARY 1886.

ORDER.—In 1881 and 1882 numerous applications were received for gold mining leases in various parts of the Province. Permission was generally given to the applicants to prospect and to select the land they wished to take up. To such as paid the required deposit and applied for leases, deeds of lease in the prescribed form have already been granted. In the case of others who failed even to complete their applications by paying the required deposits, no orders are now required, as no further notice can be taken of them.

2. There are, however, a few applicants who paid the required deposits for their applications and to whom definite blocks of land were allotted, but who nevertheless failed to take the needful steps to cause the leases to be executed. The default on their part was more or less intentional and due in most cases to a desire not to be encumbered—in the then state of the mining industry—with leases of lands, for the annual land revenue of which they would be liable. Most of them have now come forward and offer at once to execute the leases. Full details regarding all such applications are given in the subjoined statement.

No.	Taluk.	Village.	Name of original applicant.	Date of original application.	In whose favor lease is sought.	Extent. Acres.	Extent. Guntas.	Extent. S. Yds.	Annual Land Revenue Assessment. Rs. A. P.	Date of default to complete the lease.	Remarks.

3. With regard to the first 10 applications specified in the foregoing list, the applicants were all, it will be seen, individually called upon to execute the required leases more than 3 years ago, but they have taken no steps whatever to respond to that call; nor have they paid the land revenue upon the lands allotted to them. It cannot therefore be held that they can now come forward and claim as a matter of right the leases for the lands allotted to them 3 or 4 years ago.

Cases 1 to 10.

4. The grant of these leases was at first delayed owing to certain disputes between these applicants and Messrs. Bertie, Gooch and others as to the identity of the lands respectively selected by them. These disputes were finally disposed of by Government in August 1882 and Messrs. Bertie, Gooch and others were allowed to withdraw their applications. This fact was duly notified to Messrs. Anderson and Narayinsami Mudaliar and Major-General Ottley, who nevertheless failed to take any steps whatever to execute the leases. Their claim for the lands in question cannot strictly be said to continue to exist.

Cases Nos. 11 and 12.

5. In regard to cases 13 to 17, Mr. W. P. Stephenson acted as the agent of the applicants. So far back as 18th January 1882, he was called upon to cause the leases for Dodbedarahalli, Ganangur, Subbankuppe and Melapur blocks to be executed by the proper parties.

Cases 13 to 17.

About the last named block nothing more has since been heard.

In regard to Dodbedarhalli block, said to belong to Mr. Hepburn, Mr. Stephenson, on the 1st June 1882, asked that an addition of 32 acres might be made to it. This request was acceded to and the required information was communicated to him on 4th September 1882.

On 1st June 1882, Mr. Stephenson also asked for permission to exchange the Ganangur and Subbankuppe blocks for two others, *viz.* (1) the revised Ganangur block in the Seringapatam Taluk and (2) an altogether separate block in the Attikuppa Taluk, *viz.* the Belaganhalli block. Full particulars of the revised Ganangur block were communicated to him on 4th September 1882, when he was called upon to cause the early execution of leases for all lands applied for in his name, including, in addition to those already mentioned, the Hunjinkere and Tonnur blocks. It will thus be seen that there was no reasonable excuse for neglecting the execution of leases in cases 13 to 16.

The application for the Belaganahalli block in the Attikuppa Taluk was reported upon by the Deputy Commissioner so far back as 9th September 1882, but Mr. Stephenson's claim to this land in lieu of the Subbankuppe block in the Seringapatam Taluk is of a doubtful nature; for there is nothing to show that the exchange sought for was ever sanctioned. At any rate, the claim can only be allowed to the extent of land available after the completion of full allotment to previous applicants in the Hemagiri and Bellibetta tract.

6. The land pointed out by Mr. T. Thompson to the local authorities was upon measurement found to be 130 acres 11 guntas 72 square yards on 11th December 1883, this fact was communicated to him, and he was at the same time called upon to execute the required lease, a copy of which was forwarded to him for information. He thereupon promised to send the lease, but asked for more land to make up one square mile. In January 1884, he was called upon to send a plan of the additional land he wanted, but the very rough plan which he sent in April 1884 was found to be of no use by the local authorities, who in March 1885 called upon him to appear in person or by agent to point out the land, a requisition with which he has not yet complied. On 20th February 1885, he was, in reply to an enquiry, informed that his title was not complete till the lease was executed. On 28th January 1886, however, he enquires if his land is free-hold and if his title is

Case No. 18.

clear, promising hereafter to come and point out the land. It will be seen from what has been said above that he has no just grounds for complaint if the Government do not now consider themselves bound to grant him one square mile in the locality in question.

7. In regard to the foregoing cases 1 to 18, although as already stated, the default made by the applicants has been of such a nature as to justify the Government in refusing to grant the lands now to them, yet, having regard to the fact that they have all taken considerable trouble in prospecting the lands, His Highness the Maharaja's Government are willing to view their case with some consideration and will grant to such of them as may at once apply leases under the Rules published with Notification No. 129, dated 26th July 1881, as modified by Notification No. 196, dated 5th February 1886, without claiming new deposits or arrears of land revenue. This concession, however, is subject to the express condition that the leases must all be executed and signed by the applicants and submitted to the Dewan for his signature on or before the 31st March 1886, after which date no action whatever will be taken upon the applications in question and the lands comprised in them will be at the absolute disposal of Government for allotment to new applicants. A copy of this order will be communicated to every applicant concerned, and the substance of it will be duly notified in the Gazette.

8. On 23rd November 1881, General Beresford and Mr. W. Lousdale applied for 6 square miles in the Mandya Taluk, but as only Rs. 3,000 were paid at the time as deposit money, and as there was no means of knowing to which 3 of the 6 square miles asked for this deposit applied, no steps were taken to survey or allot any lands under this application. Mr. Lousdale has now come forward to revive his application and to pay the balance of the deposit money. His Highness' Government are pleased to condone the delay and to direct the Sub-Division Officer, French Rocks, to survey and demarcate the lands which may be pointed out by Mr. Lousdale or his agent. Copies of the plans received with the original application will also be sent to the Sub-Division Officer, who will be requested to report upon the lands in question, together with a statement in the prescribed form. On receipt of this report, Mr. Lousdale will be granted a lease under Rules contained in Notifications dated 26th July 1881 and 5th February 1886.

9. The execution of a mining lease for Mr. A. H. Batchelor for a block of land in the Chiknayakanhalli Taluk has been delayed under peculiar circumstances. The lease deed which was sent to him in January 1883 for being stamped and for his signature has miscarried in the Post Office. A new lease will accordingly be at once drawn up in the form prescribed by the Notification of 26th July 1881, and it will be sent to him for execution on proper stamp.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 18th February 1886.

No. 6664-72—106, DATED BANGALORE, 18TH FEBRUARY 1886.

ORDER.—His Highness the Maharaja's Government resolve to substitute the following revised Rule XIV of the Rules for the grant of gold mining leases in lieu of the Rule XIV adopted in Proceedings No. 6256-64—232, dated 5th February 1886 :—

"XIV. (1). Every assignment of the right, title and interest, granted by the lease, whether such assignment be made by the lessees or their successors by assignment however remote, shall be subject to the payment to the Government of Mysore of a fine which shall be regulated as follows, namely :—for the first assignment a fine of $\frac{1}{10}$th of the consideration therefor, and for every subsequent assignment a fine of $\frac{1}{10}$th of the excess, if any, of the amount of consideration for such assignment over and above the amount of consideration for the assignment immediately preceding it.

"(2). For the purpose of computing the fine aforesaid, any shares in a Company which may form the whole or part of the consideration may, at the option of the Government, be regarded as equivalent to the nominal value of such shares.

"(3). The Government always to have the power of determining the present value of the consideration for a previous assignment, when the amount thereof has to be deducted from the amount of the consideration of a subsequent assignment for the purpose of computing the fine leviable on the latter.

Illustration.

"If the lessees assign the lease to **A** for a consideration of Rs. 100, the fine payable is Rs. 10 ; if **A** afterwards assigns the lease to B for a consideration of Rs. 1,000, the fine payable is Rs. $\frac{1,000-100}{10}$, or Rs. 90 ; if B afterwards assigns the lease to C and Company for a consideration of Rs. 1,00,000 in cash and of 500 shares in C and Company, the nominal value of each share being £ 1, the fine payable is Rs. $\frac{1,00,000-1,000}{10}$, or Rs. 9,900 in cash together with either 50 shares in C and Company or £ 50 in cash at the option of the Government ; if C and Company afterwards assign the lease to D and Company, either for an annual rent of £ 10,000 or for a royalty of 10 per cent of the proceeds of the mine, the fine payable is either £ 1,000 per annum or a royalty of 1 per cent of the proceeds of the mine, as the case may be; f the under-lease from C and Company is afterwards assigned by D and Company to E for £ 10,000 in cash and £ 10,000 payable at the end of two years, the fine on account of such assignment is £ 1,000 in cash and £ 1,000 payable at the end of 2 years, less such present value as the Government may fix for the annual rent of £ 1,000 or for the royalty of 1 per cent of the proceeds of the mine leviable on account of the under-lease to D and Company."

R. VIJAYINDRA RAO,
Secretary.

	of the Government of India to the release of convict Bora No. 13130 with permission to return to his native place, were forwarded to the Inspector General of Police and the District Magistrates of Mysore.		
13	An application from the District Magistrate of Bangalore for the arrest and surrender of one Sultan Bég alleged to be now residing in Triplicane, Madras, was forwarded in original to the Assistant to the Resident together with certain other papers.	16th Feb. 1886.	
14	A copy of letter No. 10005—97, dated 9th February 1886, from the Inspector General of Police in Mysore, submitting further information regarding the mail robbery which took place recently between Yelval and Bilikere, was forwarded to the Assistant to the Resident.	Do do	
15	Three summons were returned to Colonel W. Hill, Justice of the Peace in Mysore duly served on Messrs. L. Ricketts, H. Hudson and Murry Gungiah.	18th do	
16	In forwarding certain papers (to be returned), the Assistant to the Resident was requested to issue a warrant for the surrender of Kondappan *alias* Yarrakonda who was now in police custody at Ambur, North Arcot District.	Do do	
17	Sanction was accorded to the remission of two months and fifteen days of the sentence passed upon Rudraiya of the Shimoga Jail and his release on the 3rd March 1886.—Communicated to the Inspector General of Prisons.	20th do	
18	The Assistant to the Resident was informed that during the year ending 31st December 1885 no cases were tried under the European Vagrancy Act, IX of 1874 in Mysore.	23rd do	
19	In forwarding letter No. 397—144, dated 23rd instant, from the Assistant to the Resident in original together with its enclosures (all to be returned), the District Magistrate of Tumkur was requested to state if there was any objection to the licenses being granted to the men therein mentioned.	24th do	
20	A summons received from the Sub-Judge of Karwar was forwarded to the District Judge, Nagar, to be served on Subba Rao, Venkatramanaiya of Seravanti, Sagar Taluk and returned to this office with the mode of service duly endorsed thereon.	Do do	
21	An assessors summons was returned to the Registrar of the Chief Court duly served on Desikachari of this office.	Do do	
22	A copy of letter No. 524, dated 7th ultimo, from the District Magistrate of Kadur, proposing that as Sollebail and Koppa are centres of all trade in the Koppa Taluk, the Amildar of that Taluk should be required to hold his criminal court once a month at least in those twons instead of trying all cases at Head-Quarters was forwarded to the Registrar of the Chief Court for the opinion of the Judges.	25th do	
23	The Registrar of the Chief Court was informed that S. V. Desikachari having proceeded to Mysore on public duty, could not conveniently be ordered to serve as an assessor in the Chief Court on the 1st proximo and requested to dispense with his attendance.	26th do	

OFFICE OF THE DEWAN OF MYSORE,
Bangalore, 28th February 1886.

R. VIJAYINDRA RAO,
Secretary.

PART II.

REVENUE.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF FEBRUARY 1886.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	The Deputy Commissioner, Bangalore District, was requested to submit early the statement of lands taken up by the Madras Railway Company for the year ending 31st December 1885.	1st Feb. 1886.	
2	In reply, the Deputy Commissioner of the Bangalore District was informed that the Sivaganga Matt was at liberty to introduce any change in the tenure of the lands belonging to it, provided the ryots were willing and that the change in the tenure was not opposed to any guarantee that might have been granted to the ryots when the lands were under Government management.	2nd do	
3	With reference to the return of estimated jamabandi Class III, No. 1 for the current official year, the Deputy Commissioner of the Tumkur District was requested to explain the great decrease in the estimated demand under the head Sayer in the taluks as compared with that of last year.	Do do	
4	Five printed copies of the return of prices current of food grains and salt in the Mysore State for the fortnight ending 15th January 1886, were forwarded to the Assistant to the Resident.	Do do	
5	In returning certain vernacular papers, the Deputy Commissioner of the Bangalore District was informed that the owner of land No. 13 with the tope and mantap referred to in the village of Tarhunse in the Bangalore Taluk being evidently in possession of them from 1875, he could not be summarily deprived of his property.	Do do	
6	A revised statement regarding the jodi Ballur village in the Kolar Taluk to be substituted for the one sent to him on the 4th January 1886, was forwarded to the Proprietor of the Daily Post with a request that the notification therewith forwarded may be republished in 3 successive issues of that paper.	Do do	
7	Do do to the Compiler of the Mysore Gazette.		
8	In forwarding an application from Mr. T. Inman for Mr. Scott for the grant of 2 square miles of land for mining purposes in the Honnali Taluk, the Deputy Commissioner of the Shimoga District was requested to submit a statement showing the description, &c., of the land, and Mr. Inman was requested to point out the land accurately to the taluk authorities, and informed that a formal receipt signed by the Comptroller for the sum of Rs. 2,000 sent by him would be sent to him in due course.	Do do	
9	Orders were issued to the Deputy Commissioner of the Kolar District (1) to submit copies of certain plans and the records relative to certain lands applied for mining purposes together with plans and prices showing the action in the matter, (2) to direct the Amildars not to receive any applications for lands for mining purposes but to refer the applicants to this office.	3rd do

PART I.
REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 17th March 1886.

CAMP No. 85, DATED CAMP MYSORE, 17TH MARCH 1886.

ORDER.—The Superintendent of Revenue Survey will be so good as to depute one or more competent Survey officers to make a careful survey of the 21 blocks of land specified in the accompanying schedule for which Gold mining leases have been either granted or promised in the Taluks of Mandya, Attikuppa, Nagamangala and Seringapatam. Plans of the various blocks prepared by the applicants and revenue statements of lands included therein, prepared by the Revenue officers, are forwarded herewith for the information of the officers deputed.

2. These officers should place themselves in communication with the local revenue authorities, and they should test the correctness of the plans (herewith forwarded) by actual careful survey of each block with reference to such boundaries as may be pointed out by the local revenue authorities or by the applicant, and with reference also to any boundary marks which may have been already erected. If in any case the area ascertained by the Survey officer is in excess of the area shown in the revenue statement and applicant's plan, the discrepancy should be reported upon for the final orders of the Dewan.

3. The Survey officers deputed should, when there is no discrepancy as to area cause the needful boundary marks, if not already existing, to be at once erected in communication with the Sub-Division Officer, French Rocks, the bill of cost when not recovered from the applicants being submitted to this office for adjustment.

4. They should also prepare a careful separate map for each block marking thereupon the principal streams, hills and other features by which it could be readily identified on a map of the country. The separate map thus prepared should be on a scale of 8 inches to the mile In the case of land for which a lease has not yet been executed, the map should show what portion of the block may conveniently be cut off on the ground of any discrepancy such as that referred to in para 2 above. In thus cutting off a portion, the wishes of the applicant if present may be consulted as far as possible, but not so as to leave any intervening space between two or more contiguous blocks.

5. A statement in the accompanying form should be prepared and engrossed upon the map for each block, showing the quantity and description of the lands of each village.

6. The Secretary, Public Works Department, will be requested to send to the Superintendent, Revenue Survey, Topographical Survey Sheets Nos. 55, 56 and 57, and upon these sheets as well as upon an extract of the Revenue Survey map of Attikuppa Taluk each of the blocks above referred to should be located, and the maps themselves should be returned to this office together with the separate maps of the various blocks already referred to.

7. The work referred to in the preceding paragraphs, when not done by an Assistant Superintendent, should be examined as regards each block by an officer not below the grade of an Assistant Superintendent.

8. A very early reply to this reference is requested. Correct maps of blocks Nos. 1 to 12 of the accompanying schedule for which leases have not been granted are very urgently required, and these may be sent as soon as ready, the others being prepared and sent afterwards. The date on which the Survey officer would commence the survey of these twelve blocks may be communicated to the applicants concerned or their agents, upon their application. They have been directed to apply to the Deputy Superintendent, for all needful information, to be present at the survey to give the required help to the Survey officer and to pay the cost of erecting permanent boundary marks. The survey and erection of boundary marks should not be delayed if they fail to appear.

9. As the Attikuppa Taluk is now being settled, it would be convenient if, as regards the blocks of land in that taluk, the Survey Department can furnish the Dewan with a statement in the accompanying form of the assessment of the included lands as revised by the settlement, unarable waste land included in each block being assessed at 8 annas per acre. The blocks of land in Nagamangala and Mandya Taluks which have to be surveyed are by the side of the French Rocks-Nagamangala road, those in the Seringapatam Taluk being on either side of the Railway near Kalasasana and Settihalli. The Sub-Division Officer, French Rocks, will immediately issue the requisite detailed instructions to the Amildars concerned. It is noted that all blocks have been previously reported upon by the Amildars, and there can therefore be no difficulty in their now identifying them.

R. VIJAYINDRA RAO
Chief Secretary.

To—The Superintendent of Revenue Survey.
The Assistant Commissioner, French Rocks Sub-Division.
The Deputy Superintendent, Revenue Survey.
The Secretary, Public Works Department.
All the gentlemen named in the statement.

PART I.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 3rd March 1886.

From the Superintendent, Government Gardens, Bangalore, To the Secretary to the Dewan of Mysore, No. 42, dated 25th June 1885.

I have the honor to submit the usual report on the progress and condition of the Government Botanical Gardens and Parks during the past official year, for the information and orders of Government.

I regret the delay, incurred by additional out-door work during the recent drought and water scarcity.

I. GOVERNMENT BOTANICAL GARDENS.

2. *Season.*—The total rain-fall gauged in the Gardens from 1st April to 31st March was 25 inches and 26 cents, this quantity being nearly ten inches short of the average supply. The deficiency of rain was most felt during the months of June, July, August and September; and in fact the south-west monsoon may be almost said to have failed.

There was a fall of 2 inches on the 28th September which afforded a good deal of water to the garden tank, but as the north-east monsoon was also comparatively light, the result culminated in a disastrous scarcity of water. The tank became exhausted on the 12th March and remained perfectly dry until the 19th of May. Luckily the garden possesses several good wells which substituted the irrigation supply, but the unusual strain on these reduced their capacity much below our actual requirements, and many surplus plants have suffered, while some died. Altogether the garden was in a sad plight for 2 months, and I sincerely hope we shall never be driven to such extremes again.

The above remarks apply in a less degree to the Parks, where the vegetation is mostly hardier and not subject to tank irrigation. But in the Cubbon Park, near the Post Office, I regret to report that 26 Casuarina trees have died. The ground there is rocky in its under-stratum and the roots may have touched the rocks.

Although the year under review was unfavorable to cultivation on the whole, still it is remarkable how well nature responded to the call when rain did fall opportunely. Such was the case during the months of October and November, when we experienced excellent garden growth. This latter result added materially to the fine display of roses and other flowers, seen at the Horticultural Show in the following winter.

3. *Labor.*—The permanent labor as provided by the fixed establishment is now ample, but I could still find much useful work for a larger gang of prisoners if they could be spared. The gang is now reduced to 20 convicts.

4. *Construction and Repairs.*—Large quantities of gravel have been carted for the repairs of roads and walks, which are kept in good order. A sum of Rs. 230—5—6 was paid to Messrs. Paul and Sons of London for the last consignment of plant labels, and I am glad to report that the latter are appreciated by the public, and especially by students of Botany.

No extension has been made to buildings, but all minor repairs to the existing structures have been promptly met. As certain villagers are fond of looking at the tigers, &c., for hours together, we have made it more comfortable for them by erecting a large stone seat near the dens.

A small lawn mower, purchased from funds of this heading, has supplied a much felt want, and the lawns lying between the parterre gardens have been much improved by its frequent use. A new mat was furnished to the Darwinia at a cost

of Rs. 26. The total expenditure under heading "Construction and Repairs" is explained as follows :—

	Rs.	A.	P.
Paid to Paul and Sons, London, for labels	230	5	6
Lawn mower	81	7	6
Carting gravel for roads and walks	74	14	8
Repairs to doors in menagerie	20	0	0
Mat for Darwinia	26	0	0
Miscellaneous minor repairs	65	3	0
Total	497	14	8

5. *Cultivation and propagation of plants.*—As usual, much attention was devoted to the acclimatization of new industrial plants and several species of interest have been added to this class. Chief among these is the *Erythroxylon coca* of which so much has been heard of late, and which now promises to become, in addition to other properties, a medicinal product of much value. Dr. Bidie, C.I.E., presented our plants (2 in number) and that officer has recently published an able paper on the uses and properties of coca.

6. The plant is so rare at present that I have not been able to increase the original stock presented by Dr. Bidie, but fortunately these have thriven well and are now about 2 feet high, with a robust branching habit of growth. One is planted out in a suitable spot, while the other is still in a flower pot. The difference of growth is insignificant, but strange to say both plants have flowered freely during this hot season, a result due, perhaps, to the extreme drought. I shall continue to watch the growth of these plants with the greatest interest and care.

7. Experiments on a small scale have been made with the following varieties of cotton received from the Royal Botanic Gardens, Kew:—

1. Bamiah cotton.
2. Uplands American cotton.
3. Fiji cotton.

As only small quantities of seeds were presented, we have not raised many plants, the number propagated being as follows:—

Bamiah	5 plants.
Uplands, American	4 „
Fiji	36 „

The first named has been the most productive of cotton and seed.

The habit of growth is erect, the single leader attaining a height of 8—10 feet. Planted somewhat thickly on a large scale, this variety cannot fail to be most productive and profitable. About half a pound of seeds are available for further trial on a larger scale, and for distribution.

The second variety (Uplands American) although much less productive, as yet, shows evidence of being a good bearer and an excellent cotton. The latter is whiter and more delicate in texture than the other varieties, and it is, in the opinion of those who have seen it, by far the best cotton of the three. No. 3 (Fiji) has grown robustly to wood and leaf, but the capsules were few in number and inferior in size and produce. This appears to be the most perennial and hardy of the kinds under report. Samples of the above cotton have been deposited in the Museum, and, I hope, within a few months, to be able to supply seeds for trial in the cotton districts.

Under exceptional conditions of weather, the plants have done remarkably well, and their present healthy condition goes a long way to prove their fitness for local cultivation.

8. Further attempts were made to propagate the "Salt Bush" (*Atriplex nummularia*) but I regret without success. We have a silvery foliaged shrub (an Atriplex) in the garden which, if not the salt bush itself, is very nearly allied to it. Further efforts shall be made to identify the plant, as it grows very luxuriantly.

9. The cultivation of "Zulu Corn" (a variety of maize or Indian corn) has been pursued with advantage, and owing to the proximity of the ordinary country variety, a cross was unwittingly obtained. Zulu corn consists of large white cobs (the grain resembles ivory) which attain full maturity in three months, and I observed they were much infested by black ants that congregated around the cobs to collect saccharine food. On asking the Mestri why the new corn was infested by ants in preference to the old variety, he immediately said, "it was owing to its better quality". The cross, or new variety, takes after the Zulu corn in vigour and the country maize in colour.

Seeds of both kinds have been presented to a few cultivators in the neighbourhood, and we have still a quantity in stock.

10. Seeds of the important plants yielding "Esparto grass" and "Canadian rice" were received from Kew, but unfortunately they have not germinated. Probably they were too old.

11. The "Tomato tree" (a species of Solanum) has been added to the list of cultivated plants.

12. The Ceara rubber tree continues to thrive well and measures are being taken to extend its cultivation here and in some of the Districts. The original trees have borne their second crop of seeds, from which about a thousand plants have been raised. During the north-east monsoon a number of plants were put down at the following places under various conditions of soil and exposure :—

Lal-Bagh	100	Plants.
Cubbon Park	50	"
Rocks near Palace	108	"

Being deciduous, the Ceara tree loses its leaves at a time when they are least required *i. e.* during the dry summer season, and, with this provision, the species has every chance of becoming well established in a few years. With regard to its commercial value little has been proved, further than that the supply of rubber is insignificant during the first 5 years of age.

Our four-year-old trees yield a considerable amount of milky juice, but not enough to warrant their being tapped for the collection of rubber. The trees are said to be ready for tapping at 6 years of age. Judging from a large ball collected for deposit in the Museum, the rubber is of excellent quality. It is also an article for which there is a growing demand in the home markets.

13. A large number of plants have been raised by various modes of propagation, and in addition to the current requirements for sale and distribution being well supplied, there is still a large surplus in the nurseries. Of the latter the most interesting are as follows :—

List of plants available.

	Name.	No.
1	Boehmeria nivea	3,000
2	Ceara rubber	1,000
3	Theobroma cacao	200
4	Liberian coffee	200
5	Cypress of kinds	500
6	Casuarina	100
7	Mimusops elengi	100
8	Eucalyptus of kinds	200
9	Grevillea robusta	200
10	Spathodea campanulata	50
11	Dalbergia sissoo	100
12	Filicium decipiens	300
13	Artocarpus integrifolia (Jack)	100
14	Jambosa vulgaris (Rose apple)	100

	Name.				No.
15	Poinciana regia	..	..	..	100
16	Nephelium litchi	..	..	..	200
17	Peach (country)	..	..	.	300
18	Orange	..	..	..	100
19	Guava (country)	.	..	..	150
20	Pomegranite	..	..	..	100
21	Cassia florida	..	..	..	100
22	Moreton bay chesnut	..	..	..	100
23	Fan palm	..	..	..	90
24	Averrhoa carambola (kamarac)	..	..		80

14. *Ensilage.*—I had every intention of trying this remarkable method of storing green fodder, on a small scale, but I soon found that labor and money which the garden could ill afford would be needed to conduct the experiment, and was obliged therefore to reluctantly give it up. Experiments of this kind are better adapted to farms, where there is ample material to work with, than to a garden such as the Lal-Bagh.

15. *Horticultural Show.*—Owing to the failure of rain, the July Show was cancelled and a somewhat larger Show was held in January. The entire outlay in connection with the latter amounted to Rs. 633—7—6, but as Rs. 221—4—0 were collected at the admission gate, the actual cost to Government was only Rs. 412—3—6. The Show was considered by the judges, to be, on the whole, a good one, and my own opinion corroborates this estimate. The display of roses in pots, and especially those belonging to His Highness the Maharaja, and the Dewan, was certainly very fine.

16. *Menagerie.*—A few additions, as seen from the following list of donations, have been made to the collection of animals, and the cost of maintenance has been thereby slightly increased, the total outlay being Rs. 3,497—14—8.

We are in need of a lion and tiger, there being only female representatives of these animals in the collection, and left to themselves the latter are not very happy. Cubs are plentiful at Calcutta and elsewhere, but the high prices asked for them have hitherto been prohibitive.

17. *Plants and Seeds issued from the Garden.*—Free issues of plants and seeds were made by order to various industrial and charitable institutions, and a good number of donations have been made to other gardens in exchange for similar presents. The total number of plants and packets of seeds issued during the year are as follows:—

3,750 packets of seeds.
10,945 plants.

18. *Donations received.*—I am glad to report that considerable interest is evinced in the gardens, as the following list will prove:—

Government Botanical Gardens, Saharanpore.—Seeds of the "Salt bush" and "Osage orange."

Major Johnston, Mettapollium.—Seeds of Passiflora, Prosopis, and Zulu corn.

Royal Botanic Gardens, Kew.—46 packets of seeds and copy of Annual Report (1882).

Surgeon General G. Bidie, C. I. E.—Seeds of Mahogany and plants of Ricinus communis.

The Deputy Commissioner, Bangalore.—A cheetah.

Messrs. Hinde and Co., Calicut.—Seeds, and a new Begonia.

J. Vander Swaelmen, Esq., Ghent. Seeds of Victoria Regia.

Agri Horticultural Society of Madras.—Copies of monthly proceedings with numerous plants and seeds.

Mr. Nagalinga Mudaliar.—An antilope.

Under-Secretary to the Government of Madras, (Revenue).—One copy of Mr. Hutchins' Report on Casuarina in the Nellore District. One copy of Administration Forest Report, (1882—83).

The Lady Superior, Bangalore.—Plants of the white Acacia, Spanish broom, and others of interest.

Dr. Duncan, Madras.—Copies of the University Calendar.

E. H. Haughton, Esq., Madras.—Crotons and Dracænas of kinds.

Lieutenant Hinde, Royal Lancers.—2 monkeys and a wild cat.

Revd. S. Mateer, F. L. S, Trivandrum.—13 var: of Eucalyptus seeds.

Agri Horticultural Society of India.—1 packet of seed—Tricholoena rosea.

The District Forest Officer, Calicut.—Seed of Eliocarpus tuberculatus and Baccaurea sepida.

Mrs Holland, Bangalore.—An antelope.

Surgeon General Shortt, F. L. S.—Seeds of Anona cherimolia, &c.

George Hodson, Esq., Bangalore.—5 new Crotons.

Captain Strahan, 43rd Regiment.—1 brown bear.

F. G. Mclaughlin, Esq., Bangalore.—1 Samber and 1 spotted deer.

19. It affords me much satisfaction to be able to report favorably on the progressive ability of my chief assistants, the Clerk and the garden Mestris.

Financial Results.

20. *Receipts.*—The total amount realized by the sale of produce during the year amounted to Rs. 2,093—4—10. The usual sources of income are derived from the sale of (1) plants and seeds, (2) fruit and other crops; and the deficit in comparison to the receipts of last year is due to the failure of the latter.

21. *Expenditure.*—The disbursements under all headings of the sanctioned budget estimate amounted to Rs. 12,923—11—5 or Rs. 100—4—7 less than the full allotment for the year under report. A detailed statement of expenditure is here appended, and deducting the value of receipts (not including that of gratis issues), it will be seen that the Government Botanical Gardens have cost Rs. 10,830—6—7 during the year 1884—85.

II. CUBBON PARK.

22. *Condition of the Park.*—This central place of recreation continues to afford additional attractions to the public, and is now much frequented by pleasure seekers. Numerous garden benches have been provided by the Department, Public Works, so that every comfort is now provided to visitors.

The Xmas Fair held last December did not improve the grounds, while it added much to my responsibility in putting matters straight again. A good price was obtained for the lease of hay (Rs. 735) but owing to the drought and consequent failure of crop, the contractors were allowed a remission of Rs. 150, The season told severely on the Casuarina trees, 26 of which died near the Post Office.

23. *Labour.*—The small establishment of permanent coolies, supplemented by a gang of ten prisoners, have been sufficient to carry on the routine work of planting, weeding, and tidying up the grounds, but for more extensive works, these require to be augmented by temporary hired labour. Since Mr. Jones retired from the Overseership, Mestri Varadappa has looked after the work very satisfactorily.

24. *Receipts.*—The income derived from the sale of hay, fruit, firewood &c., amounted to Rs. 803—7—6.

25. The expenditure under all heads amounted to Rs. 956— 9—8.

The actual cost to Government Rs. 153—2—2.

III. PALACE PARK AND GARDENS.

26. *Improvements.*—The good work of recent years is every day becoming more apparent in these fine grounds, parts of which now rival the Lal-Bagh in the opinion of many. During the past year much attention was given to the proper details of gardening, and efforts have been successfully made to improve the cultivation as well as the collections of flowering and ornamental plants. Excluding the Botanical Gardens, H H. the Maharaja's gardens now contain the most varied collections of plants in Bangalore. The fernery has been a great success so far as it goes, but it is already too small to accommodate the numerous species which have accumulated under its roof. I hope to persuade His Highness to order an extension of the building at an early date.

Cost of Maintenance.

27. In addition to the prescribed outlay of Rs. 3,000 per annum which is under my control, occasional small grants have been allowed by the Assistant Commissioner in charge of the Palace, for the purchase of English seeds and reaping of hay, &c., but including the latter, the total expenditure has not exceeded Rs. 3,242—8—5.

Garden Produce.

28. The fruit and vegetable gardens now yield a handsome return in produce, and with the annual crops of hay, the above expenditure is largely compensated for.

29. *Employés.*—Mr. Battersby continues to render good service, and I am also satisfied with the Mestris and other subordinates.

MYSORE GOVERNMENT BOTANIC GARDENS, BANGALORE.

Statement showing the Budget Grant and the Actual Expenditure for 1884—85.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 3rd March 1886.

No. 6868—537, DATED 3RD MARCH 1886.

ORDER.—Ordered that the report read above be printed.

2. The year 1884—85 was a bad year for the gardens and parks. The rain-fall being 19 inches below the usual average. Both the monsoons having failed, the Lal-Bagh tank, which irrigates it, failed considerably and but for the good supply in the large wells of the garden, the loss would have been very serious. The wells too having nearly run dry in the hottest part of the year, there was a heavy loss in the surplus plants.

3. The Lal-Bagh is worked by its permanent establishment consisting of 61 servants, assisted by 20 convicts per day from the Bangalore Central Jail. The Superintendent would find useful work for a larger number of convicts, if available, and the Dewan would request the attention of the Inspector General of Prisons to this point, if possible, the strength of the convict labour may be increased.

4. *Cultivation and propagation of plants.*—A very interesting account is given in the report under this head and the Dewan trusts that under the careful management of Mr. Cameron, considerable success will be attained. The experiment of the three kinds of cotton cultivation, the Bamiah, the Uplands American and the Fiji, is very encouraging, likewise the experiment of Ceara rubber.

5. The Cubbon Park continues to be a central place of recreation and the addition of garden benches is a great improvement.

6. The thanks of Government are due to Mr. Cameron for the good management of his charge, and to the ladies and gentlemen mentioned below for their donations to the Lal-Bagh.

Major Johnston, Mettapolliem.
Superintendent, Government Botanical Gardens, Saharanpore.
Director Royal do Kew.
Surgeon General G. Bidie, C. I. E.

Chief Secretary.

To—The Superintendent of Government Gardens.
The Inspector General of Prisons.
The Heads of all Departments.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 5th March 1886.

No. 6977—549, DATED 5TH MARCH 1886.

REVIEW BY THE DEWAN.—The report of the Inspector General of Prisons for the year 1884 will be printed and circulated.

2. The total population of all classes of prisoners including the number discharged and remaining on the last day of the year was 6,923; the discharges from all causes being 5,787 and the number on the last day, 1,136. The daily average population was 1,235·927, which compared with the corresponding *figure for 1883 shows a decrease.

*1,380·545.

3. Of the *convicts* 1,068 at the end of 1884 there were 37 Christians, all males, 95 Muhammadans (84 males and 11 females), 808 Hindus (759 males and 49 females) 3 Budhists and Jains, males; and 118 males and 7 females of all other classes.

4. The bulk of the *convicts, (707 males and 51 females) were of ages varying from 16 to 40 and 251 males and 12 females were from 40 to 60. Convicts above that age were as might be expected few, 33 males and 2 females. The juveniles were 10 males and 2 females. The large majority of the convicts were as usual in for offences against property and person.

*1,068.

285 for persons.
731 for property.

5. The statement of re-committals (No. IV in the Appendix) shows that there were as many as 337 convicts under this head out of the total population of 3,543 convicts, 9·5 per cent.

6. The conduct of the prisoners is reported to have been on the whole good Their education has been attended to with fair amount of success and the mark system, by which they gain remission in the days of their imprisonment, is reported to be working well.

7. The cost of the Department including all items is detailed in the 10th. Statement of the Appendix. The figure for 1884 is Rs. 1,19,659 against Rs. 1,25,163 of the year previous. The decrease being due to the lower average daily population of 1884, the cost per head however was Rs. 96—0—1 against Rs. 90—10—6 of 1883, which is explained in the report thus—

1. That the establishment was retained in its former strength when the Jail population was bigger.
2. Nominal heavy cost of fixed Police guards charged to Taluk Lock-ups without regard to the number imprisoned but with reference to the proportionate distance of the Taluk Lock-ups from the nearest Jail.
3. An increase in the establishment of the Bangalore Central Jail in consequence of the return of many life term prisoners from the Andamans for incarceration in the Jail.

8. Under the head of convict labor and its result, there is little to remark: labor has been chiefly employed on what is technically called unremunerative work and on prison duties. Only 226·950 were employed on manufactures on an average.

9. The general health of the convicts has been fair though by comparison with the figures of 1883 it is not satisfactory. The average daily sick in the Hospitals shows an increase mainly in the Prisons of Shimoga and Mysore. Fevers, dysentery and diarrhœa were the chief diseases; fatal cases were 11:—

Remittent and continued fever	...	1
Cholera ...	...	1
General debility ...	...	2
Respiratory diseases	...	5
Dysentery and diarrhœa	...	2
		11

R. VIJAYINDRA RAO,
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

READ the following papers :—

Proceedings of the Dewan of Mysore, No. 4693-4706—167, dated Camp Mysore, 22nd November 1885.

ORDER.—It is proposed to re-constitute the following Taluks in lieu of the existing Sub-Divisions or Taluks :—

Malur in the Kolar District.
Devanhalli in the Bangalore District.
Malvalli in the Mysore District.
Arkalgud do do
Kankuppa in the Chitaldroog Sub-Division of the Tumkur District.

2. It is also in contemplation to re-constitute the following Districts, *viz* :—

Chitaldroog District—comprising the Talukas of Chitaldroog, Kankuppa, Davangere, Hiriyur, Chehakere and Holalkere, and possibly of Pavagada.

Hassan District—comprising the Talukas of Hassan, Manjarabad, Belur, Arsikere, Holé-Narsipur, Arkalgud, Channarayapatna, Attikuppa and Nagamangala.

On formi these Districts, it may be advisable to re-transfer the Kunigal Taluk from Bangalore to Tumkur District.

3. These changes in Districts may possibly render some changes of boundaries desirable in the following taluks :—

Davangere.	Holé-Narsipur.
Pavagada.	Attikuppa.
Manjarabad.	Nagamangala.
Belur.	Arkalgud.
Arsikere.	Kunigal.

4. The changes of taluk boundaries will be attended with some inconvenience, and the Dewan is not prepared to sanction such changes unless shown to be absolutely required.

5. The Deputy Commissioners and Sub-Division Officers are requested to study the subject carefully from all points of view, to consult the Amildars and Deputy Amildars concerned, and at an early date to submit their reports on the changes they consider to be absolutely necessary. The reports should be accompanied by carefully prepared maps explaining all changes proposed. For Taluks for which Revenue Survey or Topographical Survey maps have not been issued, tracings from the Ordnance maps should be used.

6. The revision will not take effect before the close of the official year.

Memo No. 5756-9—213, dated 16th January 1886.

With reference to the accompanying copy of Proceedings No. 4693—167, dated 22nd November 1885, regarding the revision of Taluks and Districts, the Dewan will be obliged if Mr. Thamboo Chettiyar, Mr. Ricketts, Colonel Grant, Major Bowen and Mr. Vijavindra Rao will form themselves into a Committee to consider the proposals received from the District officers and to draw up a complete programme of all changes required with reference to Revenue, Police, Department of Public Works, Prison and Judicial administration.

From the Deputy Commissioner, Bangalore District, To the Secretary to the Dewan of Mysore, No. 1130, dated 25th February 1886.

With reference to Proceedings No. 4693-4706—167, dated 22nd November 1885, I have the honor to state that in reforming the Devanhalli Taluk, I have proposed that Kalhalli Hobli may be retained in Kolar District, as its villages are distant from Kasaba Devanhalli, and that Avati Hobli of Chikballapur Taluk being quite close to Devanhalli, may be added on to it in exchange, as otherwise the taluk would become too small compared with Chikballapur or Sidlaghatta. A survey tracing showing the proposed changes was sent to the Deputy Commissioner, Kolar, and I have been expecting its return with his opinion for some time. I have also suggested that the northern parts of Avati and Vadigenahalli Hoblis may also be taken away, if no inconvenience is thereby caused to Shanbhog charges, &c.

2. As regards the formation of the Malvalli Taluk of the Mysore District, there is no objection to the re-transfer of villages constituting the Satnur and Halagur Hoblis of Kankanhalli Taluk. From the enclosed lists and sketch it will be seen that almost all the villages of Satnur Hobli are nearer to Kankanhalli than to Malvalli, and access to which is also difficult during the floods of the river Shimsha. The same remark applies to *four villages of Halagur Hobli also forming one Shanbhog's charge.

1. Darihar.
2. Buhalli.
3. Kachahalli.
4. Honnigenahalli.

3. As regards the villages added on to Closepet Taluk, they are so intermixed with those of Closepet and are so much near the latter Taluk Head-quarters, that their re-transfer to Malvalli seems to be inadvisable. I have written again to the Deputy Commissioner, Mysore, on this subject, and will submit my final opinion on receipt of his reply.

4. About the transfer of Kunigal Taluk back to the Tumkur District, there can be no objection, as it is nearer to Tumkur and with the Devanhalli Taluk, this District will be quite large enough.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

om the Deputy Commissioner, Bangalore District, To the Chief Secretary to the Dewan of Mysore, No. 1201, dated 17th March 1886.

In continuation of my letter No. 1130, dated 25th ultimo, I have the honor enclose a survey tracing of the late Devanhalli Taluk, with the Avati Hobli of the ikballapur Taluk added on to it, and Kalhalli Hobli marked off in blue.

2. It will be seen that Devanhalli, as it stood before, was comparatively a all taluk; but as Kalhalli Hobli was distant from the Taluk Head-quarters and vati nearer to it, I proposed the exchange. But the Deputy Commissioner of olar made an alternative proposal that either the taluk should be re-constituted as stood formerly, or that the Kolar-Nandi road should be taken as the boundary e between the two Districts. The latter arrangement would deprive Devanhalli of arly three Hoblis, *viz.*, Kalhalli, Jangamkote, and Vadigenahalli, and reduce its e very much indeed. A modification had therefore to be proposed which was that lhalli and Jangamkote Hoblis might be retained in the Kolar District, and Avati ven to this. But as some of the Vadigenahalli Hobli villages were nearer to llaghatta (owing to its Head-quarters being at one end of the taluk), I suggested at the boundary line should be drawn to the north of Bhatrinhalli (*vide* red dotted e in map) due regard being paid to Shanbhogs' charges. To this, no reply has en as yet received.

3. The simplest way, however, to reform the taluk in my opinion would be as lows :—

(1.) Channarayapatna and Budigere Hoblis to be given back from Hoskote Taluk, with the marginally noted 5 villages (colored yellow) as they are intermixed.

Hirganhalli., Bidiganhalli, Mardiane, Kurbarhalli and Manchappanahosa-halli.

(2.) The Jala Hobli of the Bangalore Taluk to be taken back with the exception of Shanbhoganhalli.

(3.) The Kundana Hobli to be restored from Dodballapur Taluk with the exception of Dasagondanahalli.

(4.) The Avati and Devanhalli Hoblis to be added from Chikballapur Taluk.

(5.) The entire Vadigenahalli Hobli to be taken back from Sidlaghatta. Thus the Kalhalli and Jangamkote Hoblis would remain in the Kolar District.

4. From Statement (A) which shows the Hobliwar revenue of the late Devanlli Taluk, it will be seen that its former land revenue was Rs. 64,811—2—3 th 365 villages, and as above proposed, it will be 304 villages and about Rs. 5,000 s. From Statement (B) it will be seen that the taluk establishment cost will be out Rs. 676 a month, including a police guard for the treasury, and the present st of Rs. 148 per month for the Deputy Amildar's will be saved.

5. The arrangement proposed in para 3, if approved, will make Devanhalli a r sized compact taluk large enough for an Amildar's charge, and in accordance th that proposal, I submit a list of villages (C) to be re-transferred to Devanhalli.

6. Kunigal being given back to Tumkur and Devanhalli being reformed into a luk, will necessitate the transfer of the Munsiff's Court from Nelamangala to odballapur where there is a fine court house.

---

om the Deputy Commissioner, Bangalore District, To the Chief Secretary to the Dewan of Mysore, No. 1249, dated 31st March 1886.

In continuation of this office No. 1220, dated 22nd instant, has the honor to rward a revised statement of villages to re-constitute the late Devanhalli Taluk.

Revised List of Villages to re-constitute the Devanhalli Taluk.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

From the Deputy Commissioner, Kolar District, To the Secretary to the Dewan of Mysore, Revenue Department, No. 1474—518, dated Kolar, 1st March 1886.

With reference to the Dewan's Proceedings No. 4693-4706—167 of the 22nd November last, directing that Malur in the Kolar District and Devanhalli in the Bangalore District to be re-constituted, I have the honor to submit the following remarks—

2. The late Malur Taluk had, as stated in this office letter No. 856—375 of the 6th October 1882 to your address, consisted of 7 hoblis—

1. Malur.
2. Narasapur
3. Kudiyanur.
4. Lakkur.
5. Hulidenahalli.
6. Masti.
7. Tyakal.

Of these, No. 3 was abolished adding its villages to Nos. 1, 5 and 6. No. 2 was transferred to the Kolar Taluk in 1882. So now re-transferring Narasapur Hobli to Malur makes the old taluk complete. But the marginally noted 7 villages attached to the last mentioned hobli being too far from Malur and inconveniently situated among the villages of Venugal, Head-quarter of the Hobli Shekdar in the Kolar Taluk, I propose they may be retained in this taluk re-transferring the remaining 47 villages of the said hobli to Malur. This change does not affect the Shanbhogs' charges.

1. Yalavahalli.
2. Singanahalli.
3. Sajjanahalli.
4. Manjali.
5. Halehosapura.
6. Ankondahalli.
7. Bettahosapura.

3. There are neither Revenue Survey nor Topographical maps available for these parts of the Kolar and late Malur Taluks. The Ordnance map does not show most of villages but a very few important ones. I am not, therefore, able to submit any map to show the changes of these taluk boundaries. The enclosed Statement A shows the number of villages and hoblis to be added to Malur, and the establishment required for that re-constituted taluks.

4. I avail myself of this opportunity to bring to notice the desirability of transferring to Malur some villages of the Hoskote Taluk. They are not only much nearer to Malur, but also very inconveniently situated along with and around Lakkur Hobli in the Malur Range, so much so that the Hoskote Amildar cannot approach them without going into Malur. Besides, during my late visit, the ryots of these villages represented to me putting in a petition to the effect that it would be more convenient if their Amildar's office be at Malur which is about 5 to 10 miles from their places, instead of Hoskote, which is about 17 to 20 miles as can be seen in the Topographical maps Nos. 42 and 63. Their complaint in this respect is well founded, and this matter was already brought to the notice of Government in my predecessor's letters Nos. 832—236 of 18th August 1879 and 856—375 of 6th October 1882. I, therefore, submit that the marginally noted 11 villages may be transferred from the Hoskote Taluk to that of Malur. These villages have separate Shanbhogs for themselves.

1. Naranakere.
2. Jagadenahalli.
3. Lakkasandra.
4. Tirupati.
5. Kollukere.
6. Gollahalli.
7. Sampangikere.
8. Alambadi.
9. Samur.
10. Siddanahalli.
11. Nonamangala.

5. With respect to the re-constitution of the Devanhalli Taluk, I beg to forward herewith copies of the marginally noted correspondence which took place between me and the Deputy Commissioner of Bangalore. A glance at them will show that I have made three alternative proposals on his dissenting with me in my first arrangement, *viz.* all the villages lying to the north of the Kolar-Nandi road, as well as those within a couple of miles to the south of that road in the Jangamkote and Vadigenahalli Hoblis be retained in the Sidlaghatta Taluk, re-transferring the remaining villages to Devanhalli along with the Avati Hobli of the Chikballapur Taluk, with the exception of 11 villages which are far from Avati.

"From" Deputy Commr., Bangalore, No. 1555 of 5th December 885.
"To" do No. 1152--756 of 23rd November 1885.
"From" do No. 1674 of 19th December 1885.
"To" do No. 1223--797 of 4th January 1886.
"From" do No. 1825 of 25th January 1886.
"From" do No. 1839 of 27th January 1886.
"To" do No. 1470—952 of 1st March 1886.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

6. Captain Macintire proposes to re-transfer the whole Jangamkote and Vadigenahalli Hoblis along with Avati. If this proposal be carried out, the Taluks of Sidlaghatta and Chikballapur will not only become too small in point of revenue, though not much in point of their size, but also cause much inconvenience to be felt in the management of Police and other administrative purposes, as the populated portion of the Kolar-Nandi road passes through these hoblis. This subject had long engaged the attention of my predecessors, who brought the matter to the notice of Government in the letters alluded to above. The question was settled after full consideration during the re-organization of taluks in 1882 by transferring Jangamkote and Vadigenahalli Hoblis to this District. I have, therefore, suggested that all the villages lying to the south of the Kolar—Nandi road may be added to the Devanhalli Taluk leaving those villages on its north to Sidlaghatta and Chikballapur as hithertofore, and recognizing the said road as boundary between the Kolar and Bangalore Districts. This arrangement will not only transfer 63 villages as noted in the margin to Devanhalli, but also enable us in time of need on the road to utilize the services of the people in both the Districts who will be at hand

No. of Villages.	
From Jangamkote Hobli	14
„ Vadigenahalli	12
„ Avati	30
„ Nandi	7
	63

7. If the proposals alluded to in paras 4 and 5 be not approved, there is no alternative but resorting to the old plan of re-transferring the whole two hoblis, Jangamkote and Vadigenahalli, to Devanhalli, leaving Avati in Chikballapur undisturbed. If the last proposal be accepted, there will be no change in the Shanbhogs' charges, but in case the 1st and 2nd proposals be approved, we will have to break up their charges slightly in one or two instances

8. To show more clearly what has been proposed above, I have herewith forwarded two statements of villages marked B and C respectively along with the blue survey maps of Chikballapur and Sidlaghatta received from the Superintendent of Revenue Survey for reference, and request that the same may be obligingly returned when no longer required.

From the Deputy Commissioner, Bangalore District, To the Deputy Commissioner, Kolar District, No. 1555, dated Bangalore, 5th December 1885.

With reference to Dewan's Proceedings No. 4693 of 22nd November in which it is stated that it is proposed to re-constitute the late Devanhalli Taluk, I have the honor to inform you that, in my opinion, it would be advisable to include in the taluk all the villages that formerly belonged to it: but this opportunity should be taken to rectify any irregularities in the boundary of the old taluk.

2. I would therefore request to be favored with the names of any villages you would propose to include in the Kolar District.

3. I have written to the Survey Superintendent, asking him to have prepared at his earliest convenience, a rough map of the Devanhalli Taluk, as it was before its reduction, on receipt of which, I will write to you again

From the Deputy Commissioner, Kolar District, To the Deputy Commissioner, Bangalore District, No. 1153—756, dated 23rd December 1885.

Adverting to your letter No. 1555, dated the 5th instant, I have the honor to inform you that with regard to the proposed rectification of the late Devanhalli Taluk which it is intended to re-constitute, I shall await your further communication on the subject with the map you expect from the Survey Superintendent.

2. I avail myself of this opportunity to bring to your notice that some of the villages of the Hoskote Taluk are much nearer to Malur and Kolar than to Hos

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

kote, and the ryots of some of those villages pray that the same may be transferred to Malur. It being also in contemplation to reinstate the old Malur Taluk, I would suggest for your consideration the advisability of including in it the marginally noted villages of the Hoskote Taluk with any others similarly situated. I shall be obliged if you can conveniently furnish me with a map of the Hoskote Taluk, when I will be in a better position to offer my proposals.

Kalkere.	

From the Deputy Commissioner, Bangalore District, To the Deputy Commissioner, Kolar District, No. 1674, dated 19th December 1885.

In continuation of this office No. 1555, dated 5th instant, has the honor to forward for reference and return, copy of the survey tracing (map) of the late Devanahalli Taluk, and to enquire whether in his opinion, the villages to the right of the Bangalore-Cuddapah road now attached to the Kolar Taluk, may not be allowed to remain as they are at present. His opinion is also requested, as to whether it would be better to attach Avati Hobli of the Chikballapur Taluk to Devanhalli, as it was formerly under contemplation to do so.

2. An early reply is requested as timely arrangements have to be made for effecting transfers.

From the Deputy Commissioner, Kolar District, To the Deputy Commissioner, Bangalore District, No. 1223—797, dated 4th January 1886.

Adverting to your docket No. 1674, dated the 19th ultimo, and in continuation of this office letter No. 1153—756 of the 23rd idem, I have the honor to inform you that, in my opinion, it does not seem to be advisable to deprive the Sidlaghatta Taluk of the Vadigenahalli and Jangamkote Hoblis which belonged to the late Devanhalli Taluk, because such a measure as you propose will considerably reduce the size of the present Sidlaghatta Taluk and necessitate thereby a re-adjustment of the boundaries of the neighbouring taluks which should, if possible, be avoided. These two hoblis may however be broken up and all the villages lying to the north of the Kolar-Nandi high road, as well as those within about a couple of miles to the south of that road, as per margin, be conveniently retained in Sidlaghatta, the rest being given back to Devanhalli. This arrangement will not only be very convenient for Police and other administrative purposes, as the high road referred to lies wholly in the Kolar Division, but also avoid the necessity of touching the boundaries of the neighbouring taluks, such as Chintamani, Kolar, &c. The villages alluded to in your docket under reference as lying to the right of the Bangalore-Cuddapah road which are now attached to the Kolar Taluk, may be allowed to remain as they are, the villagers having already petitioned to me protesting against their re-transfer to Devanhalli on the ground that it is too far from their places.

1. Kumbiganahalli.
1. Gumchinerahalli.
1. Malenahalli.
1. Balakoti.
1. Jangamkote.
1. Venkatapur.

2. I have no objection to the Avati Hobli of the Chikballapur Taluk being transferred to Devanhalli, but a few villages, such as Dodmarehalli, &c., being too far from Avati and also beyond the above mentioned Kolar-Nandi high road, I propose that they may be added on to Chikballapur along with the *7 villages situated on the south of that road within a distance of a couple of miles therefrom. In the absence of the survey map, which I have not yet received, I am not in a position to mention the names of all these villages. I have written to the Survey Superintendent for the

*1. Holerhalli.

1. Chikmarali.
1. Bediganahalli.
1. Yelavahalli.
1. Dekshettihalli.

map of Avati Hobli, and as soon as I receive the same, I shall send you a list of those villages of the said hobli which can conveniently be transferred to Devanhalli.

3. I have already in my letter No. 1153—756, dated the 23rd ultimo, brought to your notice the advisability of transferring to Malur the marginally noted villages of the Hoskote Taluk, and I avail myself of this opportunity to suggest that Chikkondahalli and Tarabahalli situated by the side of the Kolar-Jangamkote road, may conveniently be also transferred from Hoskote to the Kolar Taluk, as they are contiguous to the last mentioned taluk and within a distance of about 15 miles from its head-quarters.

4. The survey tracing (map) of the late Devanhalli Taluk, received with your docket under reply, is herewith returned.

From the Deputy Commissioner, Bangalore District, To the Deputy Commissioner, Kolar District, No. 1825, dated 25th January 1886.

In reply to your letter No. 1223—797 of 4th instant, I have the honor to state that the late Devanhalli Taluk is to be re-constituted with as little change as possible in its boundaries, but as the villages of the Kalhalli Hobli are to be retained in the Kolar District, owing to their great distance, I suggested that the Avati Hobli of the Chikballapur Taluk should be taken in exchange.

2. If most of the villages of Vadigenahalli and Jangamkote Hoblis are to be retained in the Kolar District, as suggested by you in the letter under reply, the Devanhalli Taluk would become far too small; it would be perhaps advisable to leave the northern portions of the Avati and Vadigenahalli Hoblis in the Kolar District, starting from north of Bhatrinhalli, due regard being paid to Shanbhogs' charges.

3. With reference to para 3 of your letter, I have to add that in reforming Devanhalli, Hoskote will lose two hoblis, and that further curtailment in its extent may, for the present, be postponed.

From the Deputy Commissioner, Bangalore District, To the Deputy Commissioner, Kolar District, No. 1839., dated 27th January 1886.

In continuation of this office No. 1825 of 25th instant, I have the honor to forward, herewith, for reference and obliging return, a survey map of the Devanhalli Taluk. In this, the Kalhalli Hobli has been marked off in blue and Avati Hobli added on. It will thus be apparent that if the greater portions of the Jangamkote and Vadigenahalli Hoblis, as divided by Kolar-Nandi road, is taken away, Devanhalli will be too small for a taluk. Also a reference to the Sidlaghatta and Chikballapur maps will show how big they will comparatively be.

2. As suggested in my letter under reference, the northern portions of the Vadigenahalli and Avati Hoblis, commencing from Bhatrinhalli and joining the Nandi road near Golhalli, may be separated and retained in your District, due regard being paid to Shanbhogs' charges and work.

From the Deputy Commissioner, Kolar District, To the Deputy Commissioner, Bangalore District, No. 1470—952, dated 1st March 1886.

With reference to your letters Nos. 1825 and 1839 of the 25th and 27th January, I have the honor to propose three alternative arrangements in the matter referred to and suggest that any one of them you consider proper may be accepted.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

2. On perusing the old records on the subject of the transfer of the Jangamkote and Vadigenhalli Hoblis and reconsidering the question, I find that the proposals made in this office Nos. 1153—756 and 1223—797 of the 23rd December and 4th January last, respectively, need no alterations as far as Kolar is concerned, and it will, if approved, prove to be in every way more convenient to all concerned.

3. The difficulties of procuring assistance in time of need and the inconvenience felt in the management of Police and other matters in consequence of a portion of the Kolar-Nandi road along with the villages by its sides being attached to far distant taluks in the Bangalore District, had long engaged the attention of the most experienced District officers of Kolar, and was brought to the notice of Government. For instance, I beg to refer you to paras 1 and 2 of Mr. Krishnaiengar's letter No. 232—236 of 18th August 1879, to the address of the Secretary to the late Chief Commissioner, Mysore, and paras 9 and 10 of Mr. Narasimmaiengar's letter No. 856—875 of 6th October 1882 to that of the Dewan (extracts from which are herein enclosed for reference). These papers show that the transfer of Jangamkote and Nandagudi Hoblis with a few of those villages of the Hoskote Taluk, which are situated near Malur, were once proposed by Mr. Ricketts himself while Deputy Commissioner, Bangalore, to be transferred to Kolar for reasons referred to above. All these differences were settled after full consideration during the re-organization of taluks in 1882 by transferring the Jangamkote and Vadigenhalli Hoblis to the Sidlaghatta Taluk. Nothing was done with respect to the Hoskote villages near Malur, as the Malur Taluk was then abolished. For these reasons, I consider that the whole *Kolar-Nandi road as well as the villages of the Jangamkote and Vadigenhalli Hoblis, lying to the north of that road, and those within a couple of miles to the south therefrom as noted in the margin, may advantageously be retained in the Sidlaghatta Taluk. Besides, the two villages of Chikkandahalli and Tarabahalli of the Nandagudi Hobli, Hoskote Taluk, being situated close to the said Kolar-Nandi road near the 15th mile and being nearer to Sidlaghatta, are also to be transferred to the last mentioned taluk. The remaining villages of the Jangamkote and Vadigenhalli Hoblis along with the Avati Hobli Chikballapur may be added to the reconstituted Devanhalli Taluk with the exception of the †11 villages, as they are far from Avati and nearer to Chikballapur.

* (1st Proposal)

Jangamkote Hobli.	*Vadigenahalli Hobli.*
1. Venkatapura, S. I.	1. Doddammuddenhalli.
2. Jangamkote.	2. Chikkanahalli
3. Kurubarhalli.	3. Chennasandra
4. Voblapura.	4. Mangasandra.
5. Mallenahalli.	5. Hardipura.
6. Gamliranahalli.	6. Buddanapadiya.
7. Chikkaballa.	
8. Gattamaranahalli, S. I.	
9. Kambiganahalli.	
10. Balakote.	

† *Avati Hobli.*	
1. Holerhalli.	6. Sambargidagaval.
2. Chinandahalli.	7. Hosahalli.
3. Narayanapura.	8. Doddamarali.
4. Gonuru.	9. Kanitahalli.
5. Gollahalli.	10. Tavudanahalli.
	11. Nakanahalli Bachanahalli, K. G.

4. The arrangement proposed above leaves for Devanhalli 5 villages in Jangamkote, 7 villages in the Vadigenhalli and 27 in the Avati Hoblis. If you consider that these villages are not enough to form a hobli or not worth adding to Devanhalli, I shall propose another arrangement, *viz.* all the villages lying to the south of Kolar-Nandi road be added to Devanhalli, leaving those on its north to Sidlaghatta and Chikballapur. Recognizing the said road as boundary between the Bangalore and Kolar Districts does not affect the village boundaries. For instance, the village Jangamkote, which is situated on the south of the road, and that of Vadigenhalli its north, having their lands, plantations, buildings, &c., on both the sides, will not be interfered with. Under this arrangement, Devanhalli will have 63 villages shown in the margin and it will in time of need on the road enable us to utilize the services of the people of both the Districts who will be available on the spot.

(2nd Proposal.)

	No. of Villages.
From Nandi Hobli	7
„ Avati „	30
„ Jangamkote „	14
„ Vadigenhalli „	12
	63

5. If you do not approve even the last proposal, I have only to suggest that resorting to the old arrangement that existed before the abolition of Devanhalli is better. Add the whole two hoblis of Jangamkote and Vadigenahalli to Devanhalli, leaving the whole Avati Hobli in Chikballapur undisturbed.

(3rd Proposal).

6. In case of the 1st and 2nd proposals being approved, we will have to break up a few Shanbhogs' charges ; but if the 3rd proposal be accepted, there will be no such necessity at all.

7. With respect to the last part of para 1 of your letter No. 1839 of the 27th ultimo, I beg to state that after the transfer of the Avati Hobli from Chikballapur and the whole Jangamkote and Vadigenhalli Hoblis from Sidlaghatta, the last mentioned two taluks will become comparatively small in point of revenue though not much in point of size.

8. Adverting to para 3 of your No. 1825 of 25th ultimo, I also beg to draw your attention to para 1 of Mr. Krishnaiengar's letter of 1879 to the Secretary to the Chief Commissioner, and para 10 of Mr. Narasimmaiengar's letter of 1882 alluded to. As stated therein, the Mugalur Hobli of the Hoskote Taluk is rather inconveniently situated with regard to that Taluk. The marginally noted 11 villages are so near to Malur, that the Hoskote Amildar cannot approach them without coming into Malur. They are situated near and around Lakkur, head-quarter of the Shekdar of that Hobli and Police station attached to Malur, which is hardly 5 to 10 miles from these villages. I am, therefore, in favor of the transfer of these villages from Hoskote to Malur. I do not suggest this alteration of the taluk boundaries for the mere convenience of the Amildars concerned, but for the convenience of the public in general. The ryots of Nonamangala and other villages, alluded to above, appeared before me during my late tour through this part of the country and represented to me putting in a petition to the effect that they are put to much inconvenience at present in consequence of their villages being added to a far distant Hoskote Taluk and urged much in favor of the proposed transfer to Malur.

11 Nonamangala.

Arnaghatta—

(lately transferred to Malur, *vide* Notification No. 45 of 13th May 1885 published in the *Mysore Gazette*, Part I, No. 25 of 1885).

9. The survey map of the Devanhalli Taluk received with your letter under acknowledgment is herewith returned along with a statement of villages proposed to be transferred to Devanhalli from Sidlaghatta and Chikballapur and those from Hoskote to Malur and Sidlaghatta.

As per accounts in 1882.				As per present proposal in 1886.				
Name of Hobli.	No. of Villages.	Revenue.		No.	Name of Hobli.	No. of Villages.	Revenue.	
Malur	94	18,407 2 5	Since 1882 ten villages were added to this hobli, 6 from the late Malur Hobli and 4 from Hoskote.	1	Malur	107	21,564 8 9	These hoblis form the present Deputy Amildar's Range, Bowringpet Taluk.
Narasapur ...	44	12,454 15 1		2	Tyakal ...	82	14,120 7 8	
Masti	62	15,002 11 3		3	Masti	63	15,565 10 2	
Tyakal ...	82	14,120 7 8		4	Lakkur ...	31	11,271 8 11	
Lakkur ...	31	11,271 8 11		5	Hulladenhalli ...	89	9,647 14 0	
Kudiyanur ...	41	8,110 0 6	These 41 villages were absorbed in 1882 as follows :—22 in Malur, 18 in Hulladenhalli and 1 in Masti Hoblis.		Total....	372	72,170 1 6	
Hulladenhalli ...	71	6,683 5 6		6	Narasapur ...	47	12,416 6 2	This hobli along with ten villages which were added to the Kolar Taluk, since 1882, is to be re-transferred to Malur with the exception of the following 7 villages proposed to be retained in the Kolar Taluk for reasons given in the report :—
								1 Yelvahalli ... 136 11 1
								2 Singehalli ... 592 2 8
								3 Sunjenhalli ... 68 12 2
								4 Manjah ... 287 6 1
								5 Hale Hosapura ... 36 0 7
								6 Ankondahalli ... 5 15 9
								7 Betta Hosapura ... 57 6 5
	425	86,050 3 4			Total.....	419	84,616 7 8	Total..... 1,184 6 10
					Proposed to be added to Malur from the Hoskote Taluk :—			These villages are situated close to Lakkur and at a short distance from Malur. The ryots here pray that their villages may be added to Malur. As this seems every way convenient to them, the villages may be added to Malur. The Shanbhog charges are not affected by this transfer.

From the Deputy Commissioner, Bangalore District, To the Deputy Commissioner, Kolar District, No. 2070, dated 6th March 1886.

In reply to your letter No. 1470—952 of the 1st instant, I have the honor to inform you that after having carefully considered your three proposals, I have come to the conclusion that if the first were slightly modified, it would be the best.

2. The modification I would suggest is as follows: the whole of the Jangamkoto Hobli as it was formerly transferred to the Sidlaghatta Taluk to remain in that Taluk. There is a direct road running through it to Sidlaghatta and most of its villages are nearer that place. But as regards the Vadigenhalli Hobli on a reference to the maps, I see that the kasaba is connected directly by road with Devanhalli, to which place it is also nearer, though some of the northern villages are nearer Sidlaghatta. I would then propose that the boundary line be drawn to the north of Bhatrinhalu, Harlur, Nagenhalli and Jodenhalli (*vide* map of the Sidlaghatta Taluk forwarded) and all the villages of the Vadigenhalli Hobli to the north of that line should remain in Sidlaghatta and to the south should be re-transferred to Devanhalli. In the same manner, the line (*vide* Chikballapur map) would run through the Avati Hobli, commencing to the north of Chinandhalli all to the north being left in Chikballapur and to the south being transferred to Devanhalli. I would however

advocate that the attention be paid to Shanbhogs' charges so as to avoid confusion hereafter, and this line might be modified in accordance with them.

3. This arrangement will when all the other Hoblis from the Dodballapur, Bangalore and Hoskote Taluks are re-transferred, make Devanhalli sufficiently large for a taluk. I would here observe that kasaba Sidlaghatta being unfortunately situated in rather a corner, some villages of other taluks must naturally be very near to it, unless it is made an exceedingly large taluk.

4. The Kalhalli Hobli is to remain as it is at present.

5. With regard to your suggestion to transfer 11 villages of the Mugalur Hobli of the Hoskote Taluk to the Malur Taluk on account of their distance from Hoskote, there can be no possible objection to this being done, if it is the wish of the villagers concerned, and further enquiries will now be made on that point.

6. I forward herewith sketch maps of Chikballapur and Sidlaghatta Taluks with the proposed lines drawn in red pencil for your information and also the map of the Devanhalli and Hoskote Taluks.

7. If this meets with your approval, I would request the favor of an early reply as the matter has to be submitted to Government very shortly.

From the Deputy Commissioner, Kolar District, To the Deputy Commissioner, Bangalore District, No. 1523—988, dated 16th March 1886.

In reply to your letter No. 2070, dated the 6th instant, on the subject of re-distribution of villages for the Devanhalli Taluk, I have the honor to state that, under the circumstances represented therein, I have no objection to your present proposal being carried out with a slight modification which is necessary in order to avoid the breaking up of Shanbhogs' charges as adverted to in the last part of para 2 of your letter.

2. The marginally noted 4 villages are no doubt situated to the south of the lines drawn by you in the maps of Sidlaghatta and Chikballapur, but the Shanbhogs thereof have got the charge of more 7 villages to the north of said lines, which are far away from Devanhalli. I would therefore suggest that these 4 villages may be allowed to remain undisturbed along with the whole Jangamkote and Nandi Hoblis.

1. Bodenahalli or Jodenhalli. } Vadigenhalli Hobli.
2. Kamsandra. } Vadigenhalli Hobli.
3. Holerahall. } Avati Hobli.
4. Narayanapura. } Avati Hobli.

3. In conclusion, I beg to bring to your notice again the desirability of transferring, for reasons already given in my former communications, 11 villages of the Mugalur Hobli of the Hoskote Taluk alluded to in para 5 of your letter under acknowledgment to Malur, and Chikkondahalli and Tarabahalli in the Nandagudi Hobli of the same Taluk to the Sidlaghatta Taluk, to which they are nearer. The ryots of the first mentioned villages have again petitioned me on the subject, and the proposed transfer can conveniently be effected.

4. The 4 maps received with your letter under reply are herewith returned, with a revised statement of 52 villages to be transferred from Chikballapur, and Sidlaghatta to Devanhalli and 13 villages from Hoskote to Malur and Sidlaghatta, respectively.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

From the Deputy Commissioner, Bangalore District, To the Deputy Commissioner, Kolar District, No. R. 2070, dated 6th March 1886.

In reply to your letter No. 1470—952 of the 1st instant, I have the honor to inform you that after having carefully considered your three proposals, I have come to the conclusion that if the first were slightly modified, it would be the best.

2. The modification I would suggest is as follows:—The whole of the Jangamkote Hobli, as it was formerly transferred to the Sidlaghatta Taluk, to remain in that Taluk. There is a direct road running through it to Sidlaghatta, and most of its villages are nearer that place But as regards the Vadigenahalli Hobli, on a reference to the maps, I see that the Kasaba is connected, directly by road, with Devanhalli, to which place it is also nearer, though some of the northern villages are nearer Sidlaghatta. I would then propose that the boundary line be drawn to the north of Bhatrinhalu, Harlur, Nagenhalli and Jodenhalli (*Vide* map of Sidlaghatta Taluk forwarded) and all the villages of the Vadigenhalli Hobli to the north of that line should remain in Sidlaghatta, and to the south should be re-transferred to Devanhalli. In the same manner, the line (*Vide* Chikballapur map) would run through the Avatti Hobli, commencing to the north of Chinandhalli, all to the north being left in Chikballapur and to the south being transferred to Devanhalli. I would however advocate that due attention be paid to Shanbhogs' charges, so as to avoid confusion hereafter, and this line might be modified in accordance with them.

3. This arrangement will, when all the other hoblis from the Dodballapur, Bangalore and Hoskote Taluks are re-transferred, make Devanhalli sufficiently large for a taluk. I would here observe that Kasaba Sidlaghatta being unfortunately situated in rather a corner, some villages of other taluks must naturally be very near to it unless it is made an exceedingly large taluk.

4. The Kalhalli Hobli is to remin as it is at present.

5. With regard to your suggestion to transfer 11 villages of the Mugalur Hobli of the Hoskote Taluk to the Malur Taluk, on account of their distance from Hoskote, there can be no possible objection to this being done, if it is the wish of the villagers concerned, and further enquiries will now be made on that point.

6. I forward herewith the sketch maps of the Chikballapur and Sidlaghatta Taluks with the proposed lines drawn in red pencil for your information, and also the map of the Devanhalli and Hoskote Taluks.

7. If this meets with your approval, I would request the favor of an early reply, as the matter has to be submitted to Government very shortly.

From the Deputy Commissioner, Kolar District, To the Deputy Commissioner, Bangalore District, No. 1523—988, dated 16th March 1886.

In reply to your letter No. 2070, dated the 6th instant, on the subject of re-distribution of villages for the Devanhalli Taluk, I have the honor to state that, under the circumstances represented therein, I have no objection to your present proposal being carried out with a slight modification, which is necessary in order to avoid the breaking up of Shanbhogs' charges as adverted to in the last part of para 2 of your letter.

2. The marginally noted 4 villages are no doubt situated to the south of the lines drawn by you on the maps of Sidlaghatta and Chikballapur, but the Shanbhogs thereof have got the charge of more 7 villages to the north of the said lines, which are far away from Devanhalli. I would, therefore, suggest that these 4 villages may be allowed to remain undisturbed along with the whole Jangamkote and Nandi Hoblis in their present taluks.

1. Bodenahalli or Jodenahalli. } Vadigenahalli Hobli.
2. Kamasandra. }
3. Holerahalli. } Avati Hobli.
4. Narayanapura. }

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

3. In conclusion, I beg to bring to your notice again the desirability of transferring for reasons already given in my former communications 11 villages of the Mugalur Hobli of the Hoskote Taluk, alluded to in para 5 of your letter under acknowledgment, to Malur, and Chikkondahalli and Tarabahalli in the Nandagudi Hobli of the same Taluk to the Sidlaghatta Taluk, to which they are nearer. The ryots of the first mentioned villages have again petitioned to me on the subject and the proposed transfer can conveniently be effected.

4. The 4 maps received with your letter under reply are herewith returned with a revised statement of 52 villages to be transferred from Chikballapur and Sidlaghatta to Devanhalli, and 13 villages from Hoskote to Malur and Sidlaghatta respectively.

Statement showing the Particulars of Villages proposed to be transferred to the Devanhalli Taluk of the Bangalore Districts.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 16th March 1886.

From the Deputy Commissioner, Kolar District, To the Chief Secretary to the Dewan of Mysore, No. 1524—535, dated 16th March 1886.

In continuation of this office letter No. 1474—518 of the 1st instant, submitting proposals for the re-constitution of the Malur and Devanhalli Taluks, I have the honor to submit for information, the accompanying copies of correspondence between this office and the Deputy Commissioner, Bangalore District, from which it will be observed that I have no objection to give effect to Captain Macintire's present proposal regarding the transfer of 52 villages of the Vadigenhalli and Avati Hoblis to Devanhalli. This arrangement does not in any way affect the retention of the whole Jangamkote Hobli in Sidlaghatta and Nandi in Chikballapur; and the proposed transfer from Hoskote of the marginally noted 13 villages to Sidlaghatta and Malur for reasons given in my former correspondence on the subject.

1. Chikondahalli.
2. Tarabahalli.

} To be transferred from Nandagudi Hobli of the Hoskote Taluk to Sidlaghatta Taluk.

} To be transferred from Mugalur Hobli of the Hoskote Taluk to the Malur Taluk.

MEMORANDUM.

I. Your letter to Deputy Commissioner of Bangalore No. 1523—988, dated 16th March 1886, Para 2. What are the 7 more villages of which the Shanbhogs in question have charge?

II. Your letter to Chief Secretary No. 1524—535, dated 16th March 1886 You propose to take 11 villages from the Hoskote to the new Malur Taluk, of these Naranakere and Gollahalli are not marked on the Revenue Survey map of the Hoskote Taluk herewith sent. Please mark the position of these villages on the map and return it.

III. On the map of the Hoskote Taluk you will find marked with a × in red pencil portions of the Kolar and Bowringpet Taluks which are surrounded by Hoskote villages. From their situation they ought to be in Hoskote. Are you prepared to recommend their transfer to Hoskote? If so, please give the names of the villages to be transferred.

Please send your reply to these questions by return post without fail and return this memorandum.

From the Deputy Commissioner, Kolar District, To the Chief Secretary to the Dewan of Mysore, No. 52, dated 30th March 1886.

With reference to the Dewan's Memo of no date received this morning, I have the honor to state as follows:—

2. Para 1. The names of the 7 more villages, of which the Shanbhogs have the charge of the 4 villages of Bodenahalli, &c., referred to in para 2 of this office letter No. 1523—988 of the 16th instant to the address of the Deputy

Vadigenahalli Hobli.
1 Chinnappanavakana Hossur.
2 Kambadahalli.
3 Kugata Timmanahalli.

Avati Hobli.
4 Dodda Marali.
5 Nakkalahalli Bachahalli (Kayangutta)
6 Kanatahalli.
7 Tavudanahalli.

Commissioner, Bangalore, are given in the margin. They are all situated on the north-west of Vadigenhalli above the Kolar-Nandi road, at some distances therefrom.

3. With respect to para II of the memo under reference, I here written with a blue pencil on the accompanying Hoskote map the positions of Narayenakere and Gollahalli, the former is lying in north longitude 55 and east latitude 13 Topographical map No. 63, while the latter near the 10th mile stone at Sampangere on the Malur-Ossur road on the same map.

4. Adverting to para III of the memo, I regret to say that I am unable at present to give the names of the villages to be transferred from Kolar and Malur to Hoskote, on the ground that they are surrounded by Hoskote villages. As observed in para 3 of my letter No. 1474—518 of the 1st instant, there are neither Revenue Survey nor Topographical maps here available for this part of the Kolar Taluk and that of the Malur Range in Bowringpet, and the Ordnance map does not show the positions of small villages but only the most important ones. The Survey Superintendent has not yet furnished me with tracings of Kolar and Malur, although I applied to him some time back for the same. I have, therefore, issued orders this day to the Amildars concerned to send me lists of these villages, which are surrounded by the Hoskote Taluk, along with the usual memo of their revenue and Shanbhogs' charges, &c., and on receipt of the same, I shall submit my report thereon. In the meantime, I would feel much obliged if you will be good enough to let me have for reference the Revenue Survey maps of the Kolar and Malur villages bordering on the Hoskote Taluk, which I learn are available in your office, and think they will facilitate the preparation of my report on the subject.

From the Deputy Commissioner, Tumkur District, To the Secretary to the Dewan of Mysore, No. 718, dated 22nd December 1885.

Adverting to the Dewan's Proceedings No. 4693—167, dated 22nd ultimo, I have the honor to state that Huliyar, the present Head-quarters of the Deputy Amildar, being unhealthy and the main portion of the Chiknayakanhalli Taluk under the Amildar's charge being too small, the Deputy Amildar's range may be done away with giving a part of it to the Hosdurga Sub-Division and adding the rest to the Chiknayakanhalli Amildar.

2. Koratagere Sub-Division is an important one and the attachment of it to the Maddagiri Taluk has rendered the taluk unwieldy. There are more than 230 villages under the Deputy Amildar's supervision. The town itself is losing its importance in point of commerce and I would therefore suggest the re-constitution of that taluk.

3. Kunigal should, I think, be added to the Tumkur District along with some villages of Nelamangala Taluk bordering on Sompur as at present the jurisdiction of this District does not extend quite ten miles in that direction.

4. Pavagada is easily accessible from Tumkur and the Amildar strongly upholds the present arrangement, and considering the imperfect means of communication with Chitaldroog, I am inclined to agree with him and to keep it on attached to this District.

5. Some villages forming parts of Shanbhogs' single charges have been included among several Taluks and Districts in the late revision and no small inconvenience

is felt on this account both by the Shanbhogs and the Government; work is also greatly retarded. A re-adjustment of these villages so as to bring the whole of a Shanbhog's charge in one jurisdiction is necessary.

6. Should the above general suggestions be approved of by the Dewan, I shall then submit detailed proposals with map, &c., as directed.

From the Assistant Commissioner, Chitaldroog Sub-Division, To the Secretary to the Dewan of Mysore, through the Deputy Commissioner, Tumkur District, No. 191, dated 27th January 1886.

With reference to the Proceedings of the Dewan, No. 4693-4607—167, dated 22nd November 1885, on the subject of re-constituting the Chitaldroog District, I beg to state that I have obtained the opinions of all the Amildars and Deputy Amildars concerned, as well as that of the Assistant Engineer, and submit the following as my report on the subject.

2. Before I come to the question of re-constitution of the District, I will discuss that of the re-constitution of certain Taluks. The Dewan in para 1 of the Proceedings under reply has ordered the re-constitution of the Kankuppa Taluk. If this is the only taluk to be now formed, it may be done without many changes in the boundaries of the taluks. But the officers with whom I consulted think it necessary to re-construct the old Molkalmuru Taluk as well; further the Deputy Commissioner of the Tumkur District proposes to do away with the Deputy Amildar's office at Huliyar, adding on all the villages up to Budihal to Holalkere Taluk. The reasons that are assigned for locating a Taluk Cutcherry at Jagalur are more forcibly applicable to the case of Molkalmuru. That part of the country from Bommagondankere to the north in the present Chellakere Taluk is on all sides surrounded by the Taluks of Rayadrug, Kudligi and Bellary of the Bellary District, and the people of these Taluks are more troublesome, as is the case with all those that live on the frontiers of two separate countries. There is no doubt that there is a Deputy Amildar at present at Hangal but his official position and prestige are not sufficient to exercise that local influence which an Amildar can. Molkalmuru is the gate of the Mysore Province, and there should be a proper officer to watch it. It may be said that Molkalmuru Taluk was abolished so long back as 1875, and from that time the combined Taluks of Dodderi and Molkalmuru are being well managed by one Amildar or by a Deputy Amildar and Amildar and therefore a Taluk Cutcherry is not necessary at Molkalmuru. For this, my reply is that ever since the abolition of the taluk in question, violent crime has materially increased, and it has invariably been traced to the turbulent people of the adjoining British Territory Taluks; the once flourishing weaving Town of Molkalmuru is gradually decreasing in importance, and the rich merchants residing in several villages of the said taluk, have transferred their capital and trade to Bellary and are nominally living in their villages. In fact, this part of the country is backward in every respect, and in my opinion all this is attributable to the absence of influence, advice and encouragement of a Government officer of weight and prestige. Further the area of the late Molkalmuru Taluk was 290 square miles and the whole of it is now in charge of the Deputy Amildar. It is almost impossible for this poorly paid official with his limited establishment to efficiently manage the range in times of emergency, such as famine. Again, the Town of Molkalmuru is at 35 miles from Chellakere, the present Taluk Head-quarters, and all the villages beyond that town and Hangal are at from 40 to 60 miles from the Taluk Cutcherry. Hence those that have business to transact at the Taluk Cutcherry itself particularly, Patels and Shanbhogs who must go to the Taluk Head-quarters with "Irsal" and for accounts find it very inconvenient to travel all the way in the wild hilly country. In my opinion, the Taluk Cutcherry must be within a day's journey from the remotest village attached to it, as the people will have to go there very often. Taking all these circumstances into consideration, I recommend the re-constitution of the Molkalmuru Taluk.

5. I now come to the question of taking a portion of the villages of the late Budihal Taluk to the Chitaldroog District. In forwarding a petition from the inhabitants of Hosdurga praying that a Taluk Cutcherry may be located in their Town, for my opinion, the Deputy Commissioner proposes to abolish the Sub-Taluks of Huliyar giving the villages on Budihal side to the Hosdurga Range. If the Taluk Head-quarters was Hosdurga, this arrangement was quite feasible, and convenient both to the people and Government Officials. Holalkere is on the high road to Shimoga and is almost in the centre of the Taluk. Railway line will shortly run at about 3 or 4 miles to the west of it near a village called Arahalli. It is in every way conveniently situated for locating a Taluk Cutcherry. Hosdurga being in a corner of the taluk, the Cutcherry cannot be removed to that place. I cannot recommend the formation of another taluk at Hosdurga, because there is hardly sufficient area and revenue for a taluk unless villages are added from the adjoining Taluks of Kadur and Tarikere, which not only causes much confusion, but also entails extra and unnecessary expenditure to the State. The country around Hosdurga being in the midst of the Mysore Province, and there being Taluk Cutcherries on all sides at convenient distances, even Deputy Amildar is not necessary there. The revenue of the present Hosdurga Range is about Rs. 20,000, and if some villages of the late Budihal Taluk were added to it, the revenue comes to about Rs. 30,000 and the area about 350 square miles Hosdurga is at 20 miles distance from Holalkere and a few frontier villages of that Sub-Taluk are within 30 miles of the Taluk Head-quarters. If the villages of the late Budihal Taluk were added to Hosdurga Sub-Taluk, many will be at 30 to 40 miles from Holalkere, and there will be complaints from people. Moreover the people of the villages to the north of Huliyar and Budihal have no connection with those of Holalkere. They have relationship and dealings with the people of the Hiriyur Taluk, and they will not feel the change if their villages were added on to Hiriyur. People to the south of Huliyar have all their connection with Chiknayakanhalli. My opinion therefore is that all villages to the north of Huliyar-Sira road and Huliyar-Hosdurga road may be taken back to the Chitaldroog District and added on to the Hiriyur Taluk. The present boundary of the Hiriyur Taluk extends up to almost Kudare Kanave Ghat, and Huliyar is only 6 miles from it. The distance between Huliyar and Hiriyur is 27 miles and all the villages will be within that distance from that place. This is the only convenient arrangement that can be made, if some of the villages of the present Huliyar Sub-Taluk be taken to the Chitaldroog District.

4. In the event of these two proposals, *viz.*, that of forming the Molkalmuru Taluk, and that of taking some villages from Huliyar Sub-Taluk to the Chitaldroog District being sanctioned, more changes will be necessary in the boundaries of the other taluks which I will discuss hereafter. So far as my opinion is concerned, I am decidedly in favor of extending the boundary of the Chitaldroog District up to Huliyar, so that the District may be of proper size. I may here mention that I will have to deviate for obvious reasons from the proposals made in my D. O. of the 22nd December 1885 on the subject of forming Taluks. I therefore beg to submit the following propositions for the consideration of the Dewan.

5. The enclosed map is a true copy of the Revenue Survey map of the late Chitaldroog District. It will be seen from references noted on it that it shows the boundaries of taluks as they stood previous to the boundary rectification scheme of the year 1883, as they now stand, and the changes proposed to be made. To avoid confusion and delay, only the important villages, rivers, roads, and the frontier villages of the tracts to be transferred from one taluk to another are shown in the map. Lists of villages of each taluk as it is proposed to be constituted are also submitted, and they clearly show the number of villages proposed to be transferred from one taluk to another. If this plan were fitted on the Survey map, all the villages can be easily seen.

6. The area and revenue of the old Taluk of Kankuppa was 370 square miles and Rs. 47,000, respectively, and the present Deputy Amildar's Range is only 293 square miles, and the revenue is about Rs. 32,000. It is hardly necessary for me to

say that the area and revenue of both the late Kankuppa Taluk and the present Sub-taluk are too small for an Amildar, and this was one of the reasons for abolishing the taluk. It is therefore necessary to enlarge it. I would propose that Bilchod and 10 other villages transferred to Davangere in 1883 be given back to Kankuppa After Kankuppa was amalgamated with Chitaldroog, 24 villages (on Hiremallanhole side) were transferred to the Amildar's charge. These also should be given back to Kankuppa. By these transfers the taluk will have the same area as it had before. I have already expressed it as my opinion that this area is too small for an Amildar. I therefore propose to add 38 villages on Bharmasagar and Turvanur sides which now belong to the Chitaldroog Taluk. The villages on Turvanur side are within 10 miles from Jagalur and those on Bharmasagar within 20. By these transfers the taluk will be compact and its area and revenue will be 483 square miles and Rs. 79,000, respectively. As these changes will in no way affect the convenience of the people and on the other hand will be more convenient for the transaction of the public business, I strongly recommend that the above proposals may be sanctioned and the taluk may be styled Jagalur Taluk with its Head-quarters at that place.

7. By effecting the transfers indicated in the above para, there will remain an area of 423 square miles to the Chitaldroog Taluk. Previous to the year 1883, the Shanbhog's firkas of Talya, Horekeridevarpur and Chitrahalli, belonged to Chitaldroog. The first named firka contains 13 villages which are all within 10 miles of Holalkere, and they may conveniently remain attached to that taluk. Horekeridevarpur firka has 36 villages, 15 of them have been added to Holalkere and the rest to Hiriyur. The Shanbhogs, Patels and people loudly complain of this arrangement. The Shanbhog's "huck" of the 36 villages belongs to one family, although Gumastas have been appointed for each range, yet the head of the family manages the affairs of the whole firka. It seems to me advisable that this firka should be in one taluk. Chitrahalli has 23 villages and most of them are nearer to Chitaldroog than Holalkere. These firkas were added to Holalkere in order to make the taluk larger as a Deputy Amildar was located at Hosdurga. At present it is necessary for us to make the Holalkere Taluk smaller in size, whereby the Sub-taluk of Hosdurga may be abolished. I would therefore recommend that the Horekeridevarpur and Chitrahalli firkas be transferred to Chitaldroog. As Hiriyur will become a very extensive taluk by adding to it villages of the late Budihal Taluk, I propose to take away from it some villages on Palavanhalli side and give them to the Chitaldroog Taluk. These villages are at 7 to 10 miles from Chitaldroog. By making the above alterations, this taluk will be 558 square miles in area, with a revenue of Rs. 92,000.

8. Thirty-three villages on Matlod side which belonged to Hiriyur were also transferred in the year 1883 to Holalkere Taluk with the same object as Horekeridevarpur. Portion of the villages of this firka now belongs to Hiriyur, and there is the same complaint as in the case of Horekeridevarpur. Moreover most of these villages are nearer to Hiriyur than Holalkere. The Sub-taluk at Hosdurga may conveniently be abolished if these villages be re-transferred to Hiriyur. The propriety of abolishing both the Sub-taluks of Hosdurga and Huliyar may be questioned. The part of the country which comprises these two Sub-taluks is in the midst of the province. There are taluk head-quarters on all sides within convenient distances. The people are peace-loving and quiet. For the purposes of revenue administration no inconvenience will arise, and as regards Police administration, if these two towns are allowed to remain as head stations as they are at present with a Jamadar in charge, there can be no complaint. The savings effected by the abolition of these two Sub-taluks, as well as that of Hangal, will almost cover the cost of the new Molkalmuru Taluk.

9. As the Hiriyur Taluk will become very large in area by these additions, I would propose to transfer 13 villages on Yerrahalli side to Chellakere Taluk. These are nearer to Chellakere than Hiriyur. Now, the area of the Hiriyur Taluk will be 868 square miles, and the revenue will only be Rs. 74,000. The assessment in this Taluk being very light, no difficulty is experienced in the collection of the revenue. The Taluk being a quiet one, one Amildar will without difficulty be able

o manage it in ordinary times. If we attempt to make this Taluk still smaller, we shall succeed only by re-constituting the old Budihal Taluk which course I am not prepared to recommend as it will entail unnecessary expenditure.

10. The area of the old Molkalmuru Taluk was 290 square miles with 96 villages, yielding a revenue of Rs. 17,000. The present revenue is only Rs. 52,000. I therefore propose to add a few villages from Chellakere, *viz.* Gaurasamudra and 24 others. The area will then be 412 square miles and the revenue Rs. 66,000. The Taluk head-quarters may be at Molkalmuru, in which local weaving industry is extensively carried on.

11. The remaining portion of the present Chellakere Taluk, with 13 villages from Hiriyur, will form the future Chellakere Taluk, and its area and revenue will be 700 square miles and Rs. 85,000, respectively. The Taluk head-quarters should be as at present at Chellakere.

12. The Dewan, in para 2 of his Proceedings quoted above, has decided upon transferring Davangere Taluk to the new Chitaldroog District. The only change in this taluk will be the re-transfer of 11 villages on Bilchod side to Jagalur. Excepting a few on Malebennur side, the people of the whole taluk desire that their taluk should be added on to Chitaldroog. Any attempt to transfer villages on Malebennur side to the Honnali Taluk will again end in confusion. The Shanbhogs' firkas are so situated that any attempt at transfer will make boundaries of both taluks awkward and inconvenient. I therefore recommend that it should remain as a taluk as at present, minus the 11 villages given to Jagalur.

13. As regards the transfer of Pavagada to the Chitaldroog District, the Dewan seems not to have yet come to a definite conclusion. Excluding the Pavagada Taluk and portion of the late Budihal Taluk which will remain amalgamated with Chiknayakanhalli, the area of the new District will be 4,082 square miles. The area of the late Chitaldroog District was 4,819 square miles with a revenue of 8 lakhs. Excluding the Pavagada Taluk and a portion of the Budihal Taluk, the revenue will only be 6 lakhs. Forest, abkari and other sundry items are not included in the above figures. Adding 1 lakh being the estimated realizations from these sources, the revenue will still be 7 lakhs, which, I consider, would be too small for a District. I therefore recommend that Pavagada be also added to the Chitaldroog District.

14. The following statement will show the area and revenue of the different taluks of the late Chitaldroog District previous to the revision of 1883, as they stand at present, and as they are proposed to be constituted:—

No.	Taluks.	As they stood previous to 1883.		As at present.		As they are proposed to be constituted.	
		Area.	Revenue.	Area.	Revenue.	Area.	Revenue.
1	Chitaldroog Taluk	619	93,000	579	1,11,000	558	92,000
	Jagalur Sub-Taluk	...	...	293	41,000	...	...
2	Chellakere Taluk	969	1,27,000	773	92,000	700	85,000
	Hangal Sub-Taluk	..	...	294	52,000	...	...
3	Holalkere Taluk	478	60,000	415	60,000	512	75,000
	Hosdurga Sub-Taluk	...	...	260	25,000	...	...
4	Hiriyur Taluk	806	63,000	800	66,000	868	74,000
5	Kanakuppa Taluk	370	47,000	...	...	489	79,000
6	Davangere Taluk	652	1,54,000	551	1,41,000	543	1,41,000
7	Pavagada Taluk	555	95,000	505	85,000	505	85,000
	Budihal Taluk	370	64,000	...	...	...	...
8	Malkalmuru Taluk	This was abolished in 1875.				412	66,000
	Total.....	4,819	7,03,000	4,470	6,73,000	4,587	6,97,000

It will be seen from the above that the future Chitaldroog District will have 8 Taluks, which was the number it had when it was abolished.

15. I have not yet arranged the Shekdars' Hoblis as I think it advisable to do the same after the boundaries of the taluks have been finally settled. I may add here that in making transfers of villages, Shanbhogs firkas have not been interfered with, and care has been taken to allow the whole villages of a Shanbhog's firka to remain in one taluk.

16. I now come to the question of financial results. It will be seen from the enclosed financial statement that the cost of the late Chitaldroog District, excluding the salaries of Deputy and Assistant Commissioners and including those of Amildars, was Rs. 75,444 per annum, and that of the future District will be Rs. 68,796, or less by Rs. 6,648. It will be seen from the abstract of the statement that some saving is effected in the pay of the Amildars, Shekdars and Peons. In the old Chitaldroog District there were several Amildars of the higher grade, but at present lower grade Amildars having been posted to almost all the taluks, some saving was effected. In the old District, the Shekdars' Hoblis were small in extent, and in consequence, the number of Shekdars and their Peons were large. It is now proposed to raise the pay of Shekdars giving them a larger area as ordered in the Dewan's Proceedings No. 2509-17—62, dated 23rd June 1881. Hence some saving was effected in the pay of these servants also.

17. The cost of the future District is more by Rs. 33,084 as compared with the expenditure of the present Sub-Division and the taluks attached to it. As it is proposed to transfer Davangere and Pavagada Taluks to the future Chitaldroog District, and to abolish Huliyar Sub-taluk, the cost of these establishments *viz.* Rs. 14,196 will be savings in other Districts. Thus the net extra expenditure will only be Rs. 18,888.

18. I strongly recommend the above proposals for the favorable consideration of the Dewan, as I consider that they will almost equalize the area of all the taluks and they will not be too large and unwieldy for an Amildar even in times of emergency. The District will be compact, and capable of being administered by a Deputy Commissioner with the aid of a General Assistant Commissioner in all times.

19. In the event of the above proposals not being approved of on the ground that they entail too many changes or for any other reason, the best arrangement that could be done is to allow the Taluks of Hiriyur, Chellakere and Holalkere to remain as they are at present, retaining the two Deputy Amildars in the two last named taluks, to separate the old Kankuppa Taluk from Chitaldroog, to re-transfer the 11 villages on Bilchod side to it and to constitute it into a taluk; it will then be of the same size as it was formerly; also to transfer Davangere and Pavagada Taluks; the District will then be comprised of 7 * taluks with an area of 4,490 square miles yielding a revenue of Rs. 6,76,500.

*1. Chitaldroog.
2. Davangere.
3. Kankuppa or Jagalur.
4. Chellakere.
5. Pavagada.
6. Hiriyur.
7. Holalkere.

From the Assistant Commissioner, Chitaldroog Sub-Division, To the Secretary to the Dewan of Mysore, Revenue Department, No. 192, dated 27th January 1886

I have the honor to report that I have this day submitted through the Deputy Commissioner of the Tumkur District my report regarding the re-constitution of the Chitaldroog District, together with the lists of villages, statement of financial results and a map showing the alterations proposed as called for in Dewan's Proceedings No. 4693-4706—167, dated 22nd November 1885.

Proceedings of the Dewan to His Highness Maharaja of Mysore, (General),—dated 29th March 1886.

Tumkur Deputy Commissioner's Memo. dated 26th February 1886.

Forwarded.

I agree with the Assistant Commissioner in thinking that two new taluks with the Head-quarters at Jagalur and Molkalmuru should be constructed and the detailed arrangements proposed by that officer have my support. When the necessity of constituting the new District and Taluks has been admitted, I think that the fear of changing a few villages from one taluk to another should not deter us from making the new formation as complete and satisfactory as possible from every point of view. The considerations of convenience suggest the transfer of a few villages from the neighbouring taluks and I beg that the proposals relating to these items of the change may be sanctioned.

Davangere Taluk should of course form a portion of the new Chitaldroog District with the modifications proposed by the Assistant Commissioner, *viz.* that 11 villages on the side of Bilchod should be added to the proposed Jagalur Taluk. It does not seem to be advisable to break up the Malebennur portion of the Davangere Taluk, as in that case the portion left to be added to the new District will be small, and the Shanbhogs' charges will have to be inconveniently split up.

I adhere to my opinion that Huliyar Sub-Taluk should be abolished. Since I wrote my letter No. 718 of 21st December 1885, I consulted all the leading men of this Sub-Taluk and they are not willing to go back to Chitaldroog. The reasons they assign are that they have to pass through unhealthy villages to go to Chitaldroog, whereas Tumkur is well connected by good road and railway. All along the road and in Tumkur itself, they have good accommodation and they would rather go towards Bangalore than away from it. I do not advocate the re-transfer of these villages and people to the Chitaldroog District against their wish as especially the work in the Chiknayakanhalli Taluk will not be heavy even when the portion comprised in the present Sub-Taluk is brought within the direct jurisdiction of the Amildar. My recommendation on this head is that without any changes of villages the Sub-Taluk may be abolished, the whole taluk being placed under the Chiknayakanhalli Amildar.

I agree that the villages of the Mattodu Firka now forming a portion of the Hosdurga Sub-Taluk may be re-transferred to the Hiriyur Taluk. These villages, I believe, are on the other side of the Vedavati river and can conveniently be attached to the Hiriyur Taluk on the same side of the stream.

The formation of the Jagalur Taluk has rendered the transfer of the 59 villages comprised in the Firkas of Horekandevarpur and Chitraballi back to Chitaldroog Taluk necessary. The consequence is that the Holalkere Taluk will be left very much as it was before the organization of 1883. Now the question which has to be decided in connection with this Taluk is, whether the Taluk Head-quarters should remain as at present in Holalkere, or whether it should not be transferred to Hosdurga where it was before the late revision. The advantages to the Taluk Head-quarters of a Railway which does not pass through many villages of that taluk are doubtful, and if Hosdurga is more to the south of the taluk, Holalkere is more towards the north. The arguments based upon these considerations of a railway and of a central position are not very sound. The people of the taluk have not been at all reconciled to the change, and they are as clamorous as ever to have the Taluk kasaba at Hosdurga. Surely the voice of the people who are affected by the change is a very powerful factor in a consideration of this kind and this is decidedly in favor of Hosdurga. It is a large town and is supposed to be healthy. It answered as the Taluk kasaba for a long period and the considerations which prompted the transfer of the kasaba to Holalkere in 1883 have no longer any force, as the Assistant Commissioner has very rightly and with my entire concurrence recommended the re-transfer of most of the villages which were added to this taluk in the revision of 1883. It will be a gracious concession on the part of Government to public opinion, which in this case is very reasonable, if the taluk will be called after the name of Hosdurga and the Head-quarters of the Amildar established at that place.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

I leave the decision regarding the Pavagada Taluk in the hands of Government. It may remain attached to the Tumkur District or added on to that of Chitaldroog. The Assistant Commissioner seems to think that without this taluk the revenue of the new District will be too small, and if the Government too are of the same opinion, I shall raise no objection against it.

It is necessary to change a few villages near Yerahalli to Chellakere Taluk.

The above remarks dispose of the Assistant Commissioner's recommendations.

For the main division of the Tumkur District, I consider that Koratagere should be formed into a Taluk, the Deputy Amildar there being done away with. The villages transferred from the late Koratagere Taluk to those of Goribidnur and Dodballapur, the villages now forming the Sub-Taluk and the villages now proposed to be transferred from the Tumkur Taluk, as per list **A** attached, should be formed into the new Taluk of Koratagere as per list **B**. The people are very anxious to have this taluk, and its formation will be attended with much administrative convenience and efficiency. The splitting of a Shanbhog's charge into two or three portions each in a separate District will be rejoined and this measure removes a standing grievance of the present state of things. On the whole, I consider this change as of very great importance and advocate it very strongly for the favorable consideration of Government.

The taking away of so many villages from Tumkur requires that a few at least should be given to it from elsewhere. This can best be done by transferring the Nijagal Sammat from the Nelamangala Taluk to that of Tumkur. **C** is the list of these villages and I beg that the Dewan may be pleased to sanction the change.

The only other important change necessary for the completion of these arrangements is the transfer of the Kunigal Taluk to the Tumkur District.

As stated in my letter No. 718 of 21st December 1885, a re-adjustment of a few of the villages split up from single Shanbhogs' charges is necessary and the details of this are shown in the Statement **D**.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

From the Deputy Commissioner, Kadur District, To the Secretary to the Dewan of Mysore, No. 558, dated 26th January 1886.

With reference to the Proceedings of the Dewan No. 4693—4706, dated 22nd November last, calling for a report on the changes necessary to re-constitute certain Districts and Taluks, I have the honor to report that I am not prepared to recommend any alterations in the boundaries of any of the taluks mentioned in para 3 as being absolutely necessary owing to the re-constitution of the Hassan District.

2. I would beg, however, to bring to notice that in order to consolidate all the chief taluks, in which there are coffee plantations, into one coffee district under my jurisdiction as *Special* Deputy Commissioner, it may be advisable to include the Manjarabad and Belur Taluks into the Kadur District.

3. The enclosed tracings show the District as it is and as it would be, if this were done. It will be observed that Chikmagalur is fairly central. But if this proposal is entertained, I would recommend that all the sessions cases and civil work of the Manjarabad Taluk be committed to Hassan and be under the Mysore Sessions Court. This could be arranged for without much difficulty.

From Sub-Division Officer, Hassan, To the Secretary to the Dewan of Mysore, No. 1195—324, dated 31st January 1886.

I beg now to submit the report called for in Dewan's Proceedings No. 4693-4706—167, dated 22nd November last, regarding the re-constitution of the Hassan and Chitaldroog Districts and of some of the taluks broken up in the arrangements of 1882—83.

2. This report relates only to the Hassan Sub-Division portion of the late Hassan District with which alone I am familiar.

3. The four Amildars and one Deputy Amildar in the Sub-Division were consulted. Their reports are submitted in original for reference to details if necessary.

4. With this letter are submitted—

(1) a map of the Hassan Taluk.
(2) a map of the Manjarabad Taluk.
(3) a memo (A) explanatory of the map of the Hassan Taluk.
(4) a memo (B) being an abstract of proposals of the Amildars and Deputy Amildar with my opinion on each noted opposite in the margin.
(5) a memo (C) discussing the future boundary between Hassan and the re-constituted Arkalgud Taluks.

5. The Dewan's Proceedings above quoted decide that the proposed Hassan District shall comprise the nine taluks which constituted the old Hassan District. No other decision would have equally well answered administrative requirements; as even a bare glance at the Department of Public Works road map of this part of the Province will show.

6. Hassan is understood to be the head-quarters. No other place is equally eligible in point of situation, climate, public buildings, access to the various parts of the District, &c., &c

7. The head-quarters of the proposed District, and the taluks to constitute the proposed District, being thus settled, the next question relates to revision of boundaries of taluks by such transfers of villages as may be necessary.

8. No revision of taluk boundaries of the four taluks comprised in the Hassan Sub-Division seems called for by the reason that Hassan will hereafter be the head-quarters of a District instead of its being as it is the head-quarters of a Sub-Division. Under the Sub-Division there was as much settlement at Sub-Division office in all matters (except those requiring the revisional powers of a District Magistrate) as at a District office. As no change was required in boundaries of taluks by the breaking up of the Hassan District, so no change is required at its re-constitution.

9. Changes in taluk boundaries and transfers of villages between taluks were required in 1882—83, because some taluks were broken up. Any revision of what

was done in 1832—63 is called for only to the extent to which any of the taluks then broken up is to be re-constituted. Of the taluks to be re-constituted, Arkalgud alone will affect existing arrangements in the Sub-Division. Accompanying memo marked (C) discusses the situation. The upshot of it is that although it may be quite possible and even desirable to re-constitute the Arkalgud Taluk without touching the Hassan Taluk as at present constituted, the balance of considerations is in favor of the re-constitution of the Arkalgud Taluk on its old basis, so that 90 villages which were thence added to Hassan when it was broken up should be restored to it when it is being re-constituted. These 90 villages are those in accompanying map of Hassan Taluk south of the line A. C. E H. A. which will thereby become the boundary line. Aught of inconvenience which might exist by such restoration can be obviated by the early construction of a bridge across the Hemavati at Gorur The bridge may be expensive; but the expense need not be prohibitive if a system of tolls for bridges be brought into force. With a prospect of receipts from tolls, Local Funds should be able to afford the outlay.

*82 Net.

10. The Amildars have taken the occasion to suggest a few transfers of villages on the ground of administrative convenience independent of re-constitution of Taluks and Districts. These are described and discussed in the accompanying paper marked B. It will appear therefrom that the only two suggestions which have appeared to me requiring to be entertained are that of the Manjarabad Amildar (para 6 in memo B) by which the Hemavati river will become the boundary between Manjarabad and Mudgere Taluks, and that of the Deputy Amildar of Grama (para 12 in memo B) by which the blue pencil line B—B drawn upon the Hassan Taluk map will become the boundary line between the Hassan and Hole-Narsipur Taluks, the latter being a decided improvement if the Deputy Amildar's charge be retained, and only a desirable improvement otherwise.

11. When it is decided what villages shall be transferred from and to the Hassan Taluk and whether or not the office of Deputy Amildar in Hassan Taluk is to be retained (paras 12—19 in memo C), it may be necessary to re-arrange the hoblis of the Hassan Taluk. A final re-arrangement of hoblis is best done by the Survey Department when Shanbhogs' charges are finally settled. But an *ad interim* re-arrangement involving the least disturbance of existing arrangement will be necessary.

A.

Hassan Sub-Division Officer's Memo explanatory of Hassan Taluk map submitted with Report No. 1195—324, dated 31st January 1886, To the Secretary to the Dewan.

1. The map is the revenue survey map of the Hassan Taluk as the taluk stands constituted at present (January 1886).

2. Endeavour has been made by colored lines to denote the Shanbhogs' charges and three hoblis in that part of the taluk which will be affected by proposed transfers of villages.

3. The thin red lines enclosing groups of villages denote firkas (Shanbhogs' charges). The village which gives the name to the firka is marked with a cross × or a O in blue or red pencil. Those which bear the same mark (× or O) appertain to the same hobli. It sometimes happens that the villages belonging to two or more Shanbhogs (as in the case of Bhartur and adjoining firkas in the extreme S. W) are so mixed up that it is not possible to indicate them separately. In such cases, the villages giving the names to the firkas are alone marked and all the firkas are enclosed by but one line. It sometimes happens also that a firka consists of one group in one place and another group beyond another firka. In such cases, the villages belonging to the distant group are marked with a small mark (a letter of the alphabet) in red ink and the same mark is put on the village giving its name to the firka (for instance Jagarvalli in the extreme S. E).

4. The groups encircled in green color at the S. W. constitutes the Ponnathpur Hobli now in Hassan Taluk. (The village giving its name to the hobli is under-

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

lined with blue pencil). Only one firka within this circle (*viz Kaudur*) belongs to a different hobli, *viz.* Palya Hobli and was so allotted in 1882—83 to make hoblis of approximately equal sizes (taluk maps were not available then).

5. The group encircled green on the S. E. constitute the Grama Hobli.

6. Two groups encircled with broad red lines between the Ponnathpur and Grama Hoblis constitute the Kattaya Hobli of Hassan Taluk. Firkas between these two broad red colored groups belong to the Hassan Kasaba Hobli.

7. The blue pencil line A. C. E H A. was the boundary line in that part between the Hassan and Arkalgud Taluks when the latter was broken up. The villages south of this line were received into Hassan from Arkalgud on the latter being broken up. It is proposed to restore them to Arkalgud Taluk when Arkalgud is re-constituted (see para 8 of accompanying memo marked B).

8. The partly blue and partly red line A. C. D. F. A. denotes the boundary line between Hassan and the new Arkalgud Taluks, if the proposal of the Hassan Amildar discussed in para 9 of the memo B were adopted.

9. The blue pencil line E. B. denotes the boundary line between the Hassan and Hole-Narsipur Taluks, if the proposal alluded to in para 12 of the accompanying memo marked B were adopted.

REMARKS BY SUB-DIVISION OFFICER.	ABSTRACT OF AMILDAR'S PROPOSALS.
	Arsikere Amildar.
I concur.	1. No transfers of villages necessary.
	Belur Amildar.
2. I disagree. The reasons adduced for the transfer may be true enough as far as they go but they are not sufficient justification for the great public inconvenience arising from transfers of villages. These villages are at the very door of Mudgere Town so to speak and are better where they are than they will be in the Belur Taluk which is large enough without them. The inams alluded to have now become more honorary than service and the social influence of influential men will always be available for the benefit of Government wherever they may be.	2. It is desirable to transfer— Gombdu Firka 14 villages Maypal Firka 15 villages Total.. 29 from Mudgere Taluk to Belur Taluk, because these formerly belonged to Belur Taluk and villages belonging to the same Nad and Bagethana as the aforesaid two Firkas are still in the Belur Taluk. Nad and Bagethana Patels enjoy inams for supervision of the affairs of their respective Nads and Bagethana and if their charges are divided between two taluks, they either do not serve but enjoy their inams for nothing at all, or their influence is lost. The inams were granted and offices granted for securing peace and order in troublous times which do not exist. But still the original object is worth preserving.
3. I disagree. The reason adduced is also insufficient. A road is an inconvenient boundary as questions will arise as to who should maintain it. In this case the road will not throughout become a boundary. Moreover it is no consideration at all, as the villages are very much nearer Chikmagalur Town than Belur Town and proximity to Head-quarters should be the standard.	3. It is also desirable to transfer— Kalsapur Firka 14 villages and Isvarvalli Firka 1 village Total.. 15 from the Chikmagalur to Belur Taluk, because these formerly belonged to Belur Taluk, and by such transfer the road from Magadi to Kalasapura will become virtually the boundary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

Manjarabad Amildar.

4. This proposal was not sanctioned. It seems to me that the transfer should not be effected. The villages may be nearer Saklespur than Belur in number of miles. But there is the River Hemavati between without a ferry. The people too are familiar with Belur and are not familiar with Saklespur. The proposed transfer will also break up the "Nad" which had better not if it can be avoided.

4. The Amildar repeats the proposal one of his predecessors made to transfer from Belur Taluk to Manjarabad Taluk 12 villages (named) of the Narve Firka, because these are from 4 to 7 miles from Saklaspur, whereas they are 11 or 12 miles from Belur.

5. Out of these six villages, four are on the right bank of the Hemavati and might be transferred to Manjarabad if there be no objection. We know of none. But these have long remained beyond Manjarabad Taluk and I have not heard complaints. Perhaps the river is easy to cross and it is better to leave well alone.

5. The Amildar also proposes that 6 villages (named) of the Udise Firka may be transferred from Mudigere to Manjarabad, because they are very near to the border of the Hurdi Firka of Hanbal Hobli in Manjarabad Taluk.

6. This re-transfer was refused some time ago. The people however wish for the re-transfer as they are familiar with Manjarabad and not familiar with Mudgere. Their prayer may be reconsidered, if sufficient reason has appeared during the recent tour. But the frontier line is better as it is, because unless Anjar and Pyate be separated from the rest of the group, the Manjarabad frontier will go beyond the Hemavati there.

6. Also that—
6 Villages of Uggihalli Firka
8 Do of Devarunda Firka

transferred from Manjarabad to Mudgere in 1882 should be re-transferred to the Manjarabad Taluk. The villagers desire it, and no change of map is even necessary as they are already delineated on the taluk revenue survey map.

7. I disagree. The Nallur Firka (now in Hassan Taluk) consists of 11 villages. Some of these are small. But taken altogether they form a sufficient charge for one Shanbhog. And so does the Abbana Firka (now in Manjarabad Taluk) which consists of 13 villages. With the two Firkas in the two taluks, the two taluks have an approximate boundary line. Whether they remain as they now are, or whether they be both in the same taluk, their distance from taluk Head-quarters (whether Saklespur or Hassan) will be the same. When the Survey Department fix the permanent remuneration and charges of Shanbhogs, the two Firkas are likely to be kept separate. It is well therefore that they should remain separate as they at present are. The present Shanbhog should be required to find a competent relative for one of the Firkas, he keeping the other for himself. If he fails, Government ought to appoint one of their choice.

7. Lastly that 6 villages of Nallur Firka now in the Hassan Taluk should be transferred to the Manjarabad Taluk, because they are contiguous to the villages of the Abbana Firka which is already in the Manjarabad Taluk, and the Shanbhog for both Firkas is the same man. It is convenient that both Abbana and Nallur Firkas should be in the same taluk. And the ryots wish that Nallur should be taken to Manjarabad Taluk rather than that Abbana should be taken to Hassan.

Hassan Amildar.

8. The balance of reasons pro and con is in favor of such restoration of these 90 villages. If restored, the boundary line between Arkulgud and Hassan will be as indicated by the blue pencil line A. C. E. H. A. on the accompanying map of the Hassan Taluk.

(See however Memo C.)

8. As the Arkalgud Taluk is to be re-constituted, it is well that the 90 villages which were thence added to the Hassan Taluk when the Arkalgud Taluk was broken up should be restored to Arkalgud Taluk as they are nearer to Arkalgud than to Hassan.

9. I disagree. Whether or not the Deputy Amildar's office is retained, these villages had better remain in Hassan Taluk where they have been half always and half since 1881. They are equi-distant between Hassan and Arkalgud. The people are more familiar with Hassan than with Arkalgud. The frontier line A. C. E. H. A. is straight enough without such transfer, and straighter than with such transfer, because if so transferred, the boundary line will be A. C. D. F. A.

10. I disagree. The matter has been above discussed under Manjarabad Taluk.

(See para 7 above)

9. If the office of the Deputy Amildar in Hassan Taluk is to be abolished, it is well that the—

Kattaya Firka	2	villages
Muddenhalli Firka	4	villages
Ballekere Firka	9	villages
Total..	15	

of Kattaya Hobli should be transferred to Arkulgud Taluk, as this will make the frontier straight.

10. The 13 villages of the Abbana Firka which were formerly in Hassan Taluk were transferred in 1882—83 to Manjarabad Taluk. These may be taken back into Hassan as the Shanbhog is the same for the said Firka and for Nallur Firka which is yet in Hassan Taluk.

The Deputy Amildar of Grama.

11. The balance of reasons pro and con is in favor of such restoration as already observed under Hassan Taluk.

(see para 8 above).

12. I concur. These ten villages may be taken back into Hassan Taluk if there be no objection. No objection is known here. If so taken back, the frontier line in this part of the taluk will be as roughly indicated by the blue pencil line B—B. The villages are certainly nearer Grama than Hole-Narsipur and Grama does not continue as a Deputy Amildar's Head-Quarters, the villages are equi-distant from Hassan and Hole-Narsipur and their transfer to Hassan gives a convenient boundary line.

11. The villages taken into Hassan Taluk (and distributed between Ponnathapur and Kattaya Hoblis) which were taken from Arkalgud should be restored to Arkalgud, because the latter taluk is to be re-constituted.

12. The Firkas of—

Malali	7	villages
Mavanur	3	villages
Total—	10	

which were transferred from Hassan to Hole-Narsipur Taluk in 1882—83 and are still in that taluk should be taken back into Hassan as they are three or four miles from Grama (the Deputy Amildar's Head-quarters) and about 12 miles from Hole-Narsipur.

C.

MEMO ON THE RECONSTITUTION OF THE ARKALGUD TALUK.

The Arkalgud Taluk was a small one consisting of but 331 villages at one time. In 1875 it received an accession of 101 villages on the breaking up of the Maharajandurga Taluk and again of 11 villages of the Bhartur Firka which formerly belonged to the Maharajandurga Taluk and were given to Manjarabad on the breaking up of Maharajandurga. The number of villages thus went up to 443.

2. And the boundary line between Hassan and Arkalgud Taluks was as shown by line A. C. E. F. A. in accompanying map till 1881.

3. In 1881, 7 villages were given away to Hole-Narsipur Taluk and 6 villages of Hassan Taluk, the number of villages being thus reduced to 430.

4. And the boundary line between Hassan and Arkalgud Taluks was as shown by line A. C. E. H. A. in accompanying map till end of 1882 when the Arkalgud Taluk was broken up.

5. On its beaking up in 1882—

90	villages	were given to Hassan Taluk.
95	do	to Yedatore.
50	do	to Hole-Narsipur
and 195	do	constituted Arkalgud Sub-taluk.
430		

6. The Hemavati river then became the boundary between Hassan and the Arkalgud Sub-taluk *i. e.* the Hole-Narsipur Taluk, in which the Sub-taluk was merged.

7. Now that the Arkalgud Taluk is to be re-constituted, the question of the future boundary line between it and Hassan Taluk is open, because it does not seem imperative to re-constitute it on its basis of 1882.

8. The 90 villages between line A. C. E. H. A. and the Hamavati river require to be tacked on to Arkalgud, because—

(1). They have belonged to Arkalgud Taluk since the Maharajandurga Taluk was broken up in 1875.

(2). The people are more familiar with Arkalgud than with Hassan.

(3). The villages are nearer to Arkalgud and in some cases much nearer than to Hassan.

(4). For the sahukars and merchants at Arkalgud with whom the people of these villages have dealings more than with those at Hassan, the Munsiff's Court at Hole-Narsipur will be more accessible and convenient than that at Hassan.

(5). It restores the state of things which existed just before the breaking up of the Taluk.

9. On the other hand the 90 villages require to be kept on in the Hassan Taluk because—

(1). They have been in Hassan Taluk these three years.

(2). The people have been becoming familiar with Hassan for public work these three years.

(3). Owing to the unbridged Hemavati river, Hassan will for several months in the year be more easy of access from the villages, and the villages from Hassan, than Arkalgud; for though the Yagachi may require to be crossed in the case of villages, it is easier forded at Shettihalli.

(4). For such of the villagers as are parties to civil suits in Munsiff's Courts, Hassan, will be very much nearer and more convenient than Hole-Narsipur.

(5). The survey settlement was introduced in these villages with effect from 1st April 1883. It is well for statistical purposes that there should be no change in taluk boundaries if it can be avoided

10. Weighing the considerations set forth in para 8 above with those set forth in para 9, it seems to me that the former weigh heavier. The preponderence is slight. With a bridge across the Hemavati at Gorur, the preponderence will be decided.

11. In the foregoing paragraphs no consideration is given to the amount of work which the villages entail and to the extent therefore to which there will be relief or accession. It needs to be noted that as all assessed land is in occupation in these villages, the ryots are well-to-do, and there is no difficulty in collection of revenue. There is therefore not much of relief nor much of accession to work in the revenue department. There is however a corresponding accession of work to Civil Courts.

12. The question will however need to be considered with reference to the existing size of the Hassan Taluk and to the continued existence or otherwise of the Deputy Amildar at Grama. The following are the figures. In them, the villages are counted as they now are, as a result of the amalgamation of small villages with large ones which follows the survey settlement. Thereby, what have hitherto been spoken of as 90 villages between the line A. C. E. H. A. and the Hemavati river on the south are only 82.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

9. I disagree. Whether or not the Deputy Amildar's office is retained, these villages had better remain in Hassan Taluk where they have been half always and half since 1881. They are equi-distant between Hassan and Arkalgud. The people are more familiar with Hassan than with Arkalgud. The frontier line A. C. E. H. A. is straight enough without such transfer, and straighter than with such transfer, because if so transferred, the boundary line will be A. C. D. F. A.

10. I disagree. The matter has been above discussed under Manjarabad Taluk.

(See para 7 above)

9. If the office of the Deputy Amildar in Hassan Taluk is to be abolished, it is well that the—

Kattaya Firka	2	villages
Muddenhalli Firka	4	villages
Ballekere Firka	9	villages
Total..	15	

of Kattaya Hobli should be transferred to Arkulgud Taluk, as this will make the frontier straight.

10. The 13 villages of the Abbana Firka which were formerly in Hassan Taluk were transferred in 1882—83 to Manjarabad Taluk. These may be taken back into Hassan as the Shanbhog is the same for the said Firka and for Nallur Firka which is yet in Hassan Taluk.

The Deputy Amildar of Grama.

11. The balance of reasons pro and con is in favor of such restoration as already observed under Hassan Taluk.

(see para 8 above).

12. I concur. These ten villages may be taken back into Hassan Taluk if there be no objection. No objection is known here. If so taken back, the frontier line in this part of the taluk will be as roughly indicated by the blue pencil line B—B. The villages are certainly nearer Grama than Hole-Narsipur and Grama does not continue as a Deputy Amildar's Head-Quarters, the villages are equi-distant from Hassan and Hole-Narsipur and their transfer to Hassan gives a convenient boundary line.

11. The villages taken into Hassan Taluk (and distributed between Ponnathapur and Kattaya Hoblis) which were taken from Arkalgud should be restored to Arkalgud, because the latter taluk is to be re-constituted.

12. The Firkas of—

Malali	7	villages
Mavanur	3	villages
Total—10		

which were transferred from Hassan to Hole-Narsipur Taluk in 1882—83 and are still in that taluk should be taken back into Hassan as they are three or four miles from Grama (the Deputy Amildar's Head-quarters) and about 12 miles from Hole-Narsipur.

C.

MEMO ON THE RECONSTITUTION OF THE ARKALGUD TALUK.

The Arkalgud Taluk was a small one consisting of but 331 villages at one time. In 1875 it received an accession of 101 villages on the breaking up of the Maharajandurga Taluk and again of 11 villages of the Bhartur Firka which formerly belonged to the Maharajandurga Taluk and were given to Manjarabad on the breaking up of Maharajandurga. The number of villages thus went up to 443.

2. And the boundary line between Hassan and Arkalgud Taluks was as shown by line A. C. E. F. A. in accompanying map till 1881.

3. In 1881, 7 villages were given away to Hole-Narsipur Taluk and 6 villages of Hassan Taluk, the number of villages being thus reduced to 430.

4. And the boundary line between Hassan and Arkalgud Taluks was as shown by line A. C. E. H. A. in accompanying map till end of 1882 when the Arkalgud Taluk was broken up.

5. On its beaking up in 1882—

90	villages were given to Hassan Taluk.
95	do to Yedatore.
50	do to Hole-Narsipur
and 195	do constituted Arkalgud Sub-taluk.
430	

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

6. The Hemavati river then became the boundary between Hassan and the Arkalgud Sub-taluk *i. e.* the Hole-Narsipur Taluk, in which the Sub-taluk was merged.

7. Now that the Arkalgud Taluk is to be re-constituted, the question of the future boundary line between it and Hassan Taluk is open, because it does not seem imperative to re-constitute it on its basis of 1882.

8. The 90 villages between line A. C. E. H. A. and the Hamavati river require to be tacked on to Arkalgud, because—

(1). They have belonged to Arkalgud Taluk since the Maharajandurga Taluk was broken up in 1875.

(2). The people are more familiar with Arkalgud than with Hassan.

(3). The villages are nearer to Arkalgud and in some cases much nearer than to Hassan.

(4). For the sahukars and merchants at Arkalgud with whom the people of these villages have dealings more than with those at Hassan, the Munsiff's Court at Hole-Narsipur will be more accessible and convenient than that at Hassan.

(5). It restores the state of things which existed just before the breaking up of the Taluk.

9. On the other hand the 90 villages require to be kept on in the Hassan Taluk because—

(1). They have been in Hassan Taluk these three years.

(2). The people have been becoming familiar with Hassan for public work these three years.

(3). Owing to the unbridged Hemavati river, Hassan will for several months in the year be more easy of access from the villages, and the villages from Hassan, than Arkalgud; for though the Yagachi may require to be crossed in the case of villages, it is easier forded at Shettihalli.

(4). For such of the villagers as are parties to civil suits in Munsiff's Courts, Hassan, will be very much nearer and more convenient than Hole-Narsipur.

(5). The survey settlement was introduced in these villages with effect from 1st April 1883. It is well for statistical purposes that there should be no change in taluk boundaries if it can be avoided

10. Weighing the considerations set forth in para 8 above with those set forth in para 9, it seems to me that the former weigh heavier. The preponderence is slight. With a bridge across the Hemavati at Gorur, the preponderence will be decided.

11. In the foregoing paragraphs no consideration is given to the amount of work which the villages entail and to the extent therefore to which there will be relief or accession. It needs to be noted that as all assessed land is in occupation in these villages, the ryots are well-to-do, and there is no difficulty in collection of revenue. There is therefore not much of relief nor much of accession to work in the revenue department. There is however a corresponding accession of work to Civil Courts.

12. The question will however need to be considered with reference to the existing size of the Hassan Taluk and to the continued existence or otherwise of the Deputy Amildar at Grama. The following are the figures. In them, the villages are counted as they now are, as a result of the amalgamation of small villages with large ones which follows the survey settlement. Thereby, what have hitherto been spoken of as 90 villages between the line A. C. E. H. A. and the Hemavati river on the south are only 82.

13. At present the Hassan Taluk consists of 374 villages
in Amildar's charge and 164 Do
in Deputy Amildar's charge
Total..538

14. If the Deputy Amildar's office be retained, the respective charges after the transfer of 82 villages to the Arkalgud Taluk will be—

310 villages in Amildar's charge.
146 Do in Deputy Amildar's charge
Total..456 Do

But if the Deputy Amildar's charge be retained, it will be decidedly advantageous to take over 10 villages from Holc-Narsipur Taluk (*vide* para 12 of Memo B and para 10 of letter). So that the respective charges will be—

310 villages in Amildar's charge.
156 Do in Deputy Amildar's charge.
Total..466 Do

15. If the Deputy Amildar's charge were abolished and the 82 villages given over to Arkalgud, the future charge of the Amildar will compare as follows with his present charge :—

374 villages, present, charge
456 villages, future, charge
82 increase

and these are villages where the Shanbhogs are bad, the Patels bad, the ryots notoriously bad payers of kandayam, and there is much criminal work which though involving petty cases and offences must be inquired into when complaints are lodged and pressed. The relief which the Amildar will get by the transfer of the 82 villages to Arkulgud will not compensate to an appreciable extent the accession to his work which the simultaneous abolition of the Deputy Amildar's charge will entail.

16. I am unable to support the last statement by statistics, because these are not with me ; they are available at Chikmagalur. But one thing will show its truth. Even before the arrangements of 1882, *i. e.* when Hassan did not possess the Arkalgud Taluk's 82 villages, the charge was too much for one Amildar, so that temporary help was often given in the shape of a Peshkar at one time, an extra Taluk Sheristadar at another, special Peshkar or Sheristadar at a third and so forth.

17. I would strongly advocate therefore the retention of a Deputy Amildar with his staff of 2 Clerks and a menial establishment as this is better and not much more expensive than a Peshkar or other officer with Magisterial powers who will at least be necessary with a Munshi and an orderly.

18. Thus if the Deputy Amildar's charge is retained, the 82 villages may or may not be transferred to Arkalgud. If they be kept on into Hassan, the result will be that—

Hassan will be a large Taluk as the District Head-Quarter Taluk might well be, and it will be an efficient Taluk as it should be.

Arkalgud will be a small Taluk as a frontier Taluk might afford to be, and an Amildar in charge will make it as efficient as a frontier Taluk should be.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

This result will be so good that there is strong temptation to urge the arrangement as by far about the best arrangement that can be made, and it involves the least change.

19. If the Deputy Amildar's charge is retained, a slight re-arrangement of hoblis will be necessary such as is suggested by the advantage of a map which only recently accrued.

Memo by the Deputy Commissioner, Mysore District, dated 4th March 1886.

The Malvalli Sub-Taluk as it stands now comprises five hoblis named in the margin and consists of 135 villages with an annual revenue of Rs. 43,698—14—5.

		Villages.
1.	Malvalli ...	29
2.	Kolgere ...	19
3.	Gaudgere ...	31
4.	Kirgaval ...	17
5.	Purigal ...	39
		135

2. When it was a taluk it included the three more hoblis consisting of 120 villages, with an annual revenue of Rs. 33,639—3—8. The first of these was added on to Mandya, and the latter two to Kankanhalli and Closepet Taluks. Besides these twenty other villages bearing revenue Rs. 4,953—11—0 (1 gomal) from Malvalli Hobli, 2 Magondanahalli, 3 Kodhalli, 4 Heggodlu from Gavadagere Hobli were transferred to Kankanhalli Taluk and 16 villages from Kolgere Hobli to Mandya Taluk. In all 140 villages with a revenue of Rs. 38,738—6—6 were taken away from this Taluk.

1.	Dod Arsikere ...	25
2.	Kodamballi, now Halgur	53
3.	Kabbal, now Satnur	42
		120

1. Kolgere
2. Kottipur
3. Bannahalli
4. Duggannahalli
5. Majipur
6. Kardagere
7. Bujavalli
8. Madenahalli
9. Bopsamudra
10. Manigere
11. Honnalgere
12. Tore Bommahalli
13. Honnayakanhalli
14. Hagalhalli
15. Mudinahalli
16. Menasigere (jodi)

3. It is now proposed that in reorming the taluk all except the Kabbal now Satnur Hobli and the 11 villages of Halgur Hobli, mentioned in the margin, be re-transferred to Malvalli Taluk.

1. Kodamballi
2. Bichapur
3. Hunsanhalli
4. Nagapur
5. Ambadahalli
6. Narlu
7. Bullapatna
8. Jagdepur
9. Honiganahalli
10. Madapur
11. Kondapur

4. The Satnur Hobli and the villages mentioned in the above para are to be given up in consequence of their remoteness from Malvalli and the inconvenience of communication particularly with Satnur Hobli. This proposal has received the concurrence of the Deputy Commissioner of Bangalore District.

5. The proposed addition will bring 87 villages and a revenue of Rs. 24,419—8—5, which will make the new Taluk of Malvalli comprise of 7 hoblis and 222 villages with a revenue of Rs. 68,118—6—10 and a population of 75,504 against 8 hoblis 275 villages with a revenue of Rs. 82,437—4—11 and a population of 83,351.

6. The appended list A shows the hoblis and villages to be re-added to Malvalli with their population, revenue and distances from Malvalli, and the Taluks to which they now belong respectively, while list B gives a similar information of the hobli and villages which are not to be taken back and the rough sketch map, the shape of the proposed Malvalli Taluk.

7. A hoblivar statement of the present and proposed Taluk of Malvalli is also appended.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

Memo by the Deputy Commissioner of Mysore, dated 4th March 1886.

The Arkalgud Sub-Taluk as it now stands comprises 3 hoblis noted in the margin consisting of 204 Government and Inam villages with a population of 40,794 and revenue of Rs. 80,125—5—9.

1.	Kasaba Arkalgud	72
1.	Mallipatna	70
3.	Nilvagil	62
		204

2. When it was a taluk, it contained 10 hoblis consisting of 445 villages with a population of 83,872 and an annual revenue of Rs. 1,52,552—5—8. Of these the northern portion of the taluk *viz.*, Ponnathpur, in full, and aportion of Gorur Hoblis were transferred to the Hassan Taluk and 16 villages of the latter added on to Hole-Narasipur, the remaining 8 villages being retained in the Arkalgud Sub-Taluk. The last mentioned eight and seventeen villages of the late Marur Hobli to the east of the Head quarters of the late taluk were added on to Kasaba Arkalgud and the remaining 40 villages of the Marur Hobli were transferred to Hole-Narasipur. Towards the south Krishnarajkatte and Hansoge in full and portions of Basavapatna and Konanur and 2 villages of the Kasavattur Hoblis were transferred to the Yedatore Taluk.

1.	Kasaba Arkalgud	48
2.	Mallipatna	70
3.	Ponnathpur	70
4.	Gorur	42
5.	Marur	57
6.	Basavapatna	28
7.	Konanur	33
8.	Kesvattur	36
9.	Krishnarajkatte	34
10.	Hanasoge	27
		445

3. The villages transferred from the Marur Hobli together with some villages of the late Nidvani Hobli and of Halli Mysore (received by transfer from Yedatore) were formed into one hobli which is called "Gubbi Hobli," while the villages transferred to the Yedatore Taluk remain in four hoblis, to which they were attached, without any change in the Shekdar's or hobli jurisdiction. The number of villages was however since reduced by one owing to its absorption in another. The 6 villages retained in the Basavapatna, 23 in Konanur and 34 in the Kesvattur Hoblis are amalgamated and formed into one and called "Nilvagil Hobli," while the Mallipatna Hobli remains as before without any change whatever.—

4. The subjoined statement shows Number, population and revenue of the villages transferred from the Arkalgud late Taluk with names of Hoblis to which they belonged :—

No.	Names of Hoblis.	Name of Taluk to which they were transferred.	No. of villages	Population.	Revenue.		
1	Ponnathpur	Hassan	70	7,704	18,476	8	1
2	Gorur	Do	18	3,046	6,540	12	8
		Holé-Narsipur ..	16	2,382	4,466	3	1
3	Marur	Do ...	40	6,382	13,387	15	1
4	Basavapatna	Yedatore	22	5,450	11,685	15	5
5	Konanur	Do	10	6,006	4,874	9	9
6	Kesvattur	Do	2	1,114	1,623	12	5
7	Krishnaraj katte	Do	34	7,952	13,060	11	4
8	Hanasoge	Do	27	7,622	15,106	2	2
			239	47,658	89,222	10	0

5. It is proposed that in re-constituting the taluk, all the 40 villages of Marur, transferred to Hole-Narasipur, and 22 of Kasavapatna, 10 of Konanur and two of Kesvattur Hoblis, given away to the Yedatore Taluk, be re-transferred to the Arkalgud Taluk. Some of these villages are nearer to Yedatore to which they now belong, but their re-transfer will facilitate the work owing to convenient communication and leave the entire northern Kattepur channel in one taluk and avoid the necessity of crossing the river as it is the case now.

6. The Banavasi Firka consisting of [illegible] villages, formerly belonging to Gorur, and now to Kasaba Arkalgud, may be transferred to the Hole-Narasipur Taluk and added on to the Halekote Hobli. These villages are, of course, nearer to Arkalgud in which they cannot be left included, inasmuch as they cannot be frequented without crossing the river "Hemavati" at a distance of about 4 miles from Arkalgud and are surrounded by the villages of the Hole Narsipur and Hassen Taluks and also contain lands irrigated from Changarvalli channel drawn from the Hemavati river.

7. Krishnarajkatte and Hanasoge Hoblis in full transferred to Yedatore Taluk which possess lands irrigated from the southern Kattepur channel and situated on the southern bank of the river Cauvery, and the Ponathpur Hobli and the villages of Gorur transferred to Hassan and Hole-Narsipur may be left in those taluks respectively without regard to the distance from the Taluk Head-quarters for the reasons assigned in para 4.

8. The proposed change will bring an increase of 65 villages, which will make the new Arkalgud Taluk to comprise 5 hoblis and 269 villages with a revenue of Rs. 1,17,048—9—3 and a population of 59,136, against 10 hoblis and 445 villages with a revenue of Rs. 1,52,552—5—8 and a population of 88,872 and will confine the new Arkalgud Taluk between the rivers Cauvery and Hemavati.

9. This arrangement necessitates the appointment of a Shekdar for the portion of the Gubbi Hobli to be left in the Hole-Narsipur Taluk. This may be done by revising the late Nidavani Hobli and keeping attached to it 20 villages of the Gubbi hobli containing a population of 5,471 and revenue of Rs. 5,404—10—8.

10. The appended list (I) shows the hoblis and villages to be re-added to Arkalgud with their population, revenue and the distance from Arkalgud and the taluks to which they belong respectively, the list (II) gives similar information of the Hobli and villages which are not to be taken back, while the list (III) shows the villages with their revenue, &c., to be now transferred to the Hole-Narsipur Taluk. The accompanying map will show what the late Arkalgud Taluk was and what it is now proposed to be. The red dotted line shows how the Hole-Narsipur Taluk has now run into Arkalgud to the east.

11. A statement showing the present and proposed hoblis in the new Arkalgud, Hole-Narsipur and Yedatore Taluks is herewith forwarded.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

I.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

From the Deputy Commissioner, Mysore District, To the Chief Secretary to the Dewan, Camp No. D, dated Hunsur, 22nd March 1886.

With reference to your D. O. of the 20th instant received yesterday, I have the honor to submit herewith two statements showing side by side the hoblis, and villages attached to them, of the present Sub-Taluks of Arkalgud and Malvalli and those proposed now for the future.

2. The present arrangement do not disturb the existing Shanbhogs' charges.

3. I regret to say that I have not the list of villages of the Bevinhalli Hobli inconveniently added to Seringapatam. I have however written direct, to save time, to the Amildar of Seringapatam to send you the required information direct.

4. The existing Malvalli Sub-Taluk has 135 villages, and the proposed taluk will have 222 villages according to the enclosed statement; to this will have to be added the villages of Bevinhalli Hobli. Likewise the existing Arkalgud Sub-Taluk has 204 villages and the proposed taluk will have 269 villages, and it will be only between the rivers Hemavati and Cauvery.

List of Villages of present Sub-Taluk and proposed Taluk of Arkalgud in the Mysore District.

From the Officer in charge of the French Rocks Sub-Division, To the Secretary to the Dewan of Mysore, Revenue Department, No. 197, dated 15th November 1884.

I have the honor to bring to the notice of Government the great inconvenience that has resulted from 9 of the villages of the Bevinhalli Hobli, Seringapatam Taluk, being still retained in that taluk, while the majority of the hobli, *viz.* 18 villages, have been transferred to Tirumakudlu-Narsipur. Bannur Hobli which is intermediate between Seringapatam and Bevinhalli has been transferred to Tirumakudlu-Narsipur Taluk I need not go at length into the inconveniences attending this arrangement. The Shekdar of Bevinhalli has to attend to the calls of two Amildars and the Amildar of Seringapatam has to traverse a large portion of Tirumakudlu-Narsipur Taluk to arrive at the villages of Bevinhalli which are almost 30 miles from Seringapatam but within 3 miles only of Malvalli.

2. I brought these inconveniences to the notice of the Deputy Commissioner, Mysore District. He has remarked in the margin of my memorandum herewith submitted that the villages have been transferred to Mysore District, but no formal notification is forthcoming to this effect. If the sanction of Government has been conveyed for the transfer, I have to request that a notification may be published in the Gazette to that effect.

3. I also made some proposals (copy submitted herewith for ready reference) for transfer of villages from Maudya and Maddur, and I solicit the Dewan's attention to them. My memoranda must have been submitted by the Deputy Commissioner direct.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

MANDYA.

With regard to the reorganization of the hoblis of the Mandya Taluk, I have consulted both the Amildar and Deputy Amildar.

In the first place, they would both propose the retransfer of the villages of Dugganahalli and Mayapura transferred in December last with the Arsukere Hobli of the late Malvalli Taluk. These villages are surrounded on all sides by the Malvalli Taluk, and stand isolated from the rest of the Mandya Taluk. They were within about 3 miles of Malvalli and about 10 miles from Maddur. They form the separate charge of a Shanbhog who resides at Malvalli and there will be every convenience in the two villages being transferred to Malvalli.

This will be done.

A similar remark applies to the two villages of Halebid and Hoskote now forming part of Mattigere Hobli and forming the charge of a separate Shanbhog. They are close to the French Rocks-Nagamangala road and are separated from Mandya Taluk and surrounded by the village of the Seringapatam Taluk. They may well be joined to the French Rocks Hobli of the Seringapatam Taluk. Both the Amildars of Seringapatam and Mandya see the necessity of this arrangement and have recommended the transfer. It would appear that these villages are now under the Police charge of the French Rocks Station.

This will be transferred to French Rocks Hobli.

The Amildar of Mandya tells me that there has been some confusion in the grouping of villages in para 23 of the letter under notice. He says that the 16 villages therein referred to form part of Kotalli Hobli and not of Yeliyur, and that the 29 villages noted below the para do not all belong to Basral. Thirteen form part of Basral and 16 villages form part of Mattigere Hobli. In para 22 the village of Kyatangere is shown as belonging to Mandya hobli. It is part of Kotalli † Hobli and the whole of the hobli is proposed to be joined to Mandya Hobli and not to Yeliyur. I fear however that some other grouping may have been made by the Deputy Commissioner and the Amildar's opinion may be due to his ignorance of this arrangement. I beg to forward a statement prepared by the Amildar. The head-quarters of the proposed Atkur Hobli would appear to be Hemmanhalli where the Shekdar holds his office. Atkur is an unimportant and out of the way village. The name of the hobli itself may be changed to Hemmanhalli for the sake of convenience.

Quite so, but Kotalli and Yeliyur had been formerly amalgamated and called by the latter name, which is according to present arrangement called Dudda.

*Yes, but these two also were amalgamated and now re-revised.

Kyatangere belonged to Kotalli was given to Mandya and is now given to Dudda.

†This hobli is divided between Mandya and Yeliyur, *i. e.* Dudda.

Yes.

Yes, it will be called Hemmanhalli Hobli.

AMILDAR'S MEMORANDUM.

Mandya Taluk as it stood previous to the revision of taluks consisted of 11 hoblis comprising 282 villages. On the abolition of Malvalli Taluk, 41 villages from it and 30 out of Kunigal Taluk (Koppa Hobli) were added to Mandya Taluk. In all there are at present 353 villages grouped into 13 hoblis.

The Malvalli Amildar's statement gives the distance as 6 miles. They will be transferred to Malvalli.

Four villages have to be transferred on account of their situation with reference to this taluk. Dugganahalli and Mayapura being within 3 miles of Malvalli have to go to Tirumakudlu-Narsipur Taluk. Hoskote and Halebid (jodi village) have to go to Seringapatam. These villages are surrounded by villages of the said taluks. For the latter arrangement the Seringapatam Amildar has given his consent.

Quite right, it will be done.

The remaining 349 villages may be sub-divided into 7 hoblis as shown below :—

1. Mandya Hobli (51 villages.)

Twenty-two villages of the present Mandya Hobli with the exception of Kayamgutta Hodagatta village which should go to Koppa Hobli

This kayamgutta village is within 6 miles from Mandya, so it is allowed to remain.

Twenty-nine villages. The whole of the present Kotalli Hobli.

Nineteen villages given to Mandya and 10 to Yeliyur or Dudda.

2. Dudda Hobli (51 villages.)

Twenty-two villages out of present Dudda Hobli comprising Hallenahalli, Sivahalli and Dudda firkas.

Already this has been done.

Do do

Twelve villages out of the present Mattigere Hobli, Mallenahalli and Honnamadu firkas.

Do do

Seventeen villages. The whole of present Yeliyur Hobli.

3. Basral Hobli (51 villages.)

Thirteen villages out of the present Mattigere Hobli (Mattigere firka).

This has already been done.

Do do

Fifteen villages out of the present Dudda Hobli comprising Mudigandur, Chokkanahalli firkas and Bettahalli.

Twenty-three villages out of present Basral Hobli comprising Basral and Kambadahalli firkas. Bilidegalu, Gudagonhalli and Hosur villages. And two sarvamanya villages, *viz.* Gaudagere and Kodahalli.

4. Koppa Hobli (55 villages.)

Thirty villages of present Koppa Hobli.

This has already been done.

Twenty-four villages of the present Basral Hobli (Hallagere firka 13 villages, Margonhalli firka including Echagere 10 villages and Kergodu) * 1 kayamgutta, Kadagatta which is at present in the Mandya Hobli.

Hallagere firka has been given to Koppa.

Margonhalli firka has been retained at Basral.

* Retained at Mandya being so near.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

AMILDAR'S MEMORANDUM.

With reference to the reorganization of the hoblis now under contemplation, the following suggestion is made for special consideration.

A small part of the Bevinahalli Hobli consisting of 9 villages particularized in the accompanying statement has been retained in the Seringapatam Taluk which has caused very great inconvenience owing partly to their distance from the taluk head-quarters and partly to their being in charge of a Shekdar who has to attend to the calls of 2 Amildars, Tirumakudlu Narsipur and Seringapatam, the remaining villages 18 in number of his hobli having been transferred in December to the former taluk. It is therefore very necessary that the above 9 villages be also transferred to the same taluk, three of them being attached to Malvalli and the rest to Narsipur with reference to which they are conveniently situated.

Has been done.

Survey Department will deal with this.

It will be seen from the note to the accompanying statement that the Shanbhog has agreed to divide the range with his brother and give him the villages proposed to be transferred to Malvalli.

MEMORANDUM.

With reference to the proposal made in para 18 of the letter to the Secretary to the Dewan that Palhalli should be made the head-quarters of the Balgola Hobli, I beg to state that from what I have seen and heard Balgola is not reported to be unhealthy. Palhalli is too close to Seringapatam to be a proper head-quarters of a hobli which extends to the borders of the Mysore Taluk. The proposal to make Palhalli the head-quarters, in addition to the inconvenience of the name of the hobli not indicating the head-quarters of the hobli, has the disadvantage of not being centrically situated.

We will then keep the Shekdar at Balagola which is only a few miles from Palhalli.

2. In addition to the remarks above made, I beg to bring to the Deputy Commissioner's notice the great inconvenience that has resulted from the *Bevinhalli Hobli* being kept under the control of two Amildars. As represented by the Amildar of Seringapatam, 9 villages belonging to this hobli are still attached to Seringapatam, while 18 villages have been transferred to Tirumakudlu-Narsipur Talak the whole of the 27 villages being however under one Shekdar. In the new scheme probably it is proposed to make these 9 villages part of Arkere Hobli. In that event there is the other objection of the great distance of the 9 villages from Seringapatam, and the intervention of Bannur Hobli which now forms part of Tirumakudlu Narsipur. The

Vide remarks in the Statement.

Bevinhalli Hobli is abolished and the Shekdar will soon go.

No. These were already added on to Kirgaval Hobli. They should not remain in Seringapatam.

No. Villages left to Seringapatam. The 9 villages were given to Kirgaval.

No.

This has been done.

Bannur Hobli which is situated between the remaining 9 villages of Bevinhalli Hobli and Seringapatam has been transferred to Tirumakudlu-Narsipur. The proposed transfer of 9 villages to Narsipur will not only promote facility of control, but will secure symmetry of form to the Taluk.

They have been given to Kirgaval.

With regard to these 9 villages again, if I may be permitted to make a suggestion, I would propose that three of them being nearer to Malvalli than to Tirumakudlu-Narsipur be added to the former head-quarters as detailed in the accompanying statement. They may, perhaps, be added to Kirgaval Hobli. They form one Shanbhog's range, but the Shanbhog has given a deposition in my presence and before the Amildar of Seringapatam that he is willing to divide the firka with his brother and given him the three villages proposed to be attached to Malvalli.

This has been done.

This is a question for determination by the Survey. The Survey Department will deal with this.

3. The accompanying memorandum and statement prepared by the Amildar of Seringapatam are herewith forwarded for information.

These 3 villages were formerly attached to Bevinhalli Hobli and consequently went to Tirumakudlu-Narsipur along with other villages of that hobli when it was amalgamated with Bannur Hobli. The distance of the 3 villages from the taluk head-quarters of Seringapatam and T. Narsipur is very nearly the same.

The Mahadevapur Jahgir consists of 4 villages. Three of these were attached to Bevinhalli Hobli and one to Arkere. The whole of Bevinhalli Hobli having been transferred to Tirumakudlu-Narsipur, the 3 villages followed it. One of these three villages appears to be apart of a Shanbhog's charge of other villages.

It may be well to explain here that the Jahgirdar of Mahadevapur complained to me when I had last been to his village that during the recent reorganizations three of his villages were transferred from Seringapatam Taluk to Tirumakudlu-Narsipur Taluk, while the principal village forming his head-quarters with the attached villages still form part of Seringapatam. I need not say that he is put to great inconvenience by this arrangement. I do not see why the old arrangement should not be reverted to.

Statement showing the distance of the 9 villages of the Bevinhalli Hobli retained in the Seringapatam Taluk to the several Taluk Head-quarters.

No.	Names of Villages.	At what distance from Seringapatam. Miles.	At what distance to Tirumakudlu-Narsipur. Miles.	At what distance to Malvalli. Miles.	Remarks.
1	Kenchanahalli	16	8	14	These can be conveniently added to Tirumakudlu-Narsipur.
2	Ganigankoppal	16	8	14	
3	Hanumanalu	15	12	16	
4	Bendaravadi	19	13	11	These can be added to Malvalli.
5	Desavalli	19	13	11	
	Avverahalli	25	9	7	
7	Kuntanahalli	17	8	13	Do to Tirumakudlu-Narsipur.
8	Kalkuvi	21	8	10	
9	Maragaudanahalli	15	14	15	
	Villages transferred to Tirumakudlu-Narsipur but which may remain in the Seringapatam Taluk.				
1	Menasikyatanahalli	14	15	15	Jahgir to Rama Rao.
2	Sihalli	12	12	18	
3	Hanasagahalli	14	14	13	

These 9 villages are not attached to Seringapatam. They were already added on to Kirgaval Hobli, Tirumakudlu-Narsipur Taluk, but omitted in the notification in the Gazette probably by oversight. The whole District has been re-revised according to the recent instructions of the Dewan as per letter now prepared, which will still keep these 9 villages to Kirgaval Hobli.

The Shanbhog of the Hanumanalu Firka, who holds Hanumanalu, Ganiganakoppalu, Kenchanahalli, Bendaravadi, Desavalli, Avverahalli, and its hamlet Maragaudanahalli, states that, villages Nos. 4, 5, 6 and 9 being close to Malvalli, he would give them up to his elder brother Lakshminaranappa, who is now Shanbhog of Chajjalur Firka of the Malvalli Sub-Division, and keep the rest, *viz.* Nos. 1, 2 and 3, for himself and that all these may be handed over to that Taluk.

Note.—A deposition has been taken to this effect by the Amildar of Seringapatam.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

Demi official letter from the Sub-Division Officer, French Rocks, dated 5th September 1885.

With reference to your confidential letter, dated 13th August, I beg to submit statements, in detail, of the taluks of this Sub-Division, as they stood before the recent transfers, and also as they are now.

	Villages	Jamabandi (demand).
Channarayapatna	432	1,34,191
Attikuppa	428	1,35,902
Nagamangala	374	86,468
Seringapatam	228	1,63,176
Mandya	210	81,645
Maddur Sub-Taluk	143	59,153

2. Though information is required only for Mandya Taluk, which is the only one having a Deputy Amildar's Range, I give details for other taluks also, to show how they stand compared with Mandya. Some of the taluks are still getting accessions, and others are having their villages transferred to other taluks, but I am quite in the dark as to why, and at whose recommendation, this silent process of accretion and loss is going on.

3. In the above statement, I have graded the Taluks according to the number of villages each holds. Nagamangala has lately had two villages added to it; but the beriz of the villages is not shown, as the transfer was ordered only in April last, and there has not been time for the accounts, &c., being sent over from Attikuppa.

4. Seringapatam has gained 17 villages, but lost 17 thousand odd rupees of revenue, the channel lands of Bannur and Bevinahalli having been transferred to Tirumakudlu-Narsipur Taluk.

5. Mandya, which is the Taluk with which we have to deal specially now, had altogether 282 villages with a revenue of Rs. 1,07,189 before the territorial changes. It received two Hobbis, Koppa from Kunigal and Dodarsinakere from Malvalli. The total was 353 villages with a jamabandi (demand) of Rs. 1,35,986. Out of these, with 143 villages with a jamabandi of Rs. 59,135, the Maddur Sub-Taluk was constituted. The remaining 210 villages with Rs. 81,645 of jamabandi being retained for the Mandya Amildar's charge.

6. It will thus be seen that Mandya Taluk, as it stood before the changes, would rank fourth in point of villages among the taluks of this Sub-Division, and fourth also in point of revenue. Even after the accession of the two hobbis, it would be only fourth in point of villages; but third in point of revenue, the difference between it and Channarayapatna being, however, only one thousand rupees of revenue.

7. Whether considered in point of revenue, or of territorial extent, there would appear to be no special reason why Maddur should be constituted a Sub-Taluk. Possibly the fact of the large tank with its important system of channels yielding altogether a revenue of about 13 thousand rupees, also the fact of Maddur being an important station with a temple, chuttar, and a small municipality, and the act of its being situated at the head of the road branching to Sivasamudra and Kollegal, had a good deal to do with the location of a Deputy Amildar there.

8. A young man, just starting on official life, with a reputation to make and eager to distinguish himself and secure the good opinion both of the people and his

superiors, is the fittest person to be made a Deputy Amildar, and it is altogether a mistake to entrust with this duty an old official at the end of his official career, and anxious only to make a provision against old age and retirement. I do not see much harm in the Deputy Amildari system, provided the temptation to provide for disappointed and old men, is strenuously resisted, and it is made, a clear rule that none but aspirants to an Amildari shall be placed in charge of a Sub-taluk. I would also recommend that in no case should the pay of a Deputy Amildar be lower than 70 rupees, and I would abolish the 50 rupees grade altogether.

9. The Deputy Amildari system is working pretty smoothly now, although there was a little friction in the beginning. It is now well understood that there is to be no interference on the part of the Amildar in the concerns of the Sub-Taluk. There is no question that it is a great economy of labor for the District or Sub-Division officer to correspond direct with the Deputy Amildar, and get papers disposed of without delay. The Deputy Amildar, being unencumbered with accounts or treasury, is able to go about the taluk and do an amount of inspection and personal disposal of matters, which may not be quite feasible to the same extent to an Amildar. I have nothing to say to the system itself; but in choosing the men, there ought to be great discrimination used.

10. Malvalli is the Taluk from which an important hobli has been taken away to be added on to Mandya. Malvalli does not lie within my jurisdiction; but I have seen the place, and have had frequent representations made to me to have it reconstituted a taluk. It is a frontier taluk with a portion of an important jaghir within its jurisdiction. If Malvalli is restored to its original position, Arsinkere Hobli may be taken away from Mandya, and this means the reduction of Maddur Sub-Taluk to 102 villages with a jamabandi of Rs. 46,172. In this event Maddur Sub-Taluk may well be abolished, a strong Shekdar on Rs. 25 being placed in charge of the kasaba hobli with its important irrigation system to be attended to. The fact that Maddur is easily reached by rail from Mandya is also in favor of the abolition of the Sub-Taluk.

11. The restoration of Malvalli will be attended with other benefits also, as there is complaint now that irsal has to be taken across the river to Tirumakudlu-Narsipur and people having business with the taluk are put to great inconvenience owing to the river having to be crossed.

12. In connection with this subject, I may also mention that I have made repeated representations regarding the extremely unsatisfactory state in which the Taluk of Seringapatam stands in regard to Bevinhalli Hobli. The intermediate hobli of Bannur has been transferred to Tirumakudlu-Narsipur, but Bevinhalli beyond it is still in Seringapatam Taluk, and, to add to the confusion, 18 villages of this hobli which are nearer to Seringapatam than to Tirumakudlu-Narsipur, have been transferred to Tirumakudlu-Narsipur, and the remaining 9 hoblis which are only 3 miles from Malvalli but 30 from Seringapatam have been retained in Seringapatam Taluk. I would solicit early consideration of this anomaly, and other questions referred to in my letter No. 197, dated 15th November 1884, to the Secretary.

13. The transfer of Koppa to Mandya is a change in the right direction. Koppa is on the Mandya side of the Shimsha, is more easily reached from Mandya than from Kunigal. It was rarely visited by jamabandi officers from Kunigal. But I am not equally sure there was any necessity or any administrative convenience in detaching Dodarsinkere from Malvalli and adding it to Mandya.

Demi official letter from the Sub-Division Officer, French Rocks, dated 5th September 1885.

With reference to your confidential letter, dated 13th August, I beg to submit statements, in detail, of the taluks of this Sub-Division, as they stood before the recent transfers, and also as they are now.

	Villages.	Jamabandi (demand).
Channarayapatna	432	1,34,191
Attikuppa	428	1,35,902
Nagamangala	374	86,468
Seringapatam	228	1,63,176
Mandya	210	81,645
Maddur Sub-Taluk	143	59,153

2. Though information is required only for Mandya Taluk, which is the only one having a Deputy Amildar's Range, I give details for other taluks also, to show how they stand compared with Mandya. Some of the taluks are still getting accessions, and others are having their villages transferred to other taluks, but I am quite in the dark as to why, and at whose recommendation, this silent process of accretion and loss is going on.

3. In the above statement, I have graded the Taluks according to the number of villages each holds. Nagamangala has lately had two villages added to it; but the beriz of the villages is not shown, as the transfer was ordered only in April last, and there has not been time for the accounts, &c., being sent over from Attikuppa.

4. Seringapatam has gained 17 villages, but lost 17 thousand odd rupees of revenue, the channel lands of Bannur and Bevinahalli having been transferred to Tirumakudlu-Narsipur Taluk.

5. Mandya, which is the Taluk with which we have to deal specially now, had altogether 282 villages with a revenue of Rs. 1,07,189 before the territorial changes. It received two Hoblis, Koppa from Kunigal and Dodarsinakere from Malvalli. The total was 353 villages with a jamabandi (demand) of Rs. 1,35,986. Out of these, with 143 villages with a jamabandi of Rs. 59,135, the Maddur Sub-Taluk was constituted. The remaining 210 villages with Rs. 81,645 of jamabandi being retained for the Mandya Amildar's charge.

6. It will thus be seen that Mandya Taluk, as it stood before the changes, would rank fourth in point of villages among the taluks of this Sub-Division, and fourth also in point of revenue. Even after the accession of the two hoblis, it would be only fourth in point of villages; but third in point of revenue, the difference between it and Channarayapatna being, however, only one thousand rupees of revenue.

7. Whether considered in point of revenue, or of territorial extent, there would appear to be no special reason why Maddur should be constituted a Sub-Taluk. Possibly the fact of the large tank with its important system of channels yielding altogether a revenue of about 13 thousand rupees, also the fact of Maddur being an important station with a temple, chuttar, and a small municipality, and the act of its being situated at the head of the road branching to Sivasamudra and Kollegal, had a good deal to do with the location of a Deputy Amildar there.

8. A young man, just starting on official life, with a reputation to make and eager to distinguish himself and secure the good opinion both of the people and his

superiors, is the fittest person to be made a Deputy Amildar, and it is altogether a mistake to entrust with this duty an old official at the end of his official career, and anxious only to make a provision against old age and retirement. I do not see much harm in the Deputy Amildari system, provided the temptation to provide for disappointed and old men, is strenuously resisted, and it is made, a clear rule that none but aspirants to an Amildari shall be placed in charge of a Sub-taluk. I would also recommend that in no case should the pay of a Deputy Amildar be lower than 70 rupees, and I would abolish the 50 rupees grade altogether.

9. The Deputy Amildari system is working pretty smoothly now, although there was a little friction in the beginning. It is now well understood that there is to be no interference on the part of the Amildar in the concerns of the Sub-Taluk. There is no question that it is a great economy of labor for the District or Sub-Division officer to correspond direct with the Deputy Amildar, and get papers disposed of without delay. The Deputy Amildar, being unencumbered with accounts or treasury, is able to go about the taluk and do an amount of inspection and personal disposal of matters, which may not be quite feasible to the same extent to an Amildar. I have nothing to say to the system itself; but in choosing the men, there ought to be great discrimination used.

10. Malvalli is the Taluk from which an important hobli has been taken away to be added on to Mandya. Malvalli does not lie within my jurisdiction; but I have seen the place, and have had frequent representations made to me to have it reconstituted a taluk. It is a frontier taluk with a portion of an important jaghir within its jurisdiction. If Malvalli is restored to its original position, Arsinkere Hobli may be taken away from Mandya, and this means the reduction of Maddur Sub-Taluk to 102 villages with a jamabandi of Rs. 46,172. In this event Maddur Sub-Taluk may well be abolished, a strong Shekdar on Rs. 25 being placed in charge of the kasaba hobli with its important irrigation system to be attended to. The fact that Maddur is easily reached by rail from Mandya is also in favor of the abolition of the Sub-Taluk.

11. The restoration of Malvalli will be attended with other benefits also, as there is complaint now that irsal has to be taken across the river to Tirumakudlu-Narsipur and people having business with the taluk are put to great inconvenience owing to the river having to be crossed.

12. In connection with this subject, I may also mention that I have made repeated representations regarding the extremely unsatisfactory state in which the Taluk of Seringapatam stands in regard to Bevinhalli Hobli. The intermediate hobli of Bannur has been transferred to Tirumakudlu-Narsipur, but Bevinhalli beyond it is still in Seringapatam Taluk, and, to add to the confusion, 18 villages of this hobli which are nearer to Seringapatam than to Tirumakudlu-Narsipur, have been transferred to Tirumakudlu-Narsipur, and the remaining 9 hoblis which are only 3 miles from Malvalli but 30 from Seringapatam have been retained in Seringapatam Taluk. I would solicit early consideration of this anomaly, and other questions referred to in my letter No. 197, dated 15th November 1884, to the Secretary.

13. The transfer of Koppa to Mandya is a change in the right direction. Koppa is on the Mandya side of the Shimsha, is more easily reached from Mandya than from Kunigal. It was rarely visited by jamabandi officers from Kunigal. But I am not equally sure there was any necessity or any administrative convenience in detaching Dodarsinkere from Malvalli and adding it to Mandya.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

From the Assistant Commissioner, French-Rocks Sub-Division, To the Secretary to the Dewan of Mysore. No. 229, dated Camp Channarayapatna, 5th March 1886.

With reference to the Proceedings of the Dewan, No. 4693-4706—17, dated the 22nd November 1885, calling for a report on the changes of taluk boundaries which may be considered absolutely necessary in the reconstitution of certain abolished taluks and Districts, I have the honor to submit the following proposals, most of which, I beg to state, are based upon the suggestions made by the Amildars and upon the recorded opinion of Mr. Madhava Rao as contained in the references noted in the margin.

From the Sub-Division Officer, French-Rocks, to Secretary, No. 474—86, dated 3rd August 1883.
Do do do No. 197, dated 15th November 1884.
Demi-Official report from Mr. V. P Madhava Rao, to the Dewan, dated 5th September 1885.

2. Before submitting my own opinion in each case, I shall state what each Amildar has to say with regard to his taluk, and briefly note the changes made in its boundaries since December 1882, when a general revision was made of the boundaries of the taluks throughout the Province.

3. The Taluk of Channarayapatna, as it stood before the changes made in its boundaries in December 1882, contained 423 villages yielding a revenue of Rs. 1,23,015. During those changes, transfers of villages *from* and *to* the *neighbouring* taluks were made as shown below :—

		No. of villages.	Assessment.		
Taluks from which villages were transferred to Channarayapatna.	Hole-Narsipur	21			
	Attikuppa	2			
	Nagamangala	19			
	Kadaba	8			
	Tiptur	2			
	Arsikere	4			
		56	23,700	0	0

	Arsikere	22			
		47	12,524	0	0
	Net decrease	9	11,176	0	0
Number of villages	Now existing	432	1,55,137	12	6

4. The Amildar in his report No. 1019, dated 22nd January 1886, states that he has no proposals to make for the transfer of villages either from or to his taluk. From Mr. Madhava Rao's letter No. 474—86, dated 13th August 1883 to your address, however, I find that upon the complaint of certain ryots, he strongly recommended the re-transfer to Channarayapatna of the 18 villages that had been transferred from the Taluk to Harnhalli (the present Arsikere Taluk) in the changes made in December 1882. These villages are stated to be nearer to Channarayapatna than to Arsikere, and the paths leading from them to the latter place are said to be through jungly tracts of country. One of the reasons then given for the re-transfer of these villages to Channarayapatna was that the ryots were put to great inconvenience by being placed under the criminal and civil jurisdiction of the Kadur District and of the Shimoga District Judge. But these inconveniences will be considerably lessened by the re-constitution of the Hassan District in which both Channarayapatna and Arsikere will be included; and as the ryots do not appear to have since repeated their complaint regarding the transfer of their villages to Arsikere, it is probable that they have become accustomed to the change. I would not therefore propose any change in the boundaries of Channarayapatna, which, as it stands at present, is the largest taluk in this Sub-Division.

5. The next taluk in point of number of villages is Attikuppa which has undergone the following *changes since December* 1882. Number of villages prior to December 1882, 442 assessed with Rs. 1,38,120.

		No. of villages.	Assessment.		
Taluks from which villages were transferred to Attikuppa.	Narsipur	19			
	Chamarayapatna	25			
	Nagamangala	2			
	Yedatore	3

	Net decrease	14	2,218	0	0
	Number of villages now existing ...	428	1,35,902	0	0

6. The Amildar states that no villages in his taluk require to be transferred to any of the neighbouring taluks; but he proposes that of the 3 firkas of Melkote, Kadalgere and Manikanhalli which were transferred in December 1882 from his taluk to Seringapatam, the first two, namely, Melkote and Kadalgere should be re-transferred to his taluk, as the villages included in them are nearer to Attikuppa than to Seringapatam. The Amildar of Seringapatam does not view the Attikuppa Amildar's proposal with favor. He states that the ryots of the above named firkas have since the changes made in December 1882 never complained of any inconvenience resulting to them from having been placed under the jurisdiction of the Seringapatam Taluk although it is undisputed that all the villages of the Melkote Hobli are much nearer to Attikuppa than to Seringapatam. The Amildar of Seringapatam however suggests that if the Melkote Hobli be re-transferred to Attikuppa, the Bannur Hobli, which was transferred from Seringapatam to Tirumakudlu-Narsipur in December 1882, be restored to Seringapatam and also that certain villages of the Kannambadi Hobli of the Attikuppa Taluk which are said to be nearer to Seringapatam than to Attikuppa be transferred to the former taluk. My own opinion in the matter is that the whole of the Melkote Hobli should be restored to Attikuppa, as it always formed part of that taluk before December 1882, and as it is comparatively nearer to it. One chief reason which I would urge in support of the restoration of Melkote Hobli to Attikuppa is that the affairs of the important temple at Melkote which receives an annual allowance of Rs. 22,000—0—0 from Government would be better looked after from Attikuppa than they could be from Seringapatam which is nearly 30 miles distant from Melkote. The Amildar of Seringapatam has, in my opinion, quite enough to do in the Muzarayi branch of his work in controlling the affairs of the famous temple of Ranganathaswami at Seringapatam. When I last visited Melkote, the inhabitants of that place gave me to understand that the visits of the Seringapatam Amildar to it were not so frequent as could be desired, whereas when the place belonged to Attikuppa, it was frequently visited by the Amildar and much attention given to the management of the affairs of the temple.

7. The proposed re-transfer of the Melkote Hobli to Attikuppa would no doubt increase the bulk of the taluk more than might be considered desirable. At present the taluk has 428 villages and the proposed addition would increase the number to 469 and thus make the taluk very bulky. I would therefore propose to reduce its bulk by giving back to Hole-Narsipur the Madapur Hobli consisting of 18 villages, which in December 1882 were transferred to Attikuppa from Hole-Narsipur. The ryots of those villages no doubt would also like the proposed change, as they would appear to have wished for it in a petition addressed by them to the Dewan on 16th

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General).—dated 29th March 1886.

December 1882, although Mr. Madhava Rao in his report to Government upon that petition thought the restoration of the Hobli to Hole-Narsipur unnecessary. The size of the Hole-Narsipur Taluk would probably be reduced by the re-constitution of the Arkalgud Taluk to which Hole-Narsipur would probably have to contribute some villages. The restoration of the Madapur Fuka to Hole-Narsipur would therefore compensate to some extent the decrease in the number of its villages which it would probably undergo. These proposals, then, would leave to Attikuppa 458 villages with a jamabandi of Rs. 1,60,807—11—2.

*No. 474—86 of 3rd August 1883.

8. The Taluk of Nagamangala stands as shown below in comparison with what it was before *the changes made in December* 1882.

Number of villages prior to December 1882, 375 assessed with Rs. 86,473.

		No. of villages.	Assessment.	
Taluks from which villages were transferred to Nagamangala.	Attikuppa..	20	3,209	0 0
Taluks to which villages were transferred from Nagamangala.	Chamarajapatna	19		
	Attikuppa	2		
		21	3,214	0 0
	Net decrease	1	5	0 0
	Number of villages now remaining in the taluk	374	86,468	0 0

9. The Amildar of Nagamangala states that none of the villages in his taluk require to be transferred to the adjoining taluks, but he suggests that the Mattigere Hobli of the Mandya Taluk consisting of 28 villages and 9 scattered villages of the Seringapatam Taluk including the important village of Melkote, be transferred to his taluk on the ground that those villages are nearer to Nagamangala than to the Head-quarters of the taluks to which they severally belong. Neither the Amildar of Mandya nor that of Seringapatam support the suggestions made by the Nagamangala Amildar and I myself think that those suggestions are not good. The Hobli of Mattigere has always belonged to Mandya and never to Nagamangala; and although no doubt the villages of that hobli are somewhat nearer to Nagamangala than to Mandya, yet the objection raised by the Amildar of Mandya, that if the hobli in question be transferred to Nagamangala, the ryots would be placed under great difficulty in having to go to Hassan on all occasions on which they might have business at the District Head-quarters, has considerable force in it, and far outweighs any advantages which might be thought to accrue from the villages being joined to Nagamangala. The same remarks also apply to the 8 villages which the Nagamangala Amildar proposes to be transferred to his taluk from Seringapatam.

1. Jakkanahalli.
2. Kadalgere.
3. Tadaghatta.
4. Garudapura.
5. Melkote.
6. Hosahalli.
7. Kanganahalli.
8. Talekere.

10. The changes made in the villages of Seringapatam Taluk since December 1882 are as follows:—

		No. of villages.	Assessment.

	Net increase	17	17,233	0 0
	Number of villages in the taluk at			

11. The Amildar of Seringapatam has no proposals to make except that 9 of villages[1] of the Bevinhalli Hobli, 18 villages of which were transferred from Seringapatam to Tirumakudlu-Narsipur in December 1882, be transferred to the same taluk, as they are very far from Seringapatam and have to be reached through the intermediate Hobli of Bannur which now belongs to Tirumakudlu Narsipur. The inconveniences resulting from the nine villages in question being still retained in the Seringapatam Taluk were brought to the notice of the Government by Mr. Madhava Rao in the correspondence noted in the margin, and I would therefore recommend that the villages above referred to be altogether severed from Seringapatam and transferred to the neighbouring taluks, [2]three of them being joined to Malvalli and [3]six to Tirumakudlu-Narsipur as proposed by Mr. Madhava Rao in his demi-official report to the Dewan, dated 5th September 1885.

1. *Kanchanahalli.
2. Ganiganakoppal
3. Hanumanalu.
4. Bendravadi.
5. Desavalli
6. Avverahalli
7. Kantanahalli
8. Kalkuni.
9. Maragaudanahalli

From Sub-Division Officer, French-Rocks, to Secretary. No. 474—86, dated 3rd August 1883.
Do do do No. 197, dated 15th November 1884.
Demi-Official report from Mr. V. P. Madhava Rao, to the Dewan, dated 5th September 1885.

1 *Benderavadi.	1 †Kanchanahalli
2 Desavalli.	2 Ganiganakoppal.
3 Avverahalli.	3 Hanumanalu
	4 Kantanahalli.
	5 Kalkuni.
	6 Maragaudanahalli

12. The proposal of the Seringapatam Amildar, that the Bannur Hobli should be given back to him together with certain villages in the Kannambadi Hobli of the Attikuppa Taluk, is made to depend upon the approval or otherwise of the proposal to re-transfer the Melkote Hobli to Attikuppa from Seringapatam. I would strongly recommend that the Bannur Hobli which before its transfer to Tirumakudlu-Narsipur always belonged to Seringapatam, be restored to the latter taluk if Government should accept my proposal to restore Melkote to Attikuppa. Bannur and 4 more villages constituting that Hobli are, I beg to submit, equi-distant from Seringapatam and Tirumakudlu-Narsipur.

13. The proposal of Seringapatam Amildar that certain villages forming Kannambadi Hobli of the Attikuppa Taluk should also be transferred to Seringapatam in the event of the Melkote Hobli being taken away from it, does not commend itself to me, for I am averse to dividing the villages of a hobli between two or more taluks unless there is absolute necessity for so doing. No such necessity has however been pointed out by the Seringapatam Amildar as regards the proposal above referred to.

14. The Taluk of Mandya including the Sub-Taluk of Maddur stands as shown below in comparison with what it was prior to December 1883 :—

		No. of villages.	Assessment.		
Taluks from which villages were transferred to Mandya.	No. of villages prior to 1882 ...	282	1,07,189	0	0
	Kunigal Taluk	30			
	Malvalli do	41			
		71	28,797	0	0
	Total.....	353	1,39 86	0	0
	Of this, Mandya contains ...	210	81,645	0	0
	Do Maddur ...	143	59,135	0	0

15. The Amildar of Mandya has no changes to propose in the boundaries of his taluk, except the transfer of two villages, namely, Hoskote and Halebid to the Seringapatam Taluk. This transfer was recommended to Government by Mr. Madhava Rao as being necessary in letter No. 474—86, dated 3rd August 1883 and I would accordingly suggest that the two villages above named be transferred from

e Mattigere Hobli of the Mandya Taluk to the Tirumalasagar Chuttar Hobli of the ringapatam Taluk.

16. It may not be out of place here to state that in the opinion of Mr. Madhava o, the Koppa Hobli, which was transferred from Kunigal to Mandya in December 1882, forms a more appropriate part of Mandya than of the Kunigal Taluk d therefore should remain as it is, being on the Mandya side of the Shimsha ver.

17. The Deputy Amildar of Maddur suggests that the Dod Arasinkere Hobli, hich was received by transfer in December 1882 from the late Malvalli aluk, be abolished and that its villages be distributed as follows:—25 villages be given back to Malvalli, 4 to be joined to Mandya and the remainder retained r the Maddur Sub-Taluk. I am unable to support this suggestion, as the proposed rangement does not appear to me to be satisfactory. I would give back the entire e Hobli of Dod Arasinkere to Malvalli as suggested by Mr. Madhava Rao in his demificial report to the Dewan, dated 5th September 1885. This proposal would leave 03 villages for the Maddur Sub-Taluk with a jamabandi of Rs. 46,172—1—11. Whether Maddur, after it is reduced as above proposed, should be retained as a Subaluk or not, is however a question which has to be decided by Government, although I may say that I agree with Mr. Madhava Rao in thinking that the Subaluk may be safely abolished, as Maddur is within easy reach of Mandya by rail, nd the area and revenue of Mandya including that of Maddur is not comparatively rge.

18. The proposals I have above suggested are briefly as follows —

1st. That the Melkote Hobli of the Seringapatam Taluk should be given back to the Attikuppa Taluk.

2nd. That the Madapur Hobli of the Attikuppa Taluk should be given back to the Hole-Narsipur Taluk.

3rd. That of the nine villages of the Bevinahalli Hobli still remaining as part of the Seringapatam Taluk, *three be transferred to Malvalli and †six to Tirumakudlu-Narsipur as specified in the margin.

*1. Bendaravadi.	3. Avvarehalli.
2. Desavalli.	
†1. Kanchanahalli	4. Kantanahalli.
2. Gangankoppal.	5. Kalkuni.
3. Hanumanalu.	6 Maregaudanahalli.

4th. That the Bannur Hobli be re-transferred to the Seringapatam Taluk from Tirumakudlu-Narsipur.

5th. That the villages of Hosahalli and Halebid in the Mattigere Hobli of the Mandya Taluk be transferred to Tirumalasagar Chuttar Hobli of the Seringapatam Taluk.

6th. That the Dod Arasinkere Hobli of the Maddur Sub-Taluk be given back to Malvalli.

19. I beg to annex a statement showing the number of villages and the jamabandi amount of each taluk as they stood before December 1882 and as they stand at present, and also as they would stand under the proposals now made by me.

20. I beg also to append a statement showing in detail the number and names of villages which I have proposed to be transferred from one taluk to another.

21. I beg to submit herewith a tracing from the Topographical Survey map to explain the change involved in the first of the proposals made by me. I have as regards the other proposals got a tracing made from the Ordnance map, as neither Topographical nor Revenue Survey maps have been issued to my office. The Ordnance map, I beg to state, does not contain all the villages in a taluk, but only those which are large and of some importance. Even in the Topographical Survey map, some villages appear to have been left out altogether. In both the maps, however, the villages forming the Head-quarters of hoblis have been shown and as the villages in each hobli are close to it more or less, I trust that the situation of the chief village of a hobli will afford a satisfactory test for judging the relative distance of a hobli from its neighbouring taluks.

Taluk.	Number of Villages as they stood before the changes made as per Mysore Gazettes of December 1882.	Jamabandi Amount.	Number of villages since received by transfer from other Taluks.						Number of villages since transferred to other Taluks.						Number of villages now remaining.	Present Jamabandi of Taluk for 1884—85. Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th March 1886.

From the Deputy Commissioner, Shimoga District, To the Secretary to the Dewan of Mysore, Revenue Department, No. 998—774, dated Camp Benvalli, 9th January 1886.

In reply to the Dewan's Proceedings No. 4693-4706—167 of the 22nd November 1885, I have the honor to report that the re-constitution of Taluks and Districts does not practically affect this District.

Davangere, as now constituted, goes to Chitaldroog District. None of the villages from the taluks of the former Shimoga District have been transferred to Davangere and none received from that Taluk.

As regards re-transfer of villages from that taluk to the adjoining taluks of the late Chitaldroog District, this is a question for the Chitaldroog authorities to consider.

Note from Robert H. Elliot, dated Manjarabad, 16th March 1886.

I have the honor to enclose a copy of the petition which was signed by the Natives and Europeans who were present at the Meeting held at Saklespur on the 25th of last month. Similar petitions are being signed and will be forwarded shortly. Permit me to add that there is a wide spread feeling amongst all who have anything to lose but for these jungly districts, we need an active European and one capable of much physical exertion. And permit me also to say that I have heard an opinion personally expressed that the old native system, by which the Patel of each village was held responsible for order within its bounds, should be re-established. At present, the Police are supposed to be responsible but whatever may be the case elsewhere, I am certain that in these jungly districts no people but those of bad character have any confidence in obtaining assistance from the Police. The daring nature of the murder committed here was only to be equalled by the daring of the police in aiding to escape of the murderers, and delaying the discovery of the body. A police peon admits that he saw the murdered man passing the police station in company with one of the murderers and only about ten minutes before the murder took place and says he reported the matter to the Dafadar, who it appears kept the information private, or used it for his own purposes. Then when a search was being made for the body, one of my people was about to search in a certain spot, when the Dafadar called him back saying, "there is no use in looking there", and yet *in that very spot*, the body was afterwards found. The authorities, I may add, put out a European Police Inspector to investigate matter but, as he could not speak Canarese, he could only of course make inquiries through others. Finally no reward was offered at the time for the detection of the crime, nor does it seem that any would have been offered, had I not urged the matter on the Government and offered to pay half of the reward. Shortly after the murder in question, another of similar character was committed some miles from this and there is every reason, judging by the history of crime generally, to suppose that offences of a similar nature will become of frequent occurrence unless some vigorous steps are taken for the repression of crime.

Proceedings of Meeting held at Saklespur on the 25th February 1886.

We, the undersigned Europeans and Natives, respectfully pray that the Government would be pleased when re-constructing the Hassan District to order, that, in addition to the appointment of a European Deputy Commissioner to Hassan, an Assistant Commissioner may be permanently located in Saklespur, as in consequence of the valuable crops of coffee and cardamoms, and of the constant transit of money in connection with them, the temptations to theft and high-way robbery are very great. The urgent need of some active steps being taken for the more effective repression of crime is evidenced by the fact that the messenger of Mr. Elliot was recently murdered and robbed in the most daring manner, in broad day-light, on a much used plantation cart road, and close to the public road, and to a Police Station, and within 200 yards of a village.

Such a crime as this will surely be followed by offences of similar character, unless more effective means for the protection of life and property are immediately provided. Trusting that the prayer of your petitioners may be granted, we respectfully beg to annex our signatures.

Reports by the Revision Committee, dated 24th March 1886.

Devanhalli Taluk.—The Committee approves of the proposals made by the Deputy Commissioner of the Bangalore District in regard to the re-constitution of the Devanhalli Taluk.

Mysore District.—The re-constitution of Malvalli is approved: it originally consisted of 27 villages and when it was abolished in 1882—83, 135 villages were retained in the Sub-Taluk and the remaining 140 villages were thus distributed:—

1.	Dod Arsikere	25 villages to Mandya.
2.	Kodamballi with its present designation of Halgur	53 villages to Closepet.
3.	Kabbal now Satnur	42 to Kankanhalli.
4.	Kulgere Hobli	16 to Mandya.
5	Gandagere	3 to Kankanhalli.
6.	Malvalli	1 to Kankanhalli.
	Total..	140

2. The Dodda Arsinkere Hobli of 25 villages it is proposed to take back to Malvalli on the ground that these villages are closer to Malvalli than to Mandya, which of course is a fact: the Deputy Commissioner however forgets that these villages are not connected with Mandya but with the Maddur Sub-Taluk, Head-quarters being Maddur, and the distance of the villages from this station is certainly less than the distance from Malvalli. The Committee therefore resolves to avoid unnecessary changes, upon leaving Dodda Arsinkere in the Maddur Sub-Division.

3. The disposal of the villages of the Kodamballi Hobli is approved as recommended by the Deputy Commissioner. Of the 53 villages, eleven will remain in the Closepet Taluk, they being nearer Channapatna, to which Sub-Division they now belong, than to Malvalli; the remaining 42 villages will revert to Malvalli.

*1. Kodamballi.
2. Raichapura.
3. Hunsanahalli.
4. Nagapur.
5. Jagadepur.
6. Honnigenahalli.
7. Ambadahalli.
8. Narlur.
9. Ballapatna.
10. Madapur.
11. Kondapur.

4. The entire Kabbal or Satnur Hobli will continue to be in the Kankanhalli Taluk to which it was transferred in 1882—83. This arrangement is quite convenient to the ryots who are very close to Kankanhalli Kasaba town.

5. Kulgere Hobli consisted of 35 villages of which 19 were retained for the Sub-Taluk and 16 were transferred to the Mandya Taluk. The Deputy Commissioner recommends this entire hobli being kept in the new taluk and the Committee has no objection to urge against the proposal.

6. Gaudagere Hobli and Malvalli Hobli will also get back their four villages transferred to Kankanhalli.

7. The taluk will then stand as set forth in the annexed draft notification.

8. The taluk establishment will cost Rs. 415; the present Deputy Amildar's being Rs. 120, Police charge (increase) will be Rs. 148 per mensem including the Treasury guard.

9. The civil jurisdiction over the taluks will continue as at present.

---

1. *Arkalgud Taluk, Hassan District.*—The late Arkalgud Taluk consisted of ten hoblis with 445 villages on the whole.

1.	Arkalgud	48	6.	Basavapatna	28
2.	Mallipatna	70	7.	Konanur	33
3.	Ponnathpur	70	8.	Kesvattur	36
4.	Gorur	42	9.	Krishnarajkatte	34
5.	Marur	57	10.	Hanasoge	27
					445

2. In the year 1882—83 when the taluk was abolished, the whole of the Ponnathpur Hobli (70) villages, was transferred to the Hassan Taluk, and of the villages (42) of the Gorur Hobli, 18. were given to Hassan, 16 to Hole-Narsipur and 8 to the Arkalgud Sub-Taluk.

3. The Sub-Division officer of Hassan is in favor of giving back the 88 villages to the Arkalgud Taluk, while the Mysore Deputy Commissioner is in favor of keeping them in Hassan. This would undoubtedly disturb the existing arrangement the least, a very strong point for consideration. The Committee therefore will leave Ponnathpur and 18 villages of Gorur in the Hassan Taluk where they are now. The 16 villages added to Hole-Narsipur will also remain attached to Hole-Narsipur; the eight villages now

1. Banavasi.
2. Hosahalli.
3. Mukandur.
4. Nayakanahalli
5. Karle.
6. Avverhalli.
7. Tagatur.
8. Ramaghatta.

in the Sub-Taluk are surrounded by the villages of the Hole-Narsipur Taluk are in the northern side of the Hemavati river, it would as suggested by the Deputy Commissioner be more convenient to give them up to Hole-Narsipur. This arrangement, if approved by the Government, would give the river Hemavati as the northern boundary from one end to the other of the future Arkalgud Taluk, depriving it of the two entire hoblis of Ponnathpur and Gorur.

4. The present Sub-Taluk is as follows :—

Kasaba Arkalgud	..	72
Mallipatna	..	70
Nilvagal	..	62

Kasaba Arkalgud will lose the eight villages transferred to it in 1882—83 from the Gorur Hobli and form the future Kasaba Hobli with 64 villages. Mallipatna will remain, as it is, a hobli with 70 villages, and so will Nilvagal.

Banavasi and 7 others (*vide* para 3.)

5. This is a new hobli constituted in 1882—83; it contains the following villages :—

6 of the Basavapatna Hobli
23 of the Konanur Hobli.
34 of the Kesvattur Hobli.

63*

* One of these villages has been amalgamated with another, making the number 62 at the settlement.

The other villages of this hobli, 22 Basavapatna, 10 Konanur, 2 Kesvattur were in 1882—83 transferred to the Yedatore Taluk and are situated on the southern banks of the river Cauvery; these, it is proposed to retain in Yedatore which would make the river a convenient boundary in the south. For similar southern situation to the river Cauvery, the entire Hoblis of Krishnarajakatte and Hanasoge will continue in the Yedatore Taluk.

6. The villages of Marur Hobli (57) were distributed as follows :—

40 to Hole-Narsipur.
17 to Sub-Taluk Kasaba Hobli.

The entire tract will now form, as it did before, the eastern part of the future Arkalgud Taluk. The 17 villages being still retained in the Kasaba Hobli and the 40 in the Marur Hobli, the name being changed to Gubbi.

7. The new taluk then would stand thus :—

North, the river Hemavati.
South, the river Cauvery.
West, Coorg.
East, the old Hole-Narsipur Taluk.

and will consist of 269 villages; it will form part of the future Hassan District as it did before. The Munsiff would be as now that of Hole-Narsipur, the appellate Courts would be in Mysore as now.

8. The taluk establishment would be as provided for Malur, a draft notification is appended.

Hassan District.—In re-constituting this District, the point for consideration is whether it should take all the taluks back which formerly belonged to it; these were :—

1. Manjarabad.
2. Belur.
3. Hassan.
4. Arsikere.
5. Channarayapatna.
6. Nagamangala.
7. Attikuppa.
8. Narsipur.
9. Arkalgud.

2. No inconvenience was urged against this state of things.

3. The Taluks of Channarayapatna, Nagamangala and Attikuppa now belong to the French Rocks Sub-Division. and if they are given back, the French Rocks Officer will have the Taluks of Seringapatam, Mandaya and the re-constituted Taluk of Malvalli. The charge will be too small for him and the Head-quarters at French Rocks would be unmeaning. It ought to shift to Mandya under those circumstances.

4. Narsipur is now in Mysore and may well go back to Hassan which is nearer to it than Mysore.

5. The Committee considers that Attikuppa and Nagamangala should remain in the French Rocks Sub-Division. Attikuppa undoubtedly is too far away from Hassan and quite near the French Rocks, and so is Nagamangala though not quite so near as Attikuppa.

6. The District would then have :—

1. Manjarabad.
2. Belur.
3. Arsikere.
4. Channarayapatna.
5. Narsipur.
6. Arkalgud.
7. Hassan.

The District Establishment would be as provided for the Chitaldroog.

---

1. *The Tumkur District.*—The revision of Taluk and District boundaries effectt ed in 1882—83 transferred the Kunigal Taluk less the Koppa Hobli, to the District of Bangalore, that hobli being added on to the Mandya Taluk. The Deputy Commissioners of both the Bangalore and the Tumkur Districts concur in the opinion that Kunigal should revert to its original District and the Committee has decided accordingly, the Koppa Hobli however continuing to form a portion of the Maddur Sub-Division in the Mandya Taluk of the Mysore District.

2. Mr. Krishna Murti recommends the abolition of the Huliyar Sub-Division and the transfer of the villages to the Sub-Division of Hosdurga in part and to the main Taluk of Chiknayakanhalli. It is considered that the work of the Amildar at Chiknayakanhalli is light and that Huliyar is an unhealthy station; these considerations however are not sufficiently strong in the opinion of the Committee to do away with the Sub-Taluk. The old Budihal Taluk was abolished and the Sub-Division was formed: the tract of country is on the north-west of the present Chiknayakanhalli Taluk, rather wild and troublesome on the Kudurekanive Ghat side; an officer of a Deputy Amildar's standing at least is necessary in these remote parts. The suggested abolition would be very unpopular and the Committee cannot therefore support the proposal.

3. The Koratagere Taluk was split up in 1882—83 and villages in the north-west (No. 33) in the Tavarekere Hobli were transferred to the Sira Taluk; four villages in the north-east of Holavanhalli Hobli and 20 in the south-east of Taridalu Hobli to the Goribidnur Taluk; the remaining 35 villages of Taridal Hobli and 31 villages of Kalela Hobli to the Dodballapur Taluk· 13 villages of Kalela Hobli to the Nelamangala Taluk; and 86 villages in the south and south-west corner to the Tumkur Taluk, the remaining 241 villages forming the Koratagere Sub-Taluk under the main Taluk of Maddagiri.

4. The Deputy Commissioner recommends strongly the re-constitution of this Taluk and the Committee is of opinion that the recommendation is worth considering. The Sub-Taluk is fairly extensive to justify the location of an Amildar at Kortagere and the inhabitants have not reconciled themselves to the abolition: the complaint is bitter, and if the Government is favorably disposed, the Committee will recommend the proposal.

5. Mr. Krishna Murti desires to extend the taluk considerably beyond its original limits after taking back from Dodballapur and Goribidnur the villages add-

ed to them in 1882—83. The extension is chiefly towards the south in the Tumkur Taluk, from which it is proposed to take 129 villages, making up this loss of Tumkur by transfers from Nelamangala. These alterations would make the future Koratagere Taluk consist of 475 villages. The Committee is not prepared to recommend so many changes which would considerably disturb the existing arrangements. If the Government decide upon locating an Amildar at Koratagere, it may be done without these transfers. The villages added on to the Taluks of Sira, Goribidnur, Dodballapur, Nelamangala and Tumkur in 1882—83 may remain in their respective taluks, and the Sub-Division now under the Deputy Amildar's charge may be an Amildar's charge. It is not likely that the Tumkur men would care to go to Koratagere in preference to Tumkur and the Nelamangala men to Tumkur in preference to Nelamangala.

6. Pavagada will continue in Tumkur.

7. The future District of Tumkur would stand thus :—

1. Pavagada
2. Maddagiri.
3. Koratagere.
4. Sira.
5. Chiknayakanhalli.
6. Gubbi.
7. Tumkur.
8. Tiptur.
9. Kunigal.

8. The Amildar's Establishment at Koratagere would be as in the case of the minor Taluk of Kankuppa and Molkalmuru costing Rs. 415, the present Deputy Amildar's being 120 including the pay in both cases of the Amildar (Rs. 100+20) and Deputy Amildar (Rs. 50+15=65). The extra police cost will be Rs. 148 per mensem including the treasury guard, &c.

9. A draft Gazette notification is enclosed.

Chitaldroog District.—In the Proceedings of the Dewan, dated 22nd November 1885, No. 4693—4706, the following re-constitution of Taluks has been sanctioned :—

1. Malur.
2. Devanhalli.
3. Malvalli.
4. Arkalgud.
5. Kankuppa.

The Deputy Commissioner of Tumkur and the Assistant Commissioner in charge of the Chitaldroog Sub-Division recommend strongly the formation of the Molkalmuru and the Koratagere Taluks.

2. As regards Molkalmuru abolished in 1875, the Committee supports the recommendation for its reconstitution. The tract of country is in the extreme north-eastern corner of the Mysore Plateau, being a long strip jutting into Bellary and bounded by it on the east, west and north, forming the haunt of daring criminal classes whose inroads have frequently given trouble to Mysore, the situation of the taluks not being favorable to careful administration. An officer with the prestige and position of an Amildar is, in the opinion of the Committee, essential here, the grounds for reconstituting Kankuppa being applicable to the case of Molakalmuru as well. It originally consisted of 92 Government villages and 6 alienated villages, comprising an area of between 280 and 290 square miles, traversed by a well frequented high road leading to the large market of Bellary which is a Railway Station. The smallness of the tract, otherwise a strong argument against its reconstitution, is under its peculiar situation of little weight. Its original revenue was between Rs. 45,000 and 47,000 similar to Kankuppa in this respect, which however had more villages (167) and more extensive area (367) square miles.

3. The Sub-Division officer proposes to add to Molkalmuru Gaurisamudra and 24 villages of the Dodderi Taluk with the sole object of increasing the Molakalmuru

area: these villages are in the north and north-east and north-west corner of the Doderi Taluk rather at a distance from Molakalmuru; their transfer is not approved; it would necessitate new Survey maps for Doderi and Molakalmuru and the people of these villages, accustomed as they are to Doderi (Chellakere) from many years, might very fairly object to the transfer by which nothing is gained. It is therefore resolved to re-commend the re-constitution of Molakalmuru on its old basis, the small revenue work of the Amildar giving him more time to stricter police administration in this remote corner.

4. Kankuppa as was said before, consisted of 167 villages with Rs. 47,000 as revenue, comprising an area of between 367 and 370 square miles. In 1882, Belchod and 10 villages of that Magani situated in the south-west corner of the taluk were transferred to Davangere, and Hiremallanahole and 23 villages in the south-east and south to Chitaldroog; these transfers were effected for the purpose of reducing the Kankuppa Taluk to the smaller limits of a Deputy Amildar's charge. Now that the taluk is to be restored; the Committee proposes to take back these villages and form the taluk as it was. The Sub-Division officer is in favor of extending the original southern limits by adding 38 villages of the Chitaldroog Taluk, of the Bharamsagar and Toranur Maganis. This is not called for and it interferes with the existing boundaries a great deal, involving changes in the Survey maps: for, to make up the loss of the Chitaldroog Taluk, he proposes transfers to it of villages of the Holalkere Taluk, recommending the abolition of the Hosdurga Sub-Division. He also proposes additions to Hiriyur Taluk from the Huliyar Sub-Division, recommending its abolition as well. These violent changes, the Committee is not prepared to support as they are not "absolutely required," which under the Government proceedings should be the guiding principle in the work of re-constitution.

5. The Davangere Taluk will revert to Chitaldroog; it will resume its original shape as mapped out in the Survey settlement of that taluk; it will accordingly give back to Kankuppa, Belchod and 10 villages and from Chitaldroog take the Bharmasagar Hobli separated from it in 1881-82.

6. These proposals, the Committee feels confident, would least disturb the existing maps without impairing the efficiency of the new re-constitution; the old Survey maps of Davangere, Kankuppa, Molkalmuru and Chitaldroog would again have force, the work of re-mapping these under the revision of 1882-83 being at once stopped.

7. Lists of villages of Kankuppa, Molkalmuru, Doderi, Davangere and Chitaldroog are appended for publication in the Gazette, if the Government approves of the Committee's decision.

8. A list is also added showing the proposed establishment for the two Taluks of Kankuppa and Molkalmuru, compared with the existing Deputy Amildar's establishments in Jagalur and Hanagal; the difference is Rs. 866 per mensem. This list shows also the District office and Assistant Commissioner's office establishments as they were in 1882-83 and as proposed now, including the Police Head-quarter establishment.

9. The question whether Pavagada should remain in Tumkur as now or be included in the new Chitaldroog District is not discussed by either the Deputy Commissioner or the Sub-Division officer. Mr. Krishnamurti leaves it for the decision of the Government; the Committee recommends its being kept on to Tumkur on the ground of convenience to judicial administration. Pavagada is now under the Muddagiri Munsif and its transfer to Chitaldroog would materially decrease his file, proportionately increasing the file of the Chitaldroog Munsiff who has now sufficient work.

10. The civil jurisdiction of the Davangere Taluk will continue under the Honnali Munsiff which would be no inconvenience as the appellate court over that Munsiff's work as well as of the Chitaldroog Munsiff will be the Nagar District Court. The criminal cases of Davangere however will go to the Chitaldroog District, which will be included in the Sessions Division of the Nagar Judge, who will hold periodical sittings at Chitaldroog for disposal of cases committed to the Sessions.

11. For the Public Works of the District, there will be an Executive Engineer.

12. The new Chitaldroog District then will comprise the following taluks:—

1. Davangere, in the Revenue, Police, Criminal and Public Works Departments.
2. Kankuppa.
3. Molkalmuru.
4. Doderi. (Chellakere)
5. Hiriyur.
6. Holalkere.
7. Chitaldroog.

13. The formation of the Koratagere Taluk, will be discussed in connection with the Tumkur District.

14. A notification is enclosed announcing the changes.

[*Note.*—Col. Grant was unable to attend the Meeting of the Committee.]

No. 136-45—7, DATED 29TH MARCH 1886.

ORDER.—His Highness the Maharaja's Government have given very careful consideration to the recommendations made in the papers read above, and they resolve to re-constitute the Districts of Hassan and Chitaldroog. They adopt the Revision Committee's suggestion to exclude from the new District of Hassan the Taluks of Attikuppa and Nagamangala and to retain in it the Taluks of Manjarabad and Belur.

2. To leave Manjarabad and Belur in the Kadur District would have the advantage of placing the entire coffee tract under one European District Officer. But such an arrangement would be extremely unpopular both with the native inhabitants of the taluks in question and with the European coffee planters of Manjarabad. To transfer the civil and session jurisdiction over these taluks to the District and Sessions Judge at Mysore while retaining the revenue and magisterial jurisdiction in the District Officer at Chikmagalur would be but a partial remedy. Under such circumstances, it is resolved to give Manjarabad and Belur to the new District of Hassan. It is to be regretted that this arrangement leaves only 5 taluks in the Kadur District, which is now officered by a European Deputy Commissioner of Mr. Meiklejohn's ability, experience and status. This however is an inconvenience which is comparatively of no great consequence.

3. There is at present a European Deputy Commissioner at Chikmagalur and another at Bangalore, and it is not therefore possible to appoint a third European Deputy Commissioner for the charge of the Hassan District. As Justice of the Peace Mr. Meiklejohn will of course continue to exercise jurisdiction over the European inhabitants of Hassan.

4. Attikuppa and Nagamangala Taluks are by their position more easily controlled from French Rocks than from Hassan, and they will therefore remain attached to the French Rocks Sub-Division of the Mysore District.

5. The Officer in charge of the Sub-Division at French Rocks will be under the orders of the Deputy Commissioner of Mysore, and not, as heretofore, practically independent of him. He will continue to exercise the jurisdiction now vested in him

l all revenue, magisterial and police matters, but he will carry on no direct correspondence with the Government.

6. The Chitaldroog District will be in accordance with the boundaries of that District previous to its abolition in 1882, with the exception of the Taluk of Budihal bolished in 1882 and of the Pavagada Taluk which is more conveniently administered by the Deputy Commissioner of Tumkur.

7. The Revision Committee re-commend the reconstitution of the following Taluks :—

1. Arkalgud (new Hassan District).
2. Malvalli, Mysore District.
3. Malur, Kolar District.
4. Devanhalli, Bangalore District.
5. Molakalmuru
6. Jagalur (old Kankuppa) } new Chitaldroog District.
7. Koratagere, Tumkur District.

8. These recommendations are accepted generally except as regards the Koratagere Taluk. To reconstitute this Taluk as recommended by the Deputy Commissioner with additions from Tumkur, Gorribidnur and Dodballapur Taluks, would, s observed by the Revision Committee, be highly inconvenient by reason of the nuerous changes involved. To make the present Sub-Taluk a separate Taluk by tself as suggested by the Revision Committee would make the new Taluk too small a charge for the Amildar of a non-frontier Taluk within easy reach of the District Head-quarters.

9. In constituting Arkalgud, the Government adopt the Revision Committee's uggestion to make the Hemavati river the northern boundary. The Committee proose the river Cauvery as the southern boundary. If this proposal is accepted, the Yedatore Taluk becoms inconveniently long and narrow. It is better to add to Arkalgud the Krishnarajkatte Hobli south of the Cauvery, and this arrangement will be highly convenient to the inhabitants of this hobli, whose transactions are with Coorg and Arkalgud and not with Yedatore. Some changes are also necesary in the eastern boundary of the new Arkalgud Taluk in order to give a fairly traight boundary on that side in lieu of the very irregular one, which would result from ccepting the Deputy Commissioner's proposal. A few villages north of the river Iemavati would, if the same proposal be accepted, be inconveniently left in the northast corner of the Holé-Narsipur Taluk. These villages will accordingly be transferred to the Hassan Taluk, which by this addition will not become too large for an Amildar and a Deputy Amildar.

10. The Deputy Superintendent, Revenue Survey, now engaged in the settlement of the Attikuppa Taluk, and the Deputy Commissioner of Hassan will be requested o report upon the advisability of transferring the undermentioned villages from the Attikuppa to the Holé-Narsipur Taluk :—

1 Chikkamandgere.
2 Devanhalli Amanikere.
3 Sravanahalli.
4 Beranahalli.
5 Doddamandgere.
6 Gaddehosur.
7 Anavasapur.
8 Hangrahosur.
9 Gundapatna.
10 Honnenhalli.
11 Madihalli.
12 Mallenhalli.
13 Chandlapura.
14 Madanhalli.
15 Alenhalli.
16 Kyatanhalli.
17 Manchebudu.
18 Chavadasandra.
19 Bukanhalli.
20 Hangramuddenhalli.

The proposal to be submitted should, if possible, keep in Attikuppa any channel ands which are conveniently looked after from Attikuppa.

11. The Deputy Commissioner of Hassan should also report upon the advisaility of transferring the following villages from Hassan to Holé-Narsipur Taluk :—

1 Kallenhallli.
2 Chikmallenhalli.
3 Kurubarhalli.
4 Doddamallenhalli.
5 Halenhalli.
6 Hanchihalli.
7 Hanchihalli Korekaval.
8 Manekaval.
9 Marenhalli.
10 Muttige.
11 Dumgere.
12 Malalikaval.
13 Naganahalli.
14 Kallugudduganahalli.
15 Bhantarahalli.
16 Irihalli.
17 Danaikanahalli.
18 Hasuvinbettakaval.

12. The reconstitution of the Malvalli Taluk has given considerable difficulty. The Deputy Commissioner's report submitted after an inexcusable delay of over 3 months is extremely meagre. With such a report it has become necessary, in reconstituting Malvalli, to accept—

1st. The Bangalore Deputy Commissioner's proposal to give back to Malvalli the present Halagur Hobli from Kankanhalli, and to leave untouched the villages added in 1882 to Closepet, and

2ndly. The French Rocks Sub-Division Officer's recommendation to give back to Malvalli what Mandya received in 1882 and to abolish the Sub-Taluk of Maddur.

13. The Taluk of Malvalli will be reconstituted on the above lines, with a few minor transfers of villages from Seringapatam to Malvalli and Tirumakudlu-Narsipur and from Mandya to Seringapatam, as recommended by the Sub-Division Officer. The taluk thus constituted will be included in the French Rocks Sub-Division.

14. The Taluk of Malur in the Kolar District will be reconstituted by adding to the present Sub-Taluk the Narsapur Hobli of the Kolar Taluk and a few villages in south-east corner of the Hoskote Taluk, as recommended by the Deputy Commissioner of Kolar and by the Revision Committee.

15. The Devanhalli Taluk will be reconstituted in accordance with the proposal of the Deputy Commissioner of Bangalore, slightly modified as regards the northern boundary in accordance with the Kolar Deputy Commissioner's suggestions.

16. The Taluks of Molakalmuru and Jagalur (old Kankuppa) will be in accordance with the old boundaries of those taluks. The Revision Committee are of opinion that the Chitaldroog Sub-Division Officer's recommendation for adding more to these taluks would lead to inconvenience, and in this opinion the Dewan fully concurs.

17. It is more convenient to leave the Barmasagar Hobli in the Chitaldroog Taluk than to retransfer it to Davangere, as recommended by the Sub-Division Officer Chitaldroog, and the Revision Committee.

18. As recommended by the Revision Committee, the Taluk of Davangere will be retransferred from the Shimoga to the Chitaldroog District and the Taluk of Kunigal from the Bangalore to the Tumkur District.

19. The Deputy Commissioner of Tumkur recommends the retransfer of the Head-quarters of the Holalkere Taluk to Hosdurga on the ground that the people strongly desire such a change. The "people" referred to are doubtless the inhabitants of Hosdurga and its immediate neighbourhood; for it is quite clear that the great majority of the inhabitants of the Taluk would find Holalkere more convenient than Hosdurga. Under such circumstances, the Head-quarters of the Holalkere Taluk will remain at Holalkere.

20. The proposal made by the Deputy Commissioner, Tumkur, and Sub-Division Officer, Chitaldroog, in regard to the adjustment of Shanbhogs' circles, is a matter not immediately connected with the reconstitution of Districts and Taluks. It will be dealt with on receipt of additional information which has been called for.

21. The needful notifications to bring into effect the foregoing changes from 1st April 1886 will at once be issued, and the changes in the jurisdiction of Munsiffs and District and Session Judges will be duly notified in communication with the Chief Court.

22. The following establishment is sanctioned for each of the newly constituted

Districts of Hassan and Chitaldroog :—

English Department.

2	Mashalchis	at	„ 5 each a month	..	10
1	Sweeper	at	„ 4 a month	..	4
				Total Rs ...	206

25. It is understood that on the abolition of the Taluks of Devanhalli, Malvalli Arkalgud, Kankuppa and Malur in 1882, the peons attached to them were distributed among the neighbouring taluks into which the abolished taluks were absorbed. The Deputy Commissioners concerned are requested to report as to the number of peons who are available for retransfer to the reconstituted taluks, and the number if any which may be required in addition. In the meantime the Amildars of the reconstituted taluks will utilize the services of the peons of the respective abolished Sub-Taluks and of such others as the Deputy Commissioner may be able to transfer to them immediately from the neighbouring taluks.

26. The Deputy Commissioner of Mysore is requested to provide for the officials of the abolished Sub-Taluk of Maddur in forming the establishment required for the Malvalli Taluk.

27. The Deputy Commissioner of Chitaldroog is informed that it is not necessary to entertain the establishment for the General Assistant Commissioner till such an officer is posted to his District.

28. The increased cost due to the reconstitution of two Districts and six Taluks as above set forth will be as follows:—

Former Establishment.	Monthly Cost.	Present sanctioned Establishment.	Monthly Cost.
Assistant Commissioner, Hassan Sub-Division	500	Deputy Commissioners at Hassan and Chitaldroog at Rs. 700 each ...	1,400
Do Chitaldroog Sub-Division ...	400	Their Office Establishments at Rs. 1,359 each	2,718
Their Office Establishments at Rs. 396 each	792	Allowance of Rs. 50 to each of the Munsiffs at Hassan and Chikmagalur for charge of the Treasury, a separate Treasury Officer being allowed to Chitaldroog instead of to Chikmagalur as heretofore ...	100
Total for 2 Sub-Divisions abolished.....	1,692		
		Two Police Assistants for Hassan and Chitaldroog	500
Deputy Amildar of Hangal Rs. 50+15,			
Do of Jagalur „ 70+15		General Assistant at Hassan... ...	250
Do of Malur „ 50+15			
Do of Devanhalli „ 70+15		His Establishment	150
Do of Maddur „ 50+15			
Do of Malvalli „ 70+15		Total for 2 new Districts.....	5,118
Do of Arkalgud „ 70+15	535		
		Amildars of the six reconstituted Taluks at Rs. 100+20 each	720
Establishment of the above named Deputy Amildars at Rs. 55 for each ...	385	Establishments for those Taluks at Rs. 206 each	1,236
Total for seven Sub-Taluks abolished ...	920	Additional Establishment of peons likely to be required for the 6 new Taluks ...	200
		Total for 6 new Taluks	2,156
		Grand Total.....	7,274
Grand Total.....	2,612	Net Increase per month Rs.....	4,662

29. It will be seen that in this increase is included the cost of Police supervision, namely, two Assistant Commissioners on Rs. 250 and Office establishment of Rs. 110 to each, making a total of Rs. 720.

30. It is observed that owing to the reduction and revision of establishments carried out in 1882—83 and the consequent absorption of supernumerary officials, there has been of late years a considerable block to promotion in the subordinate establishments of all Districts. In forming the establishments required for the Districts and Taluks now reconstituted, the Deputy Commissioners of Hassan and Chitaldroog will as far as possible select suitable officials from their own and other Districts. The Deputy Commissioners of the other Districts and the District Judges of Mysore and Shimoga will be requested to forward immediately to the Deputy Commissioners of Hassan and Chitaldroog a list of officials deserving promotion, showing their names, age, present appointments and salaries, length of service on present salary, for what appointment qualified, &c. A copy of every such statement should also be sent for the information of the Dewan. The Chief Secretary will also send a similar statement to the Deputy Commissioners of Hassan and Chitaldroog, showing the names of supernumerary officials and others for whom provision has been

ordered to be made. For all appointments which may not be filled up as above, the Deputy Commissioners should select the best available men advertizing for them if necessary. In making new appointments, preference should as far as possible be given to young men who have passed the B. A. and F. A. examinations from Educational Institutions in the Province and who may be otherwise qualified. It is noted that the orders contained in Proceedings No. 4093—108, dated 2nd September 1884, have already been withdrawn by orders No. 4914—103, dated 22nd November 1884, and that the power of appointing and nominating is regulated by orders Nos. 6092—67, and 6932—79, dated 21st November and 21st December 1874, respectively.

31. The establishments required for the newly constituted Districts and Taluks should be formed after very careful enquiry and consideration, and when they have been so formed, a list in the accompanying form should be submitted for the information of the Dewan generally, and for confirmation as regards any appointments which require the sanction of the Government.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Chief Judge and Inspector General of Prisons.
The Deputy Commissioners of Districts.
The Inspector General of Forests and Director of Statistics.
The Inspector General of Police.
The Inspector General of Registration.
The Secretary, Public Works Department.
The Superintendent, Revenue Survey.
The Educational Secretary.
The Comptroller.
The Military Secretary.

List showing the manner in which the Establishment of the District of has been formed.

Designation of Office.	Pay.	Name of person appointed.	His former pay and office, if any.	Qualifications for the appointment.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 31st March 1886.

No. B., DATED 31ST MARCH 1886.

ORDER.—As Mr. H. Hudson is shortly to retire from the Mysore service, it is necessary to make arrangements for the charge of the various Departments now under him. When Mr. Hudson retired on a pension from the British service, it was considered advisable to retain him in the Province for some time longer in order that a competent Native officer may be trained for the exclusive charge of the Account Department. Mr. A. Rangaswamaiengar was accordingly appointed Assistant Comptroller and placed under Mr. Hudson. He is reported to be now qualified for the independent charge of the Accounts. He will accordingly be appointed Comptroller in succession to Mr. Hudson, the office of Assistant Comptroller being abolished.

2. Mr. Rangaswamaiengar will also be appointed Ex-officio Superintendent of Stamps and officer in charge of the Huzur Treasury.

3. The duties of the Inspector General of Registration and the Registrar of Companies are not sufficiently heavy to require a separate officer. These duties will accordingly be transferred to Mr. S. Venkatavaradaiengar, the Legislative Secretary.

4. The Press, the Gazette, Stores and Stationery are most conveniently placed under the control of the Chief Secretary, with Mr. T. T. Leonard as the officer in immediate charge of them.

5. Mr. B. L. Rice has been for sometime past employed, in addition to his duties as Educational Secretary, upon collecting, deciphering and translating ancient inscriptions. It is desirable that he should be appointed as Director of Archæological Researches in Mysore.

It is probable that this work may occupy him another two years, and as the Government of India have decided that he does not belong to their service, the Mysore Government propose to retain him in their service till 31st March 1888.

6. The appended Notification will accordingly be published, and the Comptroller will be directed to give effect to the following scale of salaries from 1st April 1886:—

Name of Officer.	*Designation of Office.*	*Sanctioned Scale of Salary.*
Mr. B. L. Rice	... Director of Archæological Researches in Mysore, in addition to his duties as Educational Secretary to the Dewan	... 1,200
Mr. S. Venkatavaradaiengar ...	... Legislative Secretary to the Dewan, and Inspector General of Registration and Ex-officio Registrar of Companies.	... 800
Mr. A. Rangaswamaiengar ...	... Comptroller to the Mysore Government, and Ex-officio Superintendent of Stamps and Officer in charge of Huzur Treasury	... 600
Mr. T. T. Leonard ...	... Compiler of the Mysore Gazette and Superintendent of the Government Press, in addition to his duties as Superintendent of Stores and Stationery	... 350

R. VIJAYINDRA RAO,
Chief Secretary.

To—Mr. H. Hudson.
„ A. Rangaswamaiengar.
„ S. Venkatavaradaiengar.
„ L. Rice.
„ T. T. Leonard.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 5th March 1886.

No. 6997—551, DATED 5TH MARCH 1886.

REVIEW BY THE DEWAN.—The Amrut Mahal Report for the year 1884—85 is accompanied by a very interesting account of the Silo experiment made by Colonel Hay: the results are very encouraging due to the careful and intelligent supervision of that officer: further experiments will be made in the current year with equal success it is hoped. The papers on the subject will be separately published in the Government Gazette with Canarese translation for the information of the public.

2. The Amrut Mahal Department has worked satisfactorily considering the year was anything but favorable as regards pasturage and water: but for the rain-fall in the month of October, the loss would have been considerable.

3. The total strength for the year including the stock of the year previous and the births was 16,822; of these 1,151 were sold, 1,373 died, a heavy figure due to the bad season of the year, and 4 were missed: the value of the latter is reported to have been collected from the Servegars. The sales including those taken up by the Madras Government realized Rs. 42,691 against Rs. 33,396 of the year 1883—84; the increase is due to the larger sales, 1,151 against 941. The demand for the year as per accounts was Rs. 65,235—12—0, while the collections were Rs. 30,810—2—0; the delay in the collection has been satisfactorily accounted for.

4. The value of stock at the end of the year was Rs. 3,56,972 against Rs. 14,294, heads of cattle.

5. The only question of importance calling for early settlement is the grazing of the Amrut Mahal cattle in the Coorg country during certain parts of the year. The subject has been carefully discussed by the Amrut Mahal officer with the Coorg Government, and a set of rules has been submitted for the final orders of the Durbar. The rules will be passed early.

6. The Government is gratified to learn that the management of the Department under Colonel Hay has been commended by His Excellency the Commander-in-Chief and the Madras Commissary General. The Durbar's thanks are due to Colonel Hay for the untiring interest which he has taken in the successful working of the Department. The Government notes with satisfaction that his Assistant has rendered him good service.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Officer in charge, Amrut Mahal Department.

PART II.

JUDICIAL.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF MARCH 1886.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	A license granted under the Indian Arms Act to A. Rangaswamaiengar, was returned to the District Magistrate of Shimoga duly countersigned.	2nd March 1886.

JUDICIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Judicial),—dated 30th April 1886.

READ—

Letter No. 3610—79, dated 24th November 1885, from the Chief Judge of Mysore, recommending that, in modification of the Proceedings of the Chief Commissioner of Mysore No. 9717—182, dated 4th February 1879, the minimum fee awardable to a Public Prosecutor for supporting convictions by the Magistracy be reduced to Rs. 16.

No. 1162-66—4, DATED BANGALORE, 30TH APRIL 1886.

ORDER.—The above recommendation of the Chief Court is sanctioned.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Chief Judge of Mysore.
Copy to Comptroller for information.
Copy to Public Prosecutors of Bangalore, Mysore and Shimoga, for information.

PART I.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1886.

From the Superintendent, Mysore Revenue Survey, To the Secretary to the Dewan of Mysore, No. 931, dated Saklespur, 2nd March 1886.

I have the honor to forward for the information and sanction of the Dewan the whole of the papers, as noted in the margin, relating to the proposed revision of the assessment of the Attikuppa Taluk of the French Rocks Sub-Division of the Mysore District.

1. Survey Superintendent's Report No. 890, dated 8th February 1886, with Appendices A and B and Map.
2. Mr. Butcher's Report on the Attikuppa Taluk.
3. Survey Superintendent's letter No. 891, dated 8th idem, to the Sub-Division Officer, French Rocks.
4. French Rocks Sub-Division officer's letter No. 683 of the 18th February 1886.

2. The above papers were returned to me by the Sub-Division officer, to whom I had sent them for opinion, under his letter No 683 of the 18th ultimo, but have only this day come to hand.

3. As the Sub-Division officer gives his opinion very decidedly in favor of the proposed rates, it only remains for me to submit the whole of the papers for the final perusal and orders of the Dewan.

4. As the Dewan is aware, I have taken advantage of the fact of there being only two taluks, ready for settlement this year, to visit the Malnad Coffee Districts with a view to the final issue of title-deeds, and Lieut.-Colonel Rutherfurd, the Deputy Superintendent, will give out the rates in Attikuppa and Hoskote. I beg therefore that sanction in the usual manner to proceed with the settlement pending final orders may be given direct to that officer who has made arrangements to commence the work if possible by the 15th instant.

From the Superintendent, Mysore Revenue Survey, To the Secretary to the Dewan of Mysore, No. 890, dated Bangalore, 8th February 1886.

I have the honor to submit the following proposals for the revision of the assessment of the Attikuppa Taluk of the French Rocks Sub-Division of the Mysore District.

2. Mr. Butcher, Assistant Settlement officer, who had, for the most part, charge of classing operations, has submitted a general report on the taluk, embracing many points of interest, which I now attach.

3. The taluk under report is divided into the following maganis or Shekdars' charges :—

Maganis.	Government Villages.	Inam Villages.	Kavals.	Total.
Attikuppa	78	1	1	80
Akkihebbal	60	17	1	78
Kikkeri	48	...	...	48
Santebachihalli	72	4	1	77
Chinkuli	57	10	...	67
Kannambadi	50	9	8	67
Total.....	365	41	11	417

4. The present proposals extend to the 365 Government villages only. The usual appended statement of inam villages shows how each village has been dealt with, it being only necessary to remark, in passing, that a considerable number of the holders, as will be seen, are anxious to give their ryots the advantages of the survey settlement, while others have been willing to pay for the cost of the survey of their villages for the sake of obtaining the map and "Súd," or register of fields.

General description.

5. Attikuppa is redeemed from the character of quite an ordinary plain or maidan taluk, first, by the comparatively western position which it occupies and, secondly, by its participation to the almost full extent of the two maganis of Akkihebbal and Kannambadi, in the irrigation from channels led from the Hemavati and Cauvery

rivers which drain the western and south-western portions of the taluk. The remaining maganis do not at all participate in this system of irrigation. As a whole the taluk does not present, to the inexperienced eye at any rate, an appearance promising much fertility, it being rocky towards the east and in many places high lying, while some of the soils are very shallow, but popular opinion which, when not swayed by interested motives, is not often much at fault on questions of this kind, assigns to it a comparatively high position amongst dry crop taluks The stony character of the country may probably enhance the value of the slopes as gathering ground for the tanks and accumulation of moisture and silt in the valleys.

Climate.

6. The rain-fall is described by Mr. Butcher as precarious and so, to some extent, it undoubtedly must be, but it will not do to lose sight of its comparatively western position and too readily accept this conclusion. During the late famine Attikuppa was regarded, and reported upon, by the Famine Commissioner as one of the taluks less severely affected than the bulk of the famine-stricken tracts. Setting aside the somewhat ludicrous returns of rain-fall given by the Amildar for years prior to 1870, Mr. Butcher's estimate of a rain-fall of from 20 to 25 inches is probably nearly correct. But the Amildar's returns for the last 10 years, including the famine years, do not seem so liable to suspicion, and they show an *average* of 27 inches. I think that we may fairly regard Attikuppa as possessing a somewhat superior rain-fall to the country further east, although by no means safe from the vicissitudes of climate.

Soils and Crops.

7. These are very exhaustively described by Mr. Butcher in paras 9 to 11 inclusive. The dry crop soils vary considerably from good red in the bottoms to grey and sandy in the up-lands, especially in the Santebachihalli and Chinkurli Maganis, black soil being quite uncommon. The crops taken from these red and sandy soils show considerable variety and are, on the whole, better than might be expected, thus bearing out my opinion that the rain-fall is fairly certain.

8. The ordinary rice lands under tanks are fairly good and the gardens, without being very first class, are, especially as regards cocoanuts, panvel and plantains, fairly productive. Supari trees, which are apparently much less hardy than cocoanut trees, have in a large number of instances disappeared, as a result of the late drought.

The rice and garden cultivation under river channels is, it is almost needless to state, very much superior to the same cultivation under tanks although, as regards mere soil, the advantage in quality and uniformity is with the latter. The channel irrigated lands, however, with their perennial water supply, have an advantage for which nothing else could compensate, and, as Mr. Butcher observes, let the quality of the soil be what it may, these lands are eagerly competed for. I may here remark that the cultivation of sugar-cane in the channel irrigated lands of this taluk is far more general than was the case in similar lands in the old Arkalgud and Hole-Narsipur Taluks, or even Yedatore. Even under tanks the cultivation of cane, although of the small kind known as" markabbu, " is pretty common and, all things considered, the wet lands of the taluk must be regarded as very important.

Roads and Markets.

8. The tract under report enjoys the advantage of good roads in a very unequal degree, the centre and east possessing the French Rocks, Channarayapatna and branch road to Nagamangala, while the Maganis of Akkihebbal and Kannambadi, in other respects, chiefly owing to the river channels more flourishing, are extremely badly off for roads and have to trust to mere country tracks which must at all times be difficult and at certain times of the year impracticable. Mr. Butcher makes some suggestions at para 18, on the subject of fresh roads to be opened out, which I hope may be deemed worthy of consideration. The advantage to be gained by facilitating the crossing of the Hemavati river would probably be out of all proportion to the comparatively small sum the work would cost, and I would strongly recommend its being carried out, at the point the road from Bherya to Akkihebbal would, if carried out, eventually cross. There are 7 local markets fairly well distributed throughout the taluk.

Statistics.

9. The following statement will serve in a measure to gauge the resources of the taluk :—

Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.
1	2	3	4	5	6	7	8
365	11,413	58,016	329	141,886	11,016	362	7

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1883.

The number of carts in this taluk compares very unfavorably with the adjoining taluks of Channarayapatna and Yedatore. On general points, involved in population, number of cattle, &c., it compares somewhat unfavorably with Yedatore being much on a par, having due regard to the extent of unoccupied lands, with the Channarayapatna Taluk, but being in almost every way superior to the old Taluk of Hole-Narsipur which adjoins to the west. Some 8,000 people are supposed to have disappeared between 1871 and 1881 by death or desertion. This is a great loss no doubt, but nothing to what occurred in the central and eastern taluks.

10. In conjunction with the above statistics it will be useful to see how the taluk has been divided up by Survey.

Description of land.	Government.		Inam.	Total.		Grand Total.
	Occupied, acres.	Waste, acres.	Acres.	Occupied area.	Waste area.	
1	2	3	4	5	6	7
Dry crop	91,522	11,794	5,137	96,659	11,794	108,453
Rice	8,473	155	486	8,959	155	9,114
Garden	3,179	22	125	3,304	22	3,326
Total.....	103,174	11,951	5,748	108,922	11,971	120,893
Village sites, roads, tanks, &c. ..	...	...	...	..		89,543
Area of whole Inam villages ...	...	...	...	...		33,306
Area of Amrut Mahal kavals ...	...	...	...	...		10,890
Total area for the whole Taluk, 398 square miles	...	...	...	...		254,632

It will be observed that the unoccupied arable waste is of but comparatively small extent and is, moreover, composed almost entirely of dry crop land. This is very much the state of things that was found to exist in the Yedatore Taluk, where nearly the whole of the arable land was occupied. It of course means that the limit of cultivation has been very nearly reached, and I think that we may safely regard the fact of so little waste land remaining unoccupied, as pretty conclusive that the lump sum of the old assessment, however faulty its distribution, did not weigh too heavily on the taluk. Hereafter, if necessity occurs, some arable land may be found in the large survey fields now measured up as unculturable and if so it can be demarcated and assessed, as required for cultivation. Looking at the requirements of the people as regards grazing, I am however inclined to think that very little more land will come under the plough.

There are 11 Kavals, 8 of which are in the Kannambadi Magani, having an area of 10,890 acres.

Of the 8,473 acres of rice land, no less than 4,042 acres are under the river channels.

Past revenue management.

11. I now come to a very essential part of this report. There has never been any scientific or systematic survey in this taluk, much less any demarcation. No attempt has been made to assign a relative value to the various fields, unless an arbitrary fixing of rates for dry, wet and garden lands respectively, can be so called. Mr. Butcher gives a list of the old nominal rates at para 14. A glance will suffice to show that these rates were unreal and could never have been imposed in at all a comprehensive manner, although I dare say some individuals were made to suffer from them. At the same para

will be found some instances of the unequal incidence of the old assessment, as well as some cases, ascertained at the time of test, of the assessment actually paid on individual fields. Without desiring to assign too much importance to the above instances, we may accept them as completely proving the unreal character of old rates. These old nominal rates are of no use for our present purpose. They perhaps serve to show what the revenue authorities of the day considered fair and reasonable rates and how much revenue they would have tried to get out of the taluk, had they only had some record of the area, but, beyond this, I do not believe that they old rates had any practical significance whatever, but there can be no doubt that they were far too high and their very existence must have resulted in their being very occasionally imposed, thus leading to very unfair and unequal assessment.

12. The following maganivar statement, without descending to villages and individual holdings, which would of course far more fully illustrate the unequal incidence of the old assessment, shows the average rate actually paid on each kind of cultivation, the survey acres being the basis of calculation.

Maganis.	Dry Crop.			Rice.			Garden.		
	Acres by Survey.	Past Collections.	Average Rates.	Acres by Survey.	Past Collections.	Average Rates.	Acres by Survey.	Past Collections.	Average Rates.
Attikuppa ...	18,777	14,442	0 12 4	1,503	5,691	3 12 7	654	2,539	3 14 1
Akkihebbal ...	10,566	5,112	0 7 9	3,075	12,954	4 3 4	390	2,496	6 6 5
Kikkeri ...	11,064	6,931	0 10 0	334	2,562	6 10 9	294	1,308	4 7 2
Santebachihalli ..	15,368	11,764	0 12 3	1,559	5,747	3 11 0	598	2,302	3 13 7
Chinkurli ...	17,671	12,443	0 11 3	672	1,902	2 13 3	331	749	2 4 2
Kannambadi ...	18,076	10,236	0 9 1	1,280	6,450	5 0 7	912	3,775	4 2 3
Total.....	91,522	60,928	0 10 8	8,473	35,306	4 2 8	3,179	13,169 *	4 2 3

* Miscellaneous Rs. 978

The Kikkeri Magani, which possesses no river channel irrigation, has been paying a higher wet assessment than any of the other maganis. Santebachihalli, the poorest of all as regards soils, has been paying about the highest dry assessment in the taluk; and, so on, the theme of unequal assessment might be pursued to any desired extent, but I will content myself by stating that I have studied the old and new figures from every possible view point and have satisfied myself that the old assessment has been very unequal. I will give a few illustrations of this later on.

13. The average rate actually paid for the whole taluk can be readily seen in the statement given in the preceding para. There has not been such wholesale concealment of dry cultivation as in the Yedatore Taluk, where nothing could have been more corrupt; but still an average dry rate of Rs. 0—10—8 for a taluk like Attikuppa cannot be considered very much to have been paid and it will admit of a little raising. Of the rice lands nearly half are channel irrigated, and, viewing garden lands and rice lands together, the average rate will come to about Rs. 4—2—7 per acre and cannot be considered high. Of course the rates were supposed to be at least twice as high as they really turn out to be, the true area, as I shall show in the next para, being suppressed.

14. Another feature of importance for our present purpose is the very serious degree to which the bijavari or area was understated in the accounts as shown below. The figures of course apply to the occupied area only.

Description	Area in acres as per old Accounts.	Acres by Survey.	Remarks.
Dry	47,398	91,522	
Wet	8,337	11,652	Includes gardens.
Total.....	55,735	103,174	

Thus the true area is understated by nearly half. The area under channel irrigation is not very clearly stated in the old accounts, but by actual measurement the area comes, in the Government villages alone, to no less than 4,042 acres; if para 8 of Mr. Butcher's Report be turned to it will be seen that under every channel a large excess has been found by survey. For such valuable cultivation any concealment must be considered very serious, for the wet khandi is not such a very uncertain item, as in the case of dry lands, and many of the channel land measurements are pretty modern. As, however, in the whole wet area the excess found is 3,315 acres, I suspect that some extent of channel lands must have been entered as ordinary rice land. Look at the matter, however, as we may, it is clear that a very large extent of wet land, of one sort or another, is unaccounted for, the extent being no less, as I have already stated, than 3,315 acres.

15. The foregoing remarks may look like the prelude to some proposals on my part to increase the old assessment very greatly, but no such apprehension need exist. I am of course desirous that any exposition which I have been able to make of the very corrupt state of the old assessment may be allowed its due weight, were it only to show that there is fair room for some reasonable enhancement of the revenue. Such enhancement however must be attained by adopting moderate, not high, rates. There is a pitch in the assessment to go below which is to needlessly sacrifice Government revenue, and while I certainly do not propose to do this, I am still more averse to adopting rates regarding the moderation of which there can be the slightest question. So great however is the inequality in the old assessment, so numerous the cases in which relief will be given by sweeping away unduly high assessment, and still more numerous the instances where the old assessment was so slight as to be tantamount to so much concealed cultivation, that extremely moderate rates, by the mere process of equalization, will bring in some immediate gain to Government and, however anomalous some people may consider the relief of the ryots with an increase in the total demand, I have no doubt that relief will be afforded in a very large number of cases.

16. The realizations for the last 25 years together with the prices of ragi and rice during the same period are next shown.

Year.	Old Bijavari into Khandis.	Total Demand.	Remissions.		Collections, Rs.	Price per seer.		Remarks.
			Shara baki, &c.	On account of poverty.		Ragi.	Paddy.	
1860—61	4,957	84,448	...	...	84,448	53	53	
1861—62	5,204	86,035	56	...	85,979	53	53

1880—81	7,147	1,04,805	...	...	1,04,805	27	32	
1881—82	7,105	1,04,208	...	...	1,04,208	27	40	
1882—83	7,282	1,06,458	...	...	1,06,458	40	40	
1883—84	7,663	1,09,704	...	...	1,09,704	40	40	
1884—85	7,615	1,10,381	..	...	1,10,381	31	32	

The revenue history of this taluk as shown above looks bright and is very similar to that of the Yedatore Taluk. I think that the collections in this taluk owe their stability to the presence of the river channels, some of which have, from time to time, been extended, and have thus brought in fresh revenue. But for this I have very little doubt that the fluctuations of the realizations during the period shown in the statement would have a little more resembled what we have found in almost all taluks where some abnormal assistance, like the extension of channels for instance, had not occurred. In order to place this point beyond all doubt, I have

examined the bijavari recorded in 1870—71, a very good representative year, with that of 1884—85. There were 7,087 khandis under all heads in 1870—71, against 7,616 khandis in 1884—85. Leaving out garden and dry crop, there were 2,211 khandis of rice land, against 2,931 khandis, giving an increase since 1870—71 of 720 khandis. When I say that, in the Akkihebbal Magani alone, 544 khandis of this increase are found, I think little doubt can remain of the correctness of my opinion. Now, if we examine the dry crop bijavari, we find 3,798 khandis in 1870—71, against 3,646 khandis in 1884—85. Making allowance for dry converted into wet, for Akkihebbal which shows the greatest increase in wet shows the greatest falling off in dry bijavari, the two years may be regarded as much on a par. Making every allowance for the fresh revenue derived from channel extension, I think we may consider that the taluk has come very well through the period including the famine years which so severely tried all but the most favorably situated parts of the Province. In most taluks we find the year 1866—67, or thereabouts, to be that of the highest collections on record, but in the taluk now under report, making every allowance for channel extension, the present compares very favorably with the best of past years, when prices were far more favorable to the ryots than they are now.

17. As I have already pointed out there is little arable waste available and what there is will be to some extent required for free grazing. There is however a comparatively large area of unassessed waste which will serve for the latter requirement and some small extension of cultivation may be hoped for ere long. What can be gained by the still further extension of channels is of course an uncertain item and need not be dealt with here.

18. The following, then, are the groups into which I proposed to divide this taluk for the purpose of assessment :—

Group.	Number of Villages.	Maximum Dry Rate.	Maximum Rice Rate (Ordinary.)	Maximum Rice Rate, under Channels.	Maximum Garden Rate.
I	181	2 0 0	8 0 0	10 0 0	10 0 0
II	184	1 12 0			

There is no distinction necessary in the maximum rates for the garden and wet lands of the 2 groups, but only as regards the dry lands, the less valuable productions of which are relatively more affected by the absence of roads than the more valuable wet products. Under this arrangement, the Akkihebbal and almost the whole of the Kannambadi Magani, which are very badly off for roads, come into the 2nd group as regards the dry crop lands. So also do a large number of the more outlying villages of the remaining maganis.

19. The above rates fit in very closely with those already adopted and working well in the adjoining taluks. They are lower, as regards dry assessment, than the rates in the adjoining villages of the Yedatore Taluk where most of the villages had a dry crop maximum of Rs. 2, but I have considered a small difference advisable on account of difficulty of communication in the Akkihebbal and Kannambadi villages owing to absence of good roads, and the difficulties of the Hemavati and Cauvery rivers. If anything I have, on the whole, pitched the assessment of this taluk a little lower relatively than in adjoining taluks, but still the difference is too slight to lay the settlement open to any charge of inconsistency. The gain to Government, as will be seen further on, is considerable, and there are some points in the statistics of the taluk, notably the small number of carts owned by the ryots, showing that the roads generally are not main lines, which point to its inferiority to the neighbouring taluks, except Holé-Narsipur. It is quite true that the small area left of arable waste points to opposite conclusions, but on the whole I think my rates are sufficiently high.

20. The result of my proposals as regards the occupied lands is shown below :—

Group.	Number of Villages.	Total.			Rice, ordinary.			Rice, under Channels.			Dry Crop.			Garden.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
I	181	58,147	72,250	1 13 11	3,058	11,865	3 14 2	657	4,252	6 10 0	52,781	48,447	0 14 8	1,671	7,685	4 9 7
II	184	45,027	64,579	1 6 11	1,373	5,264	3 13 4	3,405	21,256	6 3 11	38,741	36,125	0 12 5	1,508	7,929	5 4 1
2	365	103,174	1,36,823	1 5 3	4,431	17,130	3 13 10	4,042	25,508	6 5 0	91,522	78,572	0 13 9	3,179	15,613	4 14 7

No particular remark is called for on the above results. The difference between the wet assessment on channel irrigated lands as compared with ordinary wet lands will, I think, be acknowledged to be quite justifiable. The garden assessment, it will be seen, is higher in the 2nd than in the 1st group and is due to some of the gardens enjoying channel water.

21. The area and assessment of the arable waste is as below :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	181	6,334	4,533	0 11 5	50	173	3 7 4	10	31	3 1 7	6,394	4,737	0 11 10
II	184	5,460	3,460	0 10 2	105	530	5 0 9	12	41	3 6 8	5,577	4,031	0 11 7
2	365	11,794	7,993	0 10 10	155	703	4 8 7	22	72	3 4 4	11,971	8,768	0 11 9

The extent is comparatively small and, excepting in the case of the few acres of wet land in the 2nd group which are of good quality, bearing low assessment.

22. The next statement exhibits the area and assessment of the minor Inam lands.

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.	Acres.	Assessment.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	181	3,028	2,514	0 13 3	266	1220	4 9 5	71	293	4 2 0	3,365	4,027	1 3 2
II	184	2,109	1,526	0 11 7	220	1068	4 13 3	54	221	4 1 6	2,383	2,815	1 2 11
2	365	5,137	4,040	0 12 7	486	2288	4 11 4	125	514	4 1 10	5,748	6,842	1 3 1

23. For the purpose of comparison the whole area and assessment of the arable land, Government occupied, waste and inam land, is shown in juxtaposition with the collections of 1884—85.

Group.	Villages.	By Old.		By Survey.							
				Government occupied.		Government waste.		Inam.		Total.	
		Bijvari.	Collections.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12
I	181	3,944	59,564	58,147	72,250	6,394	4,737	3,365	4,027	67,906	81,014
II	185	3,664	50,817	45,027	64,573	5,577	4,031	2,383	2,815	52,987	71,419
2	365	7,608	1,10,381	103,174	1,36,823	11,971	8,738	5,748	6,842	120,893	1,52,433

24. To make the effect of the proposed settlement clearer, the following statement contrasting the average rates under all heads, under the old and new systems respectively, the survey area being the basis of calculation in both cases, is given.

Description of Land.	Acres by Survey.	By old Accounts.		By Survey.	
		Collections.	Average Rate.	Assessment.	Average Rate.
Dry crop	91,522	60,928	0 10 8	78,572	0 13 9
Rice (channel)	4,042	18,113	4 8 0	25,503	6 6 0
Rice (ordinary)	4,431	17,188	3 13 11	17,130	3 13 0
Garden	3,179	13,169	4 2 3	15,613	4 14 7
Miscellaneous	...	978	...	...	...
Total.....	103,174	1,10,381	1 1 0	1,36,823	1 5 3

25. If we could trust the distinction in the old accounts between garden and rice, and again between ordinary and channel rice, the above figures would be very instructive, but unfortunately we cannot do so. Still, enough is shown to convey a very good idea of the effect of the settlement. Intrinsically the survey rates are very low, indeed, with any justice to adjoining taluks settled already, they could not have been made lower and it is almost needless to say, considering that barely half the true area has been recorded in the old accounts, that the new rates are infinitely lower than the old and would undoubtedly be considered far too low to have adopted before the introduction of the survey. It is only when the true area has been ascertained that the old rates are repudiated and the new rates judged otherwise than on their merits.

26. In 1884—85 grazing realized Rs. 2,079, and as I cannot make any reliable estimate of what it will be under the settlement, I will estimate it at the same figure as the realizations of 1884—85 than which it is certainly not likely to be less and may be more. It must however be remembered that a good deal of waste land will have to be reserved for free grazing and other purposes.

27. The local cess of one anna returned, in 1884—85, Rs. 7,298; it will now be Rs. 8,551 on Government occupied lands and Rs. 428 on minor Inam lands, in all Rs. 8,979.

28. The amount of irrigation cess to be annually credited to the District Irrigation Fund will be about Rs. 3,426; the amount will of course vary slightly annually in accordance with the garden and rice lands under occupancy each year.

29. Leaving out any calculation of Local Fund or of grazing realizations, there will be an immediate gain to Government of Rs. 26,442 Out of this will have to come the pay of Patels and Shanbhogs and the contribution to the Irrigation Fund, probably, Rs. 12,000 for the two together. This will leave a gain to Government of about Rs. 14,000 which cannot be considered very much, if it be borne in mind that the ryots are forgiven their grain and other payments to the two classes of officers whom the Government undertake to pay. The increase has not been so great as in the Yedatore Taluk, because the assessment generally but especially of the dry crop lands, has been less corrupt in Attikuppa; as regards the inequality of the assessment, there is little to choose between the two taluks, but in Yedatore the dry assessment was very low, as well as unequal. Then again the fact that a very considerable proportion of the increase is due to the simple operation of accurately measuring the channel irrigated lands and imposing rates which are moderate beyond all question must not be overlooked. The market value of these lands is very great. The new rates are I maintain perfectly unchallengeable on the score of moderation, and I recommend them with the utmost confidence.

30. As promised at para, I now give a few illustrations of the unequal incidence of the old assessment. The following statement exhibits a few villages the assessment of which the proposed settlement affects very unequally some being increased and some decreased. The basis of calculation throughout I must remark is the survey area, without which any comparison would be futile.

Group.	No.	Village.	Old average Rates.									Survey average Rates.									Old Collections.	Survey Assessment.
			Dry.			Rice.			Garden.			Dry.			Rice.			Garden.				
1	2	3	4			5			6			7			8			9			10	11

	140	Chanlageri ...	0	11	11	3	7	9	9	6	8	1	0	4	3	7	2	5	14	8	950	1,081
	166	Dodhagauhalli ...	0	7	5	0	9	2	1	9	7	0	14	5	3	6	10	3	6	5	304	610
	178	Bhammagodi ...	0	8	11		...		3	5	6	0	15	5	4	0	0	4	0	7	524	983
	42	Hiralhalli ...	0	11	8	2	0	0	7	8	0	0	15	6	4	4	11	5	4	0	371	561
II	121	Agale ..	1	1	1	5	4	0	5	10	0	0	13	6	4	10	2	5	10	9	2,167	1,933
	124	Kundur ...	0	12	2	11	5	4	7	2	9	0	12	8	4	0	0	5	6	5	661	570
	142	Marhalli ..	1	0	8	3	9	2	3	0	0	0	12	11	3	2	3	4	0	0	333	268
	172	Bukanageri ...	0	11	11	11	10	8	6	0	0	0	13	7	3	10	8	5	8	10	2,869	2,666
I	145	Rajagatta ...	1	7	11	1	14	7	...			0	14	3	2	14	7	3	0	0	298	206
	156	Semba ...	1	3	4		...	0	5	6	0	15	2		...		4	14	6	853	662
II	45	Hosgaddo ...	1	6	5	7	8	11	...			0	9	7	6	7	9		...		1,036	820

The above figures are deserving of close attention, for they show better than any words of mine can express, how very low the pitch of the proposed assessment really is. I need scarcely say that the difference of the assessment under the old system shown in columns 4, 5 and 6 is based upon no considerations of superiority of soil or position, but is due simply to accident, or connivance. No. 45 of group 2 is a channel village. In village No. 45, an average rate of Rs. 1—6—5 per acre on dry land must be regarded as very high and as the average is for the whole village, we may feel pretty sure, although the actual figures cannot be ascertained till the settlement papers are ready, that some individual ryots are paying very much more. The new rates in columns 7, 8 and 9, it will be seen, go through a far smaller range than the old rates, avoiding any unjustifiable extremes.

31. The usual classwar statement and list of inam villages together a sketch map of the taluk are appended.

32. I shall feel much obliged by early sanction to admit of the rates being given out some time next month.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1886.

Report on the Attikuppa Taluk, Mysore District, French Rocks Sub-Division, by Assistant Settlement Officer, Mysore Revenue Survey, dated Bangalore, 21st October 1885.

Boundaries.—The Attikuppa Taluk is bounded on the north by the Channarayapatna Taluk, south by Mysore and Seringapatam, east by Nagamangala and Seringapatam and on the west by the Yedatore and Holé-Narsipur Taluks.

2. *Physical Characteristics.*—The taluk is entirely of a plain or maidon character, being undulating throughout. On the eastern side there is a low range of rocky hills with here and there an isolated hill covered with low scrub jungle. The whole is of tolerably compact form, being about 25 miles from north to south and 20 miles from east to west.

3. *Area.*—It has an area of about 221.000 acres or roughly 346 square miles.

4. *Population.*—According to the Census of 1881, the taluk has a population of 73,936 souls or about 214 to the square mile, which is pretty evenly distributed. Attikuppa suffered somewhat in the late famine, the difference between the Census of 1871 and 1881 showing a loss of over 8,000 people.

5. *Sub-divisions.*—The following are the changes that have lately been made in the constitution of the taluk ; 13 villages have been transferred from the Channarayapatna Taluk to the Kikkeri Magani, of which 2 villages have been already settled. From the Holé-Narsipur Taluk 19 villages have been transferred to the Kikkeri Magani, all of which have been settled. These are the additions that have been made to the taluk ; on the other hand the Melkote Magani comprising 41 villages have been transferred to the Seringapatam Taluk and 18 villages of the Santebachihalli Magani have been transferred to the Nagamangala Taluk. The taluk therefore now consists of the undermentioned maganis with their included villages :—

Magani.	Sarkari.	Inam.	Kavals.	Total.	Remarks.
Attikuppa	78	1	1	80	* 21 villages of this magani have been already settled.
Akkihebbal	60	17	1	78	
Kikkeri	69	...	...	69	
Santebachihalli	72	4	1	77	
Chinkurli	56	10	...	66	
Kannambadi	50	9	8	67	
Total ...	385	41	11	437	

This report refers only to the 416 villages still to be settled. The greater portion of the taluk was classed by the E. Establishment under my superintendence, the M. Establishment under Mr. Barker classed portions of the Kannambadi and Chinkurli Maganis in the south of the taluk.

6. *Drainage.*—The drainage of the taluk is from north to south in a westerly direction, most of the streams discharging into the Hemavati river which runs along the western border of the taluk, joining the Cauvery towards the south. There are several large "Nullahs" also, taking their rise near the rocky hills on the eastern border, which also discharge into the Hemavati.

7. *Tanks.*—There are in all some 284 tanks in the taluk, of which about 175 are used for irrigation purposes, the remainder being tanks out of repair, silted up, or small kattes ; 10 tanks out of the whole number may be called first class, holding water the greater portion of the year.

8. *Irrigation Channels.*—The Hemavati river has been bunded in several places from which channels are taken watering a strip of land on each side of the river; in some places this forms a very narrow strip, at other points it widens out. I will take the anicuts in their order as they are situated from north to south.

The "Mundagere Nullah" is taken from an anicut near the village of Mundagere in the Akkihebbal Magani; it has a total length of 27 miles discharging into the river near the village of Alambadi. This channel was at first only 15 miles in length, in 1873 it was carried 2 miles further, in 1879 other 6 miles were added to it, making in all 23 miles. Since 1881, four miles have been opened. The last 12 miles of this nullah is known as the "Hosnullah." The Mundagere channel waters portions of the lands of 21 villages. According to taluk accounts, the area irrigated is 901 khandis, by the survey it is a little more than 2,700 acres.

The "Akkihebbal Nullah" comes next to the above on the river. The anicut is constructed at the south end of a small island on the river, on which an old and well constructed fort stands. This fort was built by Tippu and named "Hospatna" and in those days formed the head-quarters of the "Hospatna Taluk." This anicut is not in good repair and allows a good deal of water to escape in breaches. The channel taken from this anicut however receives water from a sluice in the channel above it, the Mundagere Nullah. The length of this channel is 6 miles and it waters the lands of the Akkihebbal village only. Area irrigated by taluk accounts, 166 khandis, and by the survey, 563 acres.

The above channels are on the west bank of the river. The "Hemagiri Nullah" is taken from an anicut near the village of Bundhole and at the foot of the "Hemagiri" or hill of gold, both gold and silver being found there. This channel is about 16 miles long and on the east side of the river. It irrigates a very fine block of inam villages 16 in number, which must be considered one of the finest blocks of land in the taluk, whether as regards soil, water supply or crops grown. The lie of the land also is very good being almost level. There is no recorded area of the irrigated land under this channel in the taluk accounts, but from the fact that 8 annas per khandi is paid as 'Nirasardi," the amount credited under the head being Rs. 238, it would appear to be about 470 khandis. By survey the area irrigated is 1,460 acres. This channel irrigating the lands of inam villages only was for a long time managed by the inamdars, but numerous complaints from the ryots cultivating the wet lands having been received, at the recommendation of Mr. Bowring, at the time Chief Commissioner, the inamdars were induced to assign the revenues of one of their villages, "Yachainhalli," for the purpose of the up-keep and improvement of this channel. The present revenue is about Rs. 1,000 which is paid into the treasury and the channel is now looked after by the Irrigation Department and has been much improved.

The "Kannambadi Nullah" is taken from the "Danayikankatte Anicut" at Punhalli in the Kannambadi Magani and near the junction of the Hemavati river with the Cauvery. It is 14 miles in length and irrigates a considerable area of land, flowing through the Kannambadi tank. The lands irrigated are known as the Hoskatte and Kannambadi hantas, a few fields of Govindanhalli are also irrigated from it. By taluk accounts the total area irrigated by this channel is 432 khandis, by the survey it measures about 1,245 acres.

The "Kathalli Nullah" is taken from an anicut on the Hemavati near the village of the same name; it is 8 miles in length and irrigates the lands of the inam village of Varanath Kalhalli, the area irrigated by the survey measurement being 328 acres. The above channels are all taken from the Hemavati river. In addition to these, there is a nullah coming from the Narayangiribetta near the large village of Sindgatta which discharges into the kodi channel of the Sindgatta tank. It is called the "Narayangiribetta Nullah," is bunded in several places and waters a very limited area in 10 villages of the Attikuppa Magani. In the Chinkurli Hobli there is a small nullah called the "Kalbettad Nullah", which is also bunded in several places and waters a small area. There is also a small channel taken from the overflow of the Kikkeri tank, which irrigates a few acres of land and discharges into the Hemavati.

9. *Soils.*—The dry crop soils of the taluk are of a mixed description. The high lying lands are often poor and gravelly especially in the Santebachihalli and Chinkurli Maganis, where there are low rocky hills. Soil of the grey and sandy description is very common, with good red soil in the hollows. Black soil is rarely met with and then in small patches only. The soils of the tari and garden lands below the tanks are of a fair average quality. Under the river channels however they vary very considerably. The soils of the inam villages on the eastern side of the Hemavati river are fairly good throughout, but under the channels on the western side in some places they are poor, gravelly and shallow. Even here however so great is the desire to hold and cultivate every acre that is capable of being irrigated that one often finds sugarcane growing on such soils.

10. *Dry crops.*—The following are the chief dry crops grown in the taluk. Early crops—gid-ragi, jola, yellu, sumbara. Late crops—dod-ragi, togari, avare, kadle, hesaru, uddu, haralu, harka, navane, samé, bhatta, castor and gingelly oils, hurali. The relative proportion of the early to the late crops is as 7 annas to 9 annas respectively.

11. *Wet crops.—Cane.*—Sugar-cane is grown to a great extent both under the river channels and under many tanks both large and small. The kind usually grown is the "chani" or "marakabbu," which is a small species of cane. In planting this cane 8,000 pits or "gunis" are taken to the khandi, the cane being planted 2 feet apart Two points of cane about 9 months old are planted in each "guni" either in June and July at the commencement of the monsoon or in November and December. It is watered by hand for a month till shoots are formed, when manure is put round each plant and the land being ploughed up between the rows, the manure is covered up and the field receives a watering by water being turned into the channels between the rows. For the next 4 or 5 months the land is occasionally turned up by the plough, the soil made loose, earth which has accumulated round the cane stems removed, after which watering is continued about once a month till the cane is ripe, which takes from 15 to 18 months. I have been informed that, if the crop of cane is a fairly good one, the yield of jaggory is about 4 bullock loads or "heras" of 5½ maunds each, from each 1,000 clumps of cane. The present selling price of jaggory is about Rs. 8 per "hera," which would give a gross return of about Rs. 140 per acre. The large cane or patta-patti is not grown to a large extent, principally under the Kannambadi channel where there is a constant supply of water all the year round. It is met with also below the Attikuppa, Kikkeri, Agale, Sindgatta, Agraharbachihalli, Ballikere and Vasantapura tanks. The small cane is grown under very many of the small tanks in the Santebachihalli and Chinkurli Maganis. In this region water is found close to the surface and small hills or water holes are dug, when required, to supplement the tank water. In many places I found it growing almost like a dry crop, being watered by hand when first planted till strong shoots are formed, and then left to itself to be brought on by the rains. It is undoubtedly a very hardy species of cane, and, as the expense of cultivating it is not so great as the large cane, I think that the profits are very nearly equal.

Rice.—Two crops of rice are only taken under the Attikuppa tank and there only to a small extent. Under the large tanks it is usual to take a dry crop as gidragi or Bengal-gram as "Mungar" crop followed by rice as "Vaisakh." After a crop of cane, before growing rice to provide "Soppu" as manure, a crop of uddu, hesaru or hurli is first grown and the green stems and leaves are ploughed into the soil. The chief kinds of rice grown are the following :—bile-bhatta, kembhatta, sanbhatta, putbhatta, kaddi, kaddi-sanna and bolamallige. In a large number of villages in the eastern portion of the taluk in the maganis of Santebachihalli and Chinkurli, a coarse kind of rice "Doddi" or "Karibhatta" is grown largely without any artificial irrigation, the "varu" or moisture percolating through the loose and sandy soils which prevail in this part of the taluk being sufficient to mature the crop. In good seasons very fair crops are raised in this way. Hitherto the practice in the taluk with reference to this kind of cultivation has been to assess it as "Banjartari" in favorable years and when the year has not been so favorable to strike off the extra assessment. I do not consider that the crop on the whole is superior to what ragi would have yielded. The soils where this cultivation is met with are almost pure sand and unsuitable for good dry crops, the moisture in the soil being too great. In classing these soils, therefore, I have treated them as dry crop, except in cases where the position was low and decidedly favorable for the growth of rice, which is, I think, the fairest way of treating them.

Gardens.—The garden crops chiefly met with in the taluk are—cocoanuts, supari, plantains, betel-creepers and the minor kinds of garden produce. The gardens do not strike me as being of a superior description. The supari suffered a great deal from the drought in the years of famine and in many places have died out leaving cocoanut trees only. The best gardens are those with betel-creepers and also the plantain gardens of the Kannambadi Magani in the south of the taluk. Here the soil in the hollows is a stiff red loam, in which the plantains thrive. A large number of bunches are exported to Seringapatam, Mysore and other places.

12. *Exports and Imports.*—The chief articles of export are—jaggory, paddy, ragi, beans, horse-gram, castor and sweet oil.

The imports are—wheat, kerosine oil, cloth, chillies, brass utensils, cotton, supari and tobacco, &c.

13. *Markets.*—There are weekly markets held at the following places :—

Akkihebbal	}	Monday.
Tundekere		
Attikuppa		Wednesday.
Santebachihalli		Thursday.
Kikkeri		Friday.
Bokankere		Saturday.
Sindgatta		Sunday.

14. *Nominal Rates.*—The rates in this taluk are extremely unequal, the present nominal dry crop rates are said to run from one fanam up to Rs. 92—10—0 per khandi.

Below tanks—Tari.—Below tanks the rate is from Rs. 5—13—0 to Rs. 20—6—0 per khandi.

Under channels.—Bagayat.—From Rs. 3—8—0 to Rs. 24—8—0. Under the Mundagere channels, the rate is from Rs. 7 to Rs. 29 per khandi. Below Akkihebbal Nullah, from Rs. 12 to Rs. 29. Kannambadi Nullah, Rs. 11—10—0 to Rs. 14—8—0 per khandi. The gardens under the channels range from Rs. 6 to Rs. 12 per acre. Under the small channels from the hills, it is from Rs. 8—11—0 to Rs. 10—14—0. These are the nominal rates. The actual rates which I find existing are as follows, being the average of the numbers tested by me when the Shanbhogs were present. Mundagere Nullah, per acre Rs. 2—12—0, average of gardens, Rs. 7—2—0. To give an idea of the inequality of the rates, survey numbers 221 of Sakshebidu, 2 acres and 3 guntas in area, the whole being cultivated with sugar-cane, is now paying Rs. 2—0—0 or about Re. 1 per acre, whilst the adjoining number of the same description is paying Rs. 5 per acre This channel irrigates roughly 2,700 acres of land for which the kandayam paid is about Rs. 12,000, which gives an average of a little over Rs 4 per acre. Village of Natainhalli under the same channel, the average of test was Rs. 5—3—0 per acre, ranging from Rs. 2 to Rs. 10 per acre.

Akkihebbal channel—the area irrigated is about 563 acres on which the assessment is Rs. 2,433, which gives an average of a little more than Rs. 4 per acre.

In some of the inam villages under the Hemagiri channel, I found the present rates paid to the inamdars much higher than in the Government villages. In the large village of Hariharpura, the average under the channel as taken at test was Rs. 6—10—0, being from Rs. 3 to Rs. 9 per acre.

Under the large tank at Kikkeri, the average of test in the tari lands was Rs. 8—7—0 per acre, the lowest being Rs. 3 and the highest Rs. 10. The average of the bagayat being Rs. 11 per acre.

Under the large tank at Attikuppa, the average rates were, tari Rs. 4—10—0 per acre, bagayat Rs. 6, being from Re. 1 to Rs. 6 per acre. The village of Markanhalli in the Attikuppa Magani is a good example of the inequality of the present dry crop rates. The following numbers are extracted from my test book of that village. Survey No. 180, 5 acres 22 guntas, a really good field, is now paying 10 annas only or less than 2 annas an acre. Survey No. 203, 9 acres and 7 guntas, pays Rs. 2—11—0. Survey No. 204, 7 acres 27 guntas, pays Rs. 1—5—0. Survey No. 226 of 6 acres and 4 guntas pays Rs. 7—9—0. No. 228 of 6 acres and 24 guntas pays Rs. 4—14—0. No. 229 of 5 acres and 35 guntas pays Rs. 6—15—0, whilst No. 236 of 5 acres and 9 guntas pays Rs. 9—7—0.

The following table shows the average rates now actually being paid in the different maganis as ascertained at test, being the result of several hundreds of numbers tested :—

Name of Magani.	Rate per acre.					
	Khushki.		Tari.		Bagayat.	
	Rs.	A.	Rs.	A.	Rs.	A.
Attikuppa	1	1	3	12	4	8
Akkihebbal	...	12	6	2	7	...
Kikkeri	...	11	8	...	5	4
Santebachihalli	1	4	4	7	5	4
Chinkurli	...	13	3	12	3	12
Kannambadi...	...	10	6	...	...	...

15. *Sub-letting.*—In large villages wet land is sub-let on "gutte", when sugar-cane is grown, it is usual to give the pattadars 10 loads of jaggery per khandi of land, he having to pay the kandayam. Vara is the more general mode of sub-letting. When growing rice under the channels, the usual "guttige" is from 6 to 12 khandis of paddy per khandi of land, under the large tanks, it ranges from 6 to 10 khandis.

16. *Rain-fall.*—No reliance can be placed on the return of rain-fall furnished me by the Amildar. He gives the rain-fall in 1866 as 100 inches and in 1867 as 111 inches; in 1867 it is only 17 which becomes only 9 in 1871, whilst in the famine years, 1875 and 1876, it is 11 to 15 inches respectively. From the general appearance of the taluk and the crops grown, I am of opinion that from 22 to 25 inches would be a fair average.

17. *Climate.*—The climate throughout the taluk is a healthy one. Unlike the adjoining Taluk of Yedatore the neighbourhood of the irrigation channels does not seem to be at all feverish, consequently the ryots are able to live quite close to their cultivation which is a point of considerable importance as they are enabled to cultivate their rice and cane fields in a proper manner, manure having to be carted only a short distance.

18. *Roads and Communications.*—There is one main road running through the taluk from north to south, *viz.* that from the French Rocks to Channarayapatna. This benefits the Kikkeri and Attikuppa Maganis and to a small extent the Chukarh Magani. A road branches off from this one at Attikuppa, going to Nagamangala. The taluk cannot be said to be well found in roads. The whole of the Akkihebbal Magani and the greater portion of the Kannambadi Magani are practically without a road and are very much in want of one, especially the Akkihebbal Magani. Here are some 6,000 acres of land under the river channels with their crops of rice and cane. It seems to me very desirable that a road should be made through this part to enable the ryots to cart away their paddy. The road should run from the large village of Bherya in the Yedatore Taluk, on the road from Mysore to Holé-Narsipur, to Akkihebbal and thence to Attikuppa. The banks of the Hemavati river are very steep and laden carts are now unable to cross it. The banks on both sides of the river should be sloped and a good crossing place made. The expense of making such a road would not be heavy. The northern portion of the Santebachihalli Magani is also much in want of a road bisecting that which goes to Nagamangala.

19. *Manufactures.*—Silk cloths of various kinds are manufactured in the large village of Sindgatta. The silk is brought in the rough from Channarayapatna, Maddur, Nagavara, Nidgatta, &c., and after being made into thread, it is dyed and woven into cloths, which are exported to Melkote, Seringapatam, Mysore and to the Arkalgud and Holé-Narsipur Talukas.

Of looms for cloth there are	..	..	.. 248
Looms for cumblies	..	..	.. 57
Carts	.	..	.. 265

20. *Market value of rice lands.*—Under the river channels, land fetches from Rs. 100 to Rs. 250 per acre, the highest prices being paid apparently under the Mundigere Nullah.

21. *Kavals.*—Nearly all the kavals are elevated ridges partially covered with low scrub jungle. The grazing on them is indifferent.

22. *Cattle.*—Cattle are numerous and attain a fair size. Sheep also are very numerous, the grazing being well adapted to them.

23. *General condition of the Ryots.*—The general condition of the ryots is fair. Portions of the taluk suffered undoubtedly in the famine. The rain-fall is also somewhat precarious. Almost all of the villages of the Akkihebbal Magani participate in the wet cultivations under the river channels and are therefore in a flourishing condition.

From the Superintendent, Mysore Revenue Survey, To the Assistant Commissioner in charge, French Rocks Sub-Division, No. 891, dated Bangalore, 8th February 1886.

I have the honor to forward the accompanying report containing my proposals for the revision of the assessment of the Attikuppa Taluk for your opinion and obliging return at an early date.

From the Assistant Commissioner, French Rocks Sub-Division, To the Superintendent, Mysore Revenue Survey, No. 683, dated Camp Maddur, 18th February 1886.

In reply to your letter No. 891, dated the 8th instant, forwarding for my opinion your report to the Government containing proposals for the revision of the assessment of the Attikuppa Taluk, I have the honor to state that I have carefully studied the report and consider the proposed rates to be moderate.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1886.

2. The maximum rates for the 1st group of villages are the same as those adopted in the adjoining settled Taluks of Yedatore, Holé-Narsipur and Channarayapatna and the maximum dry rate for the 2nd group of villages and the maximum rate for the garden lands of the whole taluk are even lower than those finally adopted for the Taluk of Channarayapatna. The average rates for the different descriptions of land stand as follows in comparison with the average rates prevailing in the adjoining taluks :—

New assessment.

Taluk.	Average dry rate per acre.	Average wet rate per acre.		Average garden rate per acre.
		For ordinary rice land.	For channel lands.	
1	2	3	4	5
Attikuppa	0 13 9	3 13 10	6 5 0	4 14 7
Yedatore	0 12 1	4 0 0	6 8 5	4 12 4
Holé-Narsipur	0 12 4	4 15 9		4 0 5
Channarayapatna	0 14 10	4 4 10		4 3 8

These figures clearly show that Attikuppa has been fairly dealt with as regards the revision of its assessment.

3. The condition of Attikuppa is beyond doubt prosperous, judging from the comparatively small extent of arable waste land it has got, and from the steady increase in its revenue since the late famine. I therefore think that Attikuppa can bear the proposed increase to its old revenue much more easily than the neighbouring Taluks of Channarayapatna and Holé-Narsipur, to both of which, in popular opinion, Attikuppa is very superior.

4. The grouping of the villages has, I think, been made with due regard to their relative situation from the roads and other means of communication existing in the taluk.

5. In connection with the subject of roads, I beg to state that proposals exactly similar to those made by Mr. Butcher in para 18 of his report had been made at the meeting of the Local Fund Board of this Sub-Division held on the 15th January 1885, when Mr. Madhava Rao was the Sub-Division officer, and I may also state that in addition to the roads suggested by Mr. Butcher, the Local Fund Board had so far back as 17th December 1883 proposed the making of a road from Akkihebbal to Chinkurli, *via* Bukinkere which is a place of some importance in the Attikuppa Taluk.

6. I beg to return herewith your report and its enclosures.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1886.

Telegram from the Dewan of Mysore, To the Deputy Superintendent of Revenue Survey, dated Mysore, 12th March 1886.

Survey Superintendent's letter, 2nd March. Proposed settlement of Attikuppa Taluk approved. Please proceed with it immediately.

No. 783-94—35, DATED 19TH APRIL 1886.

ORDER-THEREON.—The foregoing papers relate to the revision of assessment in 365 Government villages in the Attikuppa Taluk.

2. The taluk from its situation enjoys a fairly certain rain-fall, the average being 20 to 25 inches. During the famine, it suffered somewhat but not so severely as other maidan taluks in the centre and east of the Province. The soil though of varying character is on the whole good, and the climate salubrious.

3. Wet cultivation is carried on in the taluk to the utmost possible extent, the waste arable area being very small. Out of a total area of 11,829 acres of rice and garden land, (of which nearly one half—5,657 acres—is under river channel irrigation in the Akkihebbal and Kannambadi Maganis), 11,652 acres are under occupation, leaving only a small area of 155 acres of rice and 22 acres of garden land available for future cultivation. The taluk may on the whole be said to be in a comparatively prosperous condition.

4. The existing rates of assessment are high and very unequally distributed, but they are only nominal inasmuch as the recorded areas of holdings are generally understated.

5. The Superintendent proposes to divide the taluks into 2 groups with reference to situation and proximity to roads and recommends the following maximum rates:—

	1st Group. Per acre.	2nd Group. Per acre.
	Rs.	Rs. A. P.
Dry Crop	2	1 12 0
Rice, ordinary	8	8 0 0
Rice, under channels	10	10 0 0
Garden	10	10 0 0

These rates are in themselves moderate and are quite in accord with the rates adopted for neighbouring taluks.

6. The result of the introduction of the above rates is as follows:—

Description of land.	Acres by Survey.	By Old Accounts.		By Survey.	
		Collections.	Average Rate.	Assessment.	Average Rate.
Dry Crop	91,522	60,928	0 10 8	78,572	0 13 9
Rice, channel	4,042	18,118	4 8 0	25,508	6 6 0
Rice, ordinary	4,431	17,188	3 13 11	17,130	3 13 0
Garden	3,179	13,169	4 2 3	15,613	4 14 7
Total.....	103,174	*1,09,403		1,36,823	1 5 3

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1886.

7. The increase of revenue accruing from the proposed settlement is only Rs. 27,420, out of which Rs. 3,400 have to be credited to the District Irrigation Fund, and Rs. 8,600 have to be provided for the remuneration of Patels and Shanbhogs, thus leaving to the Government a net increase of only Rs. 15,420. This increase will be secured by an equal distribution of the very moderate rates of assessment proposed, without resorting to excessive assessment in any case.

8. The proposed settlement is extremely moderate and proper, and His Highness' Government accordingly sanction its introduction with the usual guarantee for 30 years.

9. The extent of Amrut Mahal Kavals (10,890 acres) is doubtless too large in a taluk in which there is so little waste land available for extension of cultivation. This matter will be considered in communication with the Officer in charge of the Amrut Mahal Department.

10. The remarks in para 8 of the Survey Superintendent's letter regarding roads required for the Akkihebbal and Kannambadi Maganis will be communicated to the Public Works Department for note and needful action

11. The special attention of Superintendent of Revenue Survey will be requested to the very great importance of a due provision for grazing in this taluk.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent, Revenue Survey.
The Deputy Commissioner, Mysore District.
The Deputy Commissioners of other Districts.
The Secretary, Public Works Department.
The Officer in charge, Amrut Mahal Department.
The Comptroller.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 19th April 1886.

No. 854-64—38, DATED BANGALORE, 19TH APRIL 1886.

ORDER.—A title-deed issued to a holder of coffee land under the old patta cannot be regarded as a conveyance or deed of gift. It is merely a record of the revenue settlement as to lands already in his possession. Following therefrom the analogy of the decision in regard to Inam title-deeds contained in the Chief Commissioner's Proceedings No. $\frac{1095\text{-}1107}{R.\ 226}$, dated 25th June 1879, the Dewan directs that no stamp duty be levied for titled-deeds issued in substitution of coffee pattas formerly granted.

2. Title-deeds which may be granted for lands newly taken up for coffee cultivation must be stamped as conveyances on the actual or estimated amount of purchase money.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioners of Districts.
The Superintendent of Revenue Survey.
The Comptroller.
The Inspector General of Registration.

From the Superintendent, Revenue Survey and Settlement, Mysore, To the Chief Secretary to the Dewan of Mysore, No. 24, dated Norway, 7th April 1886.

I have the honor to forward the marginally noted papers relating to the proposed revision of the assessment of the Hoskote Taluk of the Bangalore District.

1. Report No. 987, dated 25th March 1886, with its accompaniments (4).
2. Letter No. 988, forwarding the above to the Deputy Commissioner, Bangalore District.
3. Bangalore Deputy Commissioner's letter No. 2207, dated 31st March 1886

2. As the Deputy Commissioner approves of my proposals, there is but little to add to what I have already written in my settlement report. I am glad to find that the Deputy Commissioner admits the nominal character of the increase of Rs. 20,000 as explained at para 30 of my report. The total burden which the proposed settlement throws upon the taluk is in fact but little greater than it was before, and it has been distributed with all the care our system admits of. In the old settlement, there is but little trace of even any attempt to ensure a fair distribution of the lump sum taken as revenue out of the taluk.

3. The Deputy Commissioner at para 3 of his letter very naturally inclines towards somewhat lower wet rates in the hope of inducing the ryots to take up some of the wet lands now lying waste. I was myself at first tempted by the same idea, but on careful consideration it appeared to me that it would not be right to reduce rates not high in themselves and which stood out in such marked and favorable contrast to the old rate of 1 rupee per vakla which regulated the taking up of waste lands for wet cultivation. I very much doubt, moreover, whether very low rates would have the effect anticipated, and even if they had and a very extensive occupancy could be induced, I should fear abuse of the half assessment order for lands left uncultivated. The rates I have proposed are not I think too high, and, if capital at any time were to seek out the wet lands, would not be found at all prohibitive.

4. I shall feel much obliged by sanction to the proposed settlement as soon as practicable to admit of the rates being announced about the 1st proximo

---

From the Superintendent, Revenue Survey and Settlement, Mysore, To the Chief Secretary to the Dewan of Mysore, No. 987, dated Balehonnur, 25th March 1886.

I have the honor to submit the following proposals for the revision of the assessment of the Hoskote Taluk of the Bangalore District.

2. A report by Mr. Barker who had, for the most part, charge of classing operations, is appended and will be found to contain a great deal of interesting information on many essential points such as climate, roads, crops and condition of the people.

3. The Taluk is divided into the following Maganis or ancient Sub-divisions.

No.	Name of Magani.	Government Villages.	Inam Villages.	Kayamgutta Villages.	Forests.	Total.
1	2	3	4	5	6	7
1	Hoskote	23	4	1	2	30
2	Vagatta	36	16	2	2	56
3	Kadgodi	22	9	...	2	33
4	Gubbi	36	18	1	...	55
5	Sulibele	67	16	12	...	95
6	Nandagudi	49	8	3	1	61
7	Hulur	36	10	...	2	48
8	Hoskotekere	1	...	...	...	1
9	Muglur	30	9	1	...	40
10	Budgere	19	7	1	..	27
11	Channarayapatna	34	2	...	...	36
11	Total.....	353	99	21	9	482

4. The inam and kayamgutta villages, it will be observed, are very numerous. The kind of survey to which they have been subjected will be found shown in the usual appendix. The present report however deals immediately and exclusively with the 353 Government villages and not with inam and kayamgutta villages.

5. The comparatively well known taluk under report, the head-quarters of which are about 16 miles from Bangalore, occupies a very favorable position amidst a well populated tract, with many large towns and markets within easy reach and with the Madras Railway intersecting its southern half. It is in fact one of the very best situated taluks in Mysore in respect of markets and means of communication generally. A system of roads branches off, from the town of Hoskote as a centre, in almost every direction, and none of the villages under report can be said to be at any great distance from some high road or other.

6. In addition to the above advantages the taluk may be said to possess a healthy climate and a very fair rain-fall, the latter by no means certain, but still not more precarious than that of, let us say, the Bangalore Taluk. In the face of the figures furnished by the Amildar, this may appear somewhat of an arbitrary assumption, but it is difficult to believe that there can be any very great difference between the 2 taluks. The average rain-fall, according to the Amildar, for the last eleven years, for Hoskote, is a little over 19 inches. This should I consider below the truth, and I observe that Mr. Barker shares my opinion. In the Bangalore Taluk nearly double that amount is usually looked for. The soils of this taluk are stated to be good in the wet lands, in which rice with a considerable proportion of sugar-cane is raised. The dry crop soils are of the ordinary red description but improve near the river Pinakini. A full description of soils and crops will be found in Mr. Barker's report, paras 8 and 9.

7. The agricultural and general resources of the taluk will be in a measure understood from the following statement which is a compilation of the statistics collected during classification.

Government Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.	Remarks.
1	2	3	4	5	6	7	8	9
353	9,443	51,456	258	99,082	7,482	2,568	7	

The Famine Commissioner estimated, on the basis of a test census of the Magani of Kadgodi, that the population of the whole taluk had gone down from 69,885 in 1871 to 42,973 in 1878. This estimate was obviously erroneous, as the Census of 1881 shows a population of 64,720. Even for the Government villages alone, it will be seen that the survey census, which of course must miss a considerable portion of the moving population, gives 51,456, and, as there are no less than 120 inam and kayamgutta villages left out of the survey census, the results tally very fairly with the Census of 1881. Confining our attention to the survey census which, for our present purpose, is the most useful, as it applies to the Government villages only and is more purely agricultural, we find that the population is just under 200 to the square mile, which is higher than in most of the adjoining taluks except Bangalore. To the cultivated area alone the population comes to about 500 to the square mile. These must be regarded as favorable figures denoting, as taluks go in Mysore, a comparatively well populated tract. The remaining statistics, notably the number of carts, speak well for the prosperity of the ryots.

8. The lands of this taluk have been classified by the survey as follows :—

Description of Land.	Government.		Inam.	Total.		Grand Total.
	Occupied, acres.	Waste, acres.	Total area	Occupied, acres.	Waste, acres.	
1	2	3	4	5	6	7
Dry Crop	41,948	13,271	12,884	54,832	15,271	70,103
Rice	3,678	4,996	2,235	5,913	4,998	10,911
Garden	3,091	400	718	3,809	400	4,209
Total.....	48,717	20,669	15,837	64,554	20,659	85,223
Inculturable area including village sites, &c. ...						80,108
Area of inam and kayamgutta villages ...						42,885
Area of forests						5,232
Total area of the whole Taluk (334 square miles).....						2,13,448

The facts elicited by the above figures are important. Notably there is an extraordinary proportion of wet land unoccupied. On this particular point I would invite attention to my remarks on the Sidlaghatta Taluk, at page 8 of the Settlement report. The two taluks present a very similar state of things, and for the same reasons, *viz.*, the unequal pressure of the old assessment and the very prohibitive character of the old wet rates, Hoskote compares favorably with Sidlaghatta in so much as the proportion of dry land lying waste is much less; but as regards wet lands there is the same unsatisfactory state of things in both taluks, more than half the total area of wet land being unoccupied.

9. In order to give some idea of the actual incidence of the old assessment, I have had the following Maganivar statement prepared. The calculation has been made by applying the newly ascertained survey area to the old collections under each head.

Number.	Magani.	Dry Crop.			Rice.			Garden.		
		Survey Area.	Past Collections.	Average Rate.	Survey Area.	Past Collections.	Average Rate.	Survey Area.	Past Collections.	Average Rate.
1	2	3	4	5	6	7	8	9	10	11

When it is borne in mind that the old assessment was imposed on a very imperfect knowledge of the area of each field and that there was ample scope for all kinds of inequality and evasion, the conclusion is unavoidable that the old assessment was decidedly high, and that any increase under the proposed settlement must be obtained by the simple process of equalization, but at lower rates. The very large extent of arable waste directly points to the above basis of revision.

10. At para 10 of his report Mr. Barker describes the old rates *supposed* to obtain. The great difference between "Kadim kandayam" and "Jadid kandayam" is, in itself alone, suggestive of great inequality and consequently undue pressure of assessment. The prohibitive rate of Re. 1 per kolaga, about Rs. 10 per acre, is again quoted as regards this taluk, for wet land newly taken up and, altogether, the old rates on wet lands given by Mr. Barker would if imposed have ruined the taluk long ago. Fortunately those rates are only nominal, as a comparison of them with the rates shown in the statement in the preceding para will clearly prove. Many of the wet lands no doubt are paying quite as much as, or even more than Rs. 10 an acre, but they are the best lands and such rates could not by any means be borne by the average, much less by the inferior, wet lands. As will be seen further on, the maximum rate which I shall propose for wet lands will not exceed Rs. 9, and this will be not so much a rate as the head of the scale from which the subsidiary rates are deduced; practically the very best wet lands will not be assessed at more than Rs. 7 or, at most Rs. 8 per acre, while the inferior lands will of course be assessed very much lower, according to their relative value as ascertained by classification. In the old wet rates, especially those applied to new lands taken up, there appears to have been a total absence of elasticity, one uniform rate being used, regardless of the quality of the soil and water supply. The dry rates given by Mr. Barker are not so startling as the wet rates, indeed the jadid, or modern, dry rates are moderate enough, but here again the rates found to actually exist quite stultify the "Jadid" rates. In short the nominal rates in this taluk, or indeed in any taluk where there has never been any reliable record of area, have no general application. Unfortunately however their very existence leads to much hardship to individuals as they furnish a very ready means either for favor or oppression and ought never to have found any place in the revenue administration even as quotations.

11. The next statement shows the revenue actually realized in the villages under report for the last 25 years, the ruling prices of the staple products, ragi and rice, being shown for the same period.

Year.	Bijavari Khandis.	Total Demand.	Remissions.	Balance Collected.	Seers per Rupee.

Ten years' average				91,938		

12. There is a great deal to be learnt from the above figures which too plainly tell the revenue history of this taluk. As in Sidlaghatta, so here also the unduly high wet rates which were generally adopted for occupied lands, the prohibitive rate of 1 rupee per vakla for unoccupied lands on being taken up and the inability, in the absence of any record of area, to carry out the very difficult operation of converting batayi into nagadi have combined to injure both ryots and revenue. On this point the very practical remarks of the Deputy Commissioner at para 5 of his letter No. 41 of the 8th April 1885 on the settlement of the old Devanhalli Taluk are deserving of attention. There can be little doubt of the urgency and advantage of a regular settlement in the case of all batayi taluks. The gradual abandonment of that system and its effect upon the collections can be traced in the following statement which embraces about every 5th year since 1865—66 which was the year of the highest collections and in which year in this taluk, as in most others, the batayi system was rather suddenly abandoned.

Year.	Dry.		Wet including Garden, &c.		Total Collections.	
	Nagadi.	Batayi.	Nagadi.	Batayi.	Nagadi.	Batayi.
1	2	3	4	5	6	7
1865—66	64,219	583	18,963	47,058	83,182	47,641
1870—71	64,474	90	36,938	8,856	1,01,412	8,946
1875—76	63,098	132	23,130	6,472	86,228	6,604
1880—81	56,956	22	24,504	8,286	81,460	8,308
1884—85	59,097	...	28,831	5,574	87,928	5,574

13. The fluctuation in the realizations from dry land, in which there was very little batayi, has been, it will be observed, very much what might have been expected and actually occurred in the Province generally during the period dealt with. But in the case of rice and garden lands, which I have put under one head as they are difficult to separate, there has been a most marked falling off, not under batayi alone but even under nagadi which latter we might fairly have expected to show an increase after almost all the batayi wet lands had been commuted. The temptation to keep the collections as high as they had been was too great and as the conversion from batayi to nagadi took place suddenly, and after exceptionally good batayi years on the unfortunate and very unfair "sarasari" system, the result was a perfectly unelastic assessment distributed in the most unequal manner. Had there been at all an equal distribution the state of the revenue would have been very different from what it is now.

14. The only year in which remissions were granted or, so far as there is anything to show, were necessary, was 1876—77, when nearly Rs. 25,000 were remitted.

15. Notwithstanding that, in 1884—85, some Rs. 5,000 of the revenue was collected under batayi, the last 5 or 6 years show some improvement, clearly showing what would have happened if the taluk had had a fair chance given to it.

16. I do not think that a lump sum of Rs. 93,502, the amount of collections in 1884—85, can be said, if only equally distributed, to be more than might fairly be taken out of the taluk, which undoubtedly possesses many advantages. I have no doubt that that amount and a little more to cover the cost of paying village servants and other fresh expenses incidental to the settlement, can fairly be procured under a carefully distributed assessment. Nor must it be forgotten that the ryots will be relieved of the payment of "miras" to the Shanbhogs—Patels seem to have had little "miras" paid to them—a by no means inconsiderable amount.

17. By adopting maximum rates which fit in very fairly and accurately with those already adopted and working well in adjoining settled taluks, I can provide a sum which will meet the above requirements, while a large area of arable assessed waste will remain available for cultivation and as its assessment is light, I hope to see a good deal of it come gradually under the plough. The following then are the maximum rates which I propose to adopt:—

Group.	Number of Villages.	Maximum Dry Crop rate.	Maximum Rice rate.	Maximum Garden rate.		Remarks.
				Tank.	Well.	
1	2	3	4	5	6	7
I	248	2 12 0	9 0 0	12 0 0	8 0 0	
II	105	2 8 0				

The bulk of the villages go into the first group. The second group consists of villages which I have selected for a little lower assessment, as being somewhat less favorably situated with reference to roads. As regards garden and rice lands, I have not considered it necessary to make any distinction between the two groups. The taluk under report is not a very large one and no finer distinction than I have made seems called for. The rates proposed fit in almost exactly with those already adopted in adjoining settled taluks.

18. The rates proposed give the following results on the occupied lands :—

Number of Villages.	Dry crop.			Rice.			Garden.			Total.		
	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.
2	3	4	5	6	7	8	9	10	11	12	13	14
248	33,943	61,197	1 12 10	3,181	19,307	6 1 1	2,603	15,236	5 13 8	39,727	95,740	6 7
105	8,005	12,760	1 9 6	497	2,517	5 1 0	488	2,652	5 6 11	8,990	17,935	1 15 11
353	41,948	73,963	1 12 3	3,678	21,824	5 14 11	3,091	17,888	5 12 7	48,717	1,13,675	2 5 4

19. There is the following area of arable assessed waste available for cultivation :—

Number of Villages.	Dry crop.			Rice			Garden.			Total.		
	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.
2	3	4	5	6	7	8	9	10	11	12	13	14
248	12,101	18,836	1 8 1	4,151	23,491	5 10 7	309	1504	4 13 11	16,561	43,831	2 10 4
105	3,170	4,583	1 7 2	847	4,175	4 14 10	91	393	4 5 1	4,108	9,151	2 3 8
353	15,271	23,419	1 8 6	4,998	27,666	5 8 7	400	1,897	4 11 11	20,669	52,982	2 9 0

20. The next statement shows the area and assessment of minor inam lands :—

Number of Villages.	Dry crop.			Rice.			Garden.			Total.		
	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.
2	3	4	5	6	7	8	9	10	11	12	13	14
248	10,376	16,393	1 9 3	1,878	9,617	5 3 7	574	3,002	5 3 8	12,828	29,212	2 4 5
105	2,508	3,714	1 7 8	357	1,588	4 7 2	144	694	4 13 1	3,009	5,996	1 15 11
353	12,884	20,107	1 9 0	2,235	11,405	5 1 2	718	3,696	5 2 4	15,837	35,208	2 3 7

21. The next statement exhibits the result of the proposed settlement as regards the whole of the lands of the villages under report occupied, waste and inam, and at the same time contrasts the old collections in each group with the new assessment.

Group.	Number of Villages.	By old system.		By new or Survey system.									
				Government occupied.		Government waste.		Total Government.		Inam.		Grand Total.	
		Bijvari.	Collections.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I	248	3,844	79,247	39,727	95,740	16,561	42,831	56,288	1,39,571	12,828	29,212	69,116	1,68,783
II	105	1,316	14,255	8,990	17,935	4,108	9,151	13,098	27,086	3,009	5,096	16,107	33,062
2	353	5,160	93,502	48,717	1,13,675	20,669	52,982	69,386	1,66,657	15,837	35,208	85,223	2,01,865

22. The grazing realizations in this taluk have been unusually high, amounting to no less than Rs. 5,836 in 1884—85. Under the new settlement the amount is not likely to be less. I will not however venture on any estimate, but take the amount at the same figure as 1884—85.

23. The Local Fund in 1884—85 amounted to Rs. 8,076; under the proposed settlement, it will be Rs. 7,105 on the Government occupied lands and Rs. 2,200 on minor inam lands, in all Rs. 9,305.

24. The general effect of the settlement is summed up as follows:—

		Rs.
Land Revenue for 1884—85	..	93,502
Local Fund „	..	8,076
Grazing „	..	5,836
Total		1,07,414
Survey Assessment of occupied lands	..	1,13,675
Local Fund ..	..	9,305
Grazing ..	..	5,836
Total		1,28,816

26. Setting aside any calculation of local cesses or grazing, the assessment of the occupied lands is increased by Rs. 20,173 or about 21 per cent.

27. The pay of village officers will require a sum of about Rs. 7,000, liable to be reduced if the service lands prove to be extensive, but of these I have not yet collected the necessary details.

28. Towards the Irrigation Fund, a sum of about Rs. 2,300 will be required.

29. Before concluding my remarks on this settlement, the effect of my proposals may be shown in a somewhat different form as below :—

Description of Cultivation	Area by Survey.	Average per acre under old system.	Average per acre under new or Survey system.
1	2	3	4
Dry	41,948	1 6 6	1 12 3
Rice	3,678	5 0 2	5 14 11
Garden	3,091	4 12 3	5 12 7

30. An increase of 21 per cent on the old collections may seem somewhat inconsistent with the opinion expressed at paras 9 and 16, but in the same para, I clearly pointed out that I had no objection to any increase which could be obtained by using perfectly moderate and reasonable rates. In the Sidlaghatta Taluk the old assessment was a good deal higher, on both dry and wet lands, than in Hoskote, and by using what I considered safe and moderate rates, I could only obtain in the former an increase of about 8 per cent on the old collections, which was barely sufficient to provide for the pay of village officers and increased expenditure incidental to the new settlement which it is needless to say was therefore a very favorable one indeed for the ryots, who were moreover relieved of miras payments to Shanbhogs and Patels. Almost precisely similar maximum rates in Hoskote, excepting that, as regards dry crop assessment, a larger number of villages in Hoskote very naturally, considering the superior position of that taluk, come into the 1st group, rice and garden maximum rates being precisely the same in both taluks, have had the effect of increasing the old assessment by about 21 per cent. There is no remedy for this and as the rates are in themselves moderate, Government is fairly entitled to the increase of Rs. 20,000 which however, what with payment of village officers and contribution to irrigation cess, very soon dwindles down to about Rs. 10,000, an amount which I suspect is very little more than the "miras" payments we are relieving the ryots of. I recommend the proposed settlement with every confidence that it will work well in a taluk where so much need for a regular settlement exists.

31. I submit a sketch map and the usual appendices comprising classwar statement and list of inam villages.

32. Besides the 353 Government villages of the Hoskote Taluk above reported on, villages as per margin originally belonging to Hoskote but now transferred to the taluks indicated, have to be settled. Rates precisely similar to those adopted for the groups of the Hoskote Taluk which they adjoin give a result, for these 13 villages, of Rs. 3,046 new, against Rs. 2,403 old, on the occupied area. There is arable waste assessed at Rs. 805. The classwar statement (Appendix B) gives detailed information regarding these villages which are too insignificant in number and extent to require further remark.

Taluk.	*Villages.*
Bangalore ...	1
Sidlaghatta ...	2
Chikballapur ...	10

33. I shall feel much obliged by early sanction in time to admit of the rates being given out about the middle of next month.

From the Assistant Superintendent in charge, "M" Classing Establishment, To the Deputy Superintendent, Revenue Survey, No. 90, dated Bangalore, 20th July 1885.

I have the honor to submit a report on the Hoskote Taluk of the Bangalore District, the classification of which has lately been completed. Two hoblis were classed by the "C" Establishment under Lieutenant-Colonel Mackenzie during 1884, the remainder by the "M" during the current season.

2. The Taluk is bounded on the north by the Taluks of Dodballapur, Chikballapur, Sidlaghatta and Chintamani, on the south by the Madras Presidency, on the east by the Kolar and Bowringpet Taluks and on the west by Bangalore and Anekal.

Boundaries.

3. It is sub-divided into eleven hoblis. The following statement shows the distribution of villages:—

Sub-Divisions.

No.	Name of Hobli.	Government Villages.	Jodi Inam.	Kayangritta.	Sarva Inam.	Plantations.	Total.	Remarks.
1	2	3	4	5	6	7	8	9
1	Hoskote	23	3	1	1	2	30	One village of Kadgodi Hobli, five of Nandagudi and two of Mugalur have already been assessed. One village of Gubbi has lately been transferred to the Bangalore Taluk, but has to be assessed.
2	Vagatta	36	14	2	2	2	56	
3	Kadgodi	22	9	...	...	1	32	
4	Gubbi	37	18	1	...	...	56	
5	Sulabele	68	18	15	...	...	101	
6	Nandagudi	52	9	5	...	1	67	
7	Hular	36	10	...	...	2	48	
8	Mugalur	32	9	1	1	...	43	
9	Amanidodkere	1	...	...	...	...	1	
10	Budgere	19	7	1	...	..	27	
11	Channarayapatna ...	44	2	3	...	...	49	
	Total.....	370	99	29	4	8	510	

4. Its extreme length is about 30 miles and breadth about 22. The total area is 212,184 acres, or 331¼ square miles. The population by the last census was 64,720, of which 31,637 were males and 33,083 females.

Area and Population.

5. It includes the valley of the Pinakini and the country is slightly undulating. In the north and north-west there are considerable tracts of jungle, which, in low-lying situations and in the vicinity of villages, grows to a fair height, but elsewhere is mere thorny scrub. Little red hillocks exist at intervals here, some flat-topped and sparsely covered with bush, others quite bare. Between these the ground is often broken up by deep, steep-banked nullahs. The rest of the Taluk is open. Towards the east it assumes the character of that of many of the Taluks of the adjoining Kolar District, being bare and stony, while the color of the soil changes from red to grey. The centre forms a valley running east and west and contains some fine tanks.

General description.

6. The drainage of the Taluk is into a stream known as the Pinakini river which rises in some small hills in the Sidlaghatta Taluk. It enters the Taluk in the north, and flowing through the large Hoskote tank, continues thence over the southern boundary into the Madras Presidency.

Drainage, &c.

7. Irrigation is carried on chiefly by means of tanks and wells. A few channels are taken from the Pinakini after it leaves the Hoskote tank, under which "Vaisakha" crops of rice are raised. Temporary dams of earth are built to raise the water to the channel level, which have to be renewed each year.

Irrigation.

The Taluk possesses altogether 390 tanks, of which the best are the following :—

Tanks.

Hoskote Dod Amanikere.	Tavarekere.
Hulur.	Yelachanhalli
Mugbalu.	Dod Nallurhalli.
Hoskote Chik Amanikere.	Betkote Amanikere.
Huvin-Ané Amanikere.	Budigere Amanikere.
Viranhalli.	Baglur.
Sampanagere.	Bandkodihalli.

Of these, the best that came under my observation is the Hoskote Dod Amanikere. This covers a considerable area and irrigates directly and indirectly the land below for several miles. Though seldom known to fail, it was dry this year during the hot months, having received no fresh supply of water last year, and very little the previous one. Important repairs to the tank were being executed when I last saw it. Two new sluices were being added, the level of the waste weir was being raised, and on the eastern side, a reservoir was being formed below. The gardens under this tank are not very numerous, the cultivation being principally rice and cane. The soil is everywhere of excellent quality. The Betkote Amanikere is a fine large tank and never goes dry, so Colonel Mackenzie states. The soil under it is good, that immediately under the bund is said to be better adapted for garden than rice and most of the rice land near the bund, although Inam, is not cultivated. There is a fine stretch of very flourishing pán gardens under this tank (Colonel Mackenzie states they are the best he has ever seen) and of supari gardens also, but the latter are only fairly productive. This tank held water all through the famine. I had no opportunity of seeing it this year. The Tavarekere, Yelchanhalli, Mugbalu, Dod Nallurhalli, Hulur Amanikere, and Hoskote Chik Amanikere, form a series in the order in which they are here placed. Though good tanks, the irrigated land under each, excepting the Hulur tank, is inconsiderable owing to their close proximity to one another, and bears but a small proportion to the capacity of each tank.

Under the Hulur tank there are some good gardens, high-lying but tank irrigated aided by "Yatam" wells, in which mulberry, sweet potatoes, onions, vegetables, &c., are raised. Under the others the gardens are few, but under the Tavarekere tank cane is grown in profusion, as a garden crop, in land situated just outside the "Atchkat" of the tank.

The Huvin-Ané Amani tank has a large extent of rice land below it but no garden. The Viranhalli tank though covering a large area is shallow. It has an excellent bund. Half of this tank is jodi, half Government. Cane and rice are cultivated below as well as miscellaneous garden produce.

Concerning the Budigere Amani, Baglur and Bandkodihalli tanks, Colonel Mackenzie remarks, "In one valley the Baglur tank is a fine one and in the other those of Bandkodihalli and Budigere are good. The soil under these tanks is good, consisting of brown loam. Most of the land under the tanks is cultivated on the batayi system not much held on kayam kandayam and there is a good deal of waste here and there. The wet rates are generally very high, in fact prohibitive, being Re. 1 per vakkala, equal to about Rs. 10 per acre. This is stated to be the cause of so little land being permanently taken up. At Baglur there is a large extent of mulberry cultivation in the gardens on the slopes above the tank bed and the rice fields. Silk worms are reared in this village. In Budigere and the adjoining village Gongvar Chandappanhalli, there is a large extent of garden irrigated by yatam wells and Budkis, in the channels coming from the Budigere Amanikere. They also lead the water from the main channels into the gardens and lift it by yatam. In this garden land there is a large area of potatoes and garlic which are the principle crops. They also grow onions, tobacco, mentya, ground-nuts, coriander, American corn, turmeric, chillies and sweet-potatoes. There is a large extent of flourishing pánvel, also a few supari and cocoanut trees."

For the rest the tanks throughout the Taluk are much silted up, and, speaking generally, are not in good order. Some of the sluices are choked or otherwise out of repair. The Sulabele, a superior tank, is greatly in need of repair. Under some important ones, notably the Attibele tank of the Sulabele Hobli and Kodihalli and Makanhalli of Vagatta Hobli, the nullah from the wasteweir has broken across the lands below, cutting off the supply from many numbers. Stone built anicuts are required in such places. A few are breached. Of these the Matsandra tank in Kadgodi Hobli is about to be put in order, and a supply channel brought to it from the Hoskote large tank.

Wells.

Wells are worked almost everywhere by yatam, generally by hand by one man, sometimes with the help of another on the cross lever. The subsoil being firm, they are very seldom faced with stone. As a rule, they are very neatly cut, of an oblong shape or circular. Some few are mere gundis or excavations of any shape. They are very numerous throughout the Taluk, great attention being paid to well irrigation. In some places they are dug below or at the side of tanks, in others, high up in the khushki lands totally independent of them.

Soils.

8. Soils in the dry crop lands vary little. They are uniformly red throughout, the greater portion of the Taluk being more or less sandy, and of considerable depth. Towards the east they change to grey in color, but are in other respects the same, with a few exceptions. Low down near the river rich brown and black soils are met with, and under tanks they are usually of good quality.

Crops.—Garden.

9. The gardens are of three descriptions, *viz.* :—

1st. Those irrigated by channels from tanks aided by wells.

2nd. Those irrigated from wells only.

3rd. Those watered by hand by means of chattis from wells, tanks or village ponds.

The first sort are not numerous but are found under some of the best tanks, Hoskote Dod Amanikere, Betkote Amanikere, &c. Some of these consist of arecanut, cocoanut, pánvel, plantain, &c., but, as a rule, the produce is the same as in the second description shown below.

The second sort are common everywhere. Their situation is frequently beside, or below a tank, but not within the "Atchkat," from which indirect benefit is received, but many exist independent of tanks, and often in high-lying positions. The crops are cane, rice, ragi, ground-nut, onions, jola, Indian corn, chillies, vegetables, potatoes, sweet potatoes, mulberry, rangmale bushes, wheat, coriander, flowers of various sorts, &c.

The third variety are generally met with in the vicinity of villages. In these, tobacco, chillies and vegetables are chiefly grown.

Rice.

The rice lands were all lying fallow this season owing to the tanks not having received a sufficient supply of water. Under many of the tanks they have been hitherto cultivated on the batayi system. Two crops could be raised under the best tanks in ordinary seasons, though it has not been the practice to take double crops off the same soil, but to sow a portion of the lands with a "Kartika" crop, reserving the remainder for the "Vaisakha." The following are the chief kinds of rice with their market values per khandi :—

	Rs.		Rs.	A.	P.
Dod Bhaira ..	5	Bilé Bhatta ..	5	8	0
Gid Bhaira ..	5	Karé Bhatta ..	4	8	0
Hindig Bhatta ..	5	Sanna Bhatta ..	6	0	0
		Ugukare Bhatta ..	4	8	0

Six ploughings are given to rice lands before sowing. Manure is little used, so much being required for the dry crops.

Sugar-cane.

Sugar-cane is largely cultivated, more especially in the Nandagudi and Channarayapatna Hobhs. It is of three kinds, *viz.* Bilé Rastali, Pot Rastali and Maré kabbu. The first two take nine months, the last eleven months to mature. Sugar-cane is usually succeeded by a crop of ground-nuts and "*vice versa*."

Dry Crops.

The principal dry crops are ragi, jola, sajje, samé, navane, baragu, harka, togari, kadale, alsandi, avare, harlu, uddu, hesaru, kurasani, hutchyellu, hurali, valleyellu, hogesoppu and pundi.

In some of the rich brown and black soils near the river, two crops are obtained, wheat or Bengal-gram after a crop of jola. Punaji rice is also grown in favorable localities.

Rates.

10. The rates on dry crops are of two kinds, *viz.* "Kadim kandayam" those settled fifty years ago, and "Jadid kandayam" those fixed on lands since taken up. The former vary from Rs. 1—4—0 to Rs. 15—15—0, the latter from Re. 0—4—8 to Re. 0—14—0 per Krishnarajkolaga of 3,200 square yards.

The rates on rice lands vary from Re. 0—3—0 to Re. 1—4—0 per kolaga of 500 square yards. Lands relinquished and since applied for, and lands newly brought under the plough have been assessed with a fixed rate of Re. 1—0—0 per kolaga. No extra tax has been levied on sugar-cane on lands taken up since 1864—65, but on lands the assessment of which was fixed prior to that year, an extra charge has been made which has raised the assessment to rates varying from Re. 0—12—0 to Rs. 2—5—3 per kolaga.

Rates on garden lands under tanks vary from Rs. 1—0—4 to Rs. 1—8—6 and on those in dry land from Re. 0—6—0 to Rs. 1—11—0.

Mulberry gardens have separate rates, *viz.* from Re. 0—14—0 to Re. 1—0—0 when tank irrigated and Re. 0—6—0 when entirely dependant upon rain-fall.

The records of old measurements are those of Krodhana and Akshaya of 70 years back which were prepared by order of Dewan Púrnaiya. Those of recent times are the Siddharthi and Raudri Paimayish Chittas.

The following table, prepared from notes made at test, may give some idea of the average prevailing rates:—

Name of Hobli.	Rate per Acre.			Remarks.
	Dry Crop.	Rice.	Garden.	
Hoskote	1 9 0	...	4 0 0	Rates were obtainable on only a few rice numbers, as the rice was monthly batayi.
Gubbi	1 14 1	...	7 0 8	
Sulabele	1 12 0	...	5 12 0	
Nandagudi	2 10 0	...	5 0 0	
Hulur	1 10 0	4 8 0	5 8 0	
Vagatta	1 0 8	...	4 1 9	
Kadgodi	1 9 7	...	4 2 0	
Mugalur	1 8 5	...	...	
Budigere	1 13 8	8 0 0	5 1 0	
Channarayapatna	1 12 0	8 1 0	5 12 0	

Sub-letting.

11. In sub-letting rice lands, the tenant receives a moiety of the whole outturn, including straw, when he supplies the manure, otherwise half the grain only.

Wages.

12. Wages vary from 2 to 8 annas for a male and from 1 anna 4 pies to 2 annas 4 pies for a female cooly. When paid in kind 8 mánás and 6 mánás are given to men and women respectively.

Cattle and Grazing.

13. The cattle are small. In the villages in the south they are reputed to be of a better kind. Grazing is good, especially in the northern hoblis. Great attention is paid to the growth of grass for hay in some parts, particularly in the neighbourhood of Hoskote. Hay realizes a good price always in the Bangalore market.

Manufactures.

14. Local manufactures are of no importance. They consist of rough cloths and cumblies.

Roads.

15. The old road from Bangalore to Madras goes through the Taluk and past the town of Hoskote. From this, roads to Malur, Cuddapah (Madras Presidency), Sidlaghatta, Anekal and Kasaba Sulabele branch off. In the south a road from Malur to Hossur passes through a few villages. The Bangalore-Madras Railway also runs through the Taluk, Kadgodi being one of its stations.

Markets and Fares.

16. The chief weekly markets are at Hoskote, Hindiganal and Chik Tirupati. Hindiganal is the principal one. "Jatras" take place annually at Chik Tirupati, Hoskote, Gubbi, Aralemakanhalli and Nallur during the month of April. From three to four thousand persons usually attend there.

The chief exports are cumblies, oil, ghee, chunam, coarse cloths, jaggory, silk, snuff, avare beans, firewood, garlic, ground-nuts, onions, potatoes, ragi, sigekayi, chillies, tamarinds, cattle and fowls to Bangalore and Madras.

The imports are baskets, cumblies, brass vessels, oil, ghee, camphor, cloths, cardamom, dyes, metals, wooden-planks, paper, salt, wax, sugar, plantains, tobacco seed, areca-nut, ragi, gum, &c., from Gubbi, Tiptur, Bellavi, Krishnagiri, Hossur and Madanpalli. The last three places are in the Madras Presidency.

Rain-fall.

17. The yearly average rain-fall for the past five years according to the register kept at Taluk head-quarters is 19 inches 30 cents, but this is not to be relied upon. The average may be assumed to be nearly double that, or the same as that of Bangalore.

Remuneration of Village servants.

18. Patels hold sarva inam land, but receive no miras from ryots. Shanbhogs hold inam land as jodi and receive from ryots from one kolaga to one khandi of ragi on dry lands and one kolaga on each khandi of produce on rice lands, besides getting from 2 annas 4 pies to 3 annas from each pattadar, a certain quantity of jaggory, where cane is grown, and a percentage on sale of Government trees, &c. They get no pay from Government. Totis get from one to five kolagas of ragi on dry lands from each ryot and hold inam land as jodi. Nirgantis get two ballas of paddy from each pattadar on rice land and hold inam land as jodi.

The total value of haks, &c., for the whole Taluk may be set down appproximately at Rs. 40,000.

Health and condition of ryots.

19. The health of the Taluk is generally good and the ryots seem well to do.

From the Deputy Commissioner, Bangalore District, To the Superintendent, Revenue Survey, No. 2207, dated Bangalore, 31st March 1886.

I have the honor to acknowledge receipt of the settlement report on the Hoskote Taluk forwarded by you for my opinion with your No. 088 of the 25th instant.

2. The maximum dry rate, Rs. 2—12—0, is the same as that fixed on for Sidlaghatta and Devanhalli, and taking into consideration the exceptional advantages Hoskote possesses with regard to the Railway and the numerous roads that traverse it, I agree with you in thinking that this maximum rate can be reasonably imposed. I have carefully gone over the villages in the two groups, and am of opinion that the division has been equitably made. The average dry rates in the Taluk under report come to Rs. 1—12—3, per acre, against Rs 1—9—6 for Sidlaghatta and Rs. 1—10—8 for Devanhalli; but this excess is explained by the fact that the villages have been divided only in two classes, against 4 in Sidlaghatta, where the average rate for the I class villages is Rs. 1—13—3. There is also a large area of waste culturable land available, a good deal of which we may hope to see brought under cultivation. I was informed during my recent jamabandi by several large land-holders, that they were only awaiting the settlement to take up waste land for the purpose of growing hay, which, as remarked by Mr. Barker, finds a ready and profitable sale in Bangalore.

3. As regards the average wet and garden rates, they are both somewhat lower than those imposed in the Sidlaghatta Taluk, but show an increase over the old rates. I am not prepared to say that the rate for wet land is too high; but taking into consideration the large area of unoccupied wet land in the Taluk, it might perhaps have been advisable to have made the rate lower than at present determined upon, so as to have offered an inducement to ryots to take some of it up. But so long as the dry crop lands are of such good quality as they are in Hoskote, the ryots will not, as a rule, go in extensively for wet land cultivation. For this, we must look to people from Bangalore.

4. The state of disrepair of the numerous kodigi tanks calls for early attention of Government. To this must be attributed a fair portion of the rice lands now lying waste all over the Taluk. I have taken steps with regard to some, in anticipation of orders of Government on the subject.

5. The rates for garden are not excessive, though it shows an increase over old rates of Rs. 1—0—4. In parts of the Taluk, vegetable gardens are worked very well and profitably.

6. The rates for payments of "miras" to Shanbhogs vary in parts of the Taluk, and is often the cause of disputes, so that the doing away with this will be a real source of relief to some of the ryots.

7. The nominal increase of Rs. 20,000 therefore is much reduced, as explained in your para 30, and this amount can, in my opinion, be safely collected.

8. I return the appendices and maps received with your letter under reply.

APPENDIX A.

List of Whole Inam and Kayamgutta Villages.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 30th April 1886

No. 1263-72—19, DATED 30TH APRIL 1886.

ORDER THEREON.—The foregoing papers contain proposals for the revision of the existing assessment in 353 Government villages of the Hoskote Taluk, Bangalore District.

2. The taluk possesses many advantages. A healthy climate, proximity to large markets and populous towns, good roads with a small section of the Madras Railway and a fair rain-fall, all contribute to the general prosperity of the taluk, which, as the Survey Superintendent observes, is "one of the very best situated taluks in Mysore."

The taluk contains several important tanks, the largest of which is the Hoskote Amanikere fed by the Pinakini river.

3. The existing rates of assessment are very unequally distributed. The present collections distributed over the occupied area, as ascertained by the Survey, give the following average rates :—

	Area by Survey. Acres.	Present Collections. Rs.	Average Rate. Rs. A. P.
Dry	41,948	59,097	1— 6—6
Rice	3,678	34,405	5— 0—2
Garden	3,091		4—12—3
Total...	48,717	93,502	

4. For purposes of the settlement, the Superintendent proposes to divide the villages into two groups as regards dry land, no separate grouping being considered necessary for rice and garden lands. The maximum rates proposed are :—

For dry land	1st group	Rs. 2—12— 0 per acre.
	2nd group	Rs. 2— 8— 0 per acre.
For rice land		Rs. 9— 0— 0 per acre.
For tank-irrigated garden land		Rs. 12— 0— 0 per acre.
For well-irrigated garden land		Rs. 8— 0— 0 per acre.

5. These rates are in themselves reasonable and moderate and they fit in with those sanctioned for the neighbouring settled taluks as shown below :—

Taluk.	Dry Crop.	Rice.	Garden. Tank.	Garden. Well.
Chikballapur	2 12 to 2 8	9	16 0 0	6 0 0
Sidlaghatta...	2 12 to 2 4	9	12 0 0	8 0 0
Old Devanhalli	2 12 to 2 8	9	12 0 0	12 0 0

6. The adoption of the proposed rates gives the following results on occupied lands :—

Description of Land.	Area by Survey. Acres.	Present Collections. Rs.	By Survey.	
			Assessment. Rs.	Average Rate.
Dry	41,948	59,097	73,963	1 12 3
Rice	3,675	34,405	21,824	5 14 11
Garden	3,091		17,888	5 12 7
Total.....	48,717	93,502	1,13,675	

7. Compared with the present collections, the proposed settlement is expected to bring in an increased revenue of Rs. 20,173 ; but this increase will be reduced to Rs. 10,873, after providing Rs. 7,000 for the remuneration of village officers, and Rs. 2,300 for contribution to the Irrigation Cess Fund. Thus the net increase will be only 11·6 per cent, and it will be secured by an equal distribution of the moderate rates proposed.

8. Under such circumstances, His Highness' Government are pleased to sanction the introduction of the proposed settlement with the usual guarantee for 30 years.

9. In para 7 of his report, Mr. Barker brings to notice that some of the principal tanks in the taluk are in need of repair. The attention of the Secretary, Public Works Department, will be drawn to Mr. Barker's remarks in view to the necessary steps being taken in the matter.

10. The attention of the Survey Superintendent is invited to Mr. Barker's remark regarding the Viranhalli tank that "half of this tank is jodi, half Government." The meaning of this statement is not quite clear, but the Superintendent will be requested to report, with reference to previous correspondence on the subject, what settlement has been come to in regard to the lands under this tank claimed by Rai-Bahadur Yele Mallappa Chetti.

11. From the map submitted, it is observed that a * village of the Bangalore Taluk and † another of the Anekal Taluk are surrounded by villages of the present Devanhalli and Hoskote Taluks. The Deputy Commissioner of Bangalore is requested to report the names of these villages and whether there are any good reasons why they should not be transferred to the Devanhalli and Hoskote Taluks respectively.

* East of Marénhalli in the Budigeré Samnat.
† East of Jant Kondhalli, and south of Belkeri.

12. The proposed settlement of the marginally noted 13 villages formerly belonging to Hoskote Taluk but now transferred to the Bangalore, Sidlaghatta and Chikballapur Taluks is also hereby sanctioned. The revenue of these villages under the settlement will amount to Rs. 3,046 as against Rs. 2,403 at present.

Bangalore Taluk.	1.	Sonnatimmanhalli.
Sidlaghatta Taluk.	1.	Sanjivapura,
	2.	Hoskere.
Chikballapur Taluk.	1.	Pedamahalli.
	2.	Gokribachahalli.
	3.	Mandbele.
	4.	Yelyur
	5.	Gaddadanaganhalli.
	6.	Timmanhalli
	7.	Bommanhalli.
	8.	Doddatmangala.
	9.	Haralur.
	10.	Chenhalli.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent of Revenue Survey.
The Deputy Commissioner, Bangalore District.
The Secretary, Public Works Department, with reference to para 9.
The Deputy Commissioners of other Districts for information.

PART I.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 14th April 1886.

READ—

(1). Chief Commissioner's Notification No. 132, dated 26th November 1880, laying down rules relating to camp equipage and fixing mileage and batta to the several officers in the Mysore service.

(2). Dewan's Proceedings No. 186, dated 18th January 1886, revising the rates of batta and mileage fixed for the Deputy Commissioners of Districts in the above mentioned Notification.

(3). Letter No. 1327, dated 8th February 1886, from the Military Secretary.

(4). Letter No. 486, dated 3rd March 1886, from the Officer in charge of Amrat Mahal Department.

No. 460-8—20, DATED 14th APRIL 1886.

ORDER THEREON.—The Military Secretary and the Officer in charge of the Amrut Mahal Department will be entitled to draw from 1st January 1886 the same travelling allowances as those fixed for the Deputy Commissioners in the Dewan's Proceedings of 18th January 1886 quoted above, *viz*:—

Batta	.. ..	at 5 Rs. per diem.
Mileage	.. ..	at 8 annas per mile.

2. The following officers who, in Chief Commissioner's Notification No. 132, dated 26th November 1880, were stated to be entitled to the same allowances as Deputy Commissioners, are also allowed to draw the same revised rate of travelling allowances and mileage fixed in the above mentioned Proceedings of 18th January 1886 with effect from 1st April 1886 :—

Executive or District Engineers.
District Judges.
Comptroller.
Inspector General of Registration.
Education Secretary.
Civil Surgeons.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Military Secretary.
The Officer in charge of the Amrut Mahal Department.
The Superintending Engineer and Secretary, P. W. D.
The Chief Judge in Mysore.
The District Judges of Mysore and Shimoga.
The Senior Surgeon to the Mysore Government.
The Inspector General of Registration in Mysore.
The Education Secretary.
The Comptroller of Mysore.

PART I.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 8th April 1886.

No. 269-77—13, DATED 8TH APRIL 1886.

ORDER.—The sanctioned scale of Deputy Commissioners for the Province as fixed by the Government of India, previous to the Rendition, (*Vide* Government of India letter No. 1628, dated 28th October 1879) was as follows :—

		Rs.
1.	Special for the Coffee District	800 to rise to 1,200
1.	First Class	1,200
1.	Second Class	1,000
3.	Third Class at Rs. 800 each	1,600
2.	Fourth Class at Rs. 700 each	1,400

2. The above scale has hitherto been in force with certain modifications rendered necessary by the abolition of two Districts in December 1882. As those Districts have now been reconstituted, the scale will come into force in its entirety from 1st April 1886.

3. His Highness' Government have been pleased to direct that Mr. G. F. Meiklejohn, the Special Deputy Commissioner in charge of the Kadur District, should be allowed the maximum pay attached to his office, *viz.* Rs. 1,200, with effect from 1st April 1886.

4. The salary of Major Macintire, Deputy Commissioner of Bangalore, is Rs. 1,200 in accordance with the arrangement entered into with him on 18th May 1881.

5. Mr. C. Soob Rao, Deputy Commissioner of the 4th Class, will be promoted to the 3rd Class of Deputy Commissioners with effect from 1st April 1886.

6. There will thus be a vacancy in the 3rd Class which will not for the present be filled up. In the meantime, there will be three Deputy Commissioners instead of 2 in the 4th Class.

7. The following is the Gradation List of Deputy Commissioners :—

1 *Special Deputy Commissioner on Rs.* 1,200.
Mr. G. F. Meiklejohn.

1 *Deputy Commissioner, 1st Class on Rs.* 1,200.
Major A. H. Macintire.

1 *Deputy Commissioner, 2nd Class on Rs.* 1,000.
Mr. Abdulkhader, Khan Bahadur.

3 *Deputy Commissioner, 3rd Class on Rs.* 800.
1. Mr. P. N. Krishna Murti.
2. Mr. C. Sooba Rao.
3. Vacant.

2 *Deputy Commissioners, 4th Class on Rs.* 700.
1. Mr. V. P. Madhava Rao, B. A.
2. Mr. T. Ananda Rao, B. A.
Mr. Mahomed Ali, Khan-Bahadur, *Supernumerary in the 4th Class.*

8. The Comptroller will be requested to debit the total cost of Deputy Commissioners and Assistant Commissioners as follows :—

$\frac{1}{4}$th to Police.
$\frac{3}{8}$ths to Revenue, and
$\frac{3}{8}$ths to Law and Justice.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Comptroller.
Deputy Commissioners of Districts.

No. 278-87—14, DATED 8TH APRIL 1886.

ORDER.—The full complement of Assistant Commissioners required for Head-quarters and for the Police, Revenue and Magisterial administration of the Province is as follows:—

Head Quarters..	..	1	For Palace.
		1	For Dewan's Office.
		1	With Inspector General of Police for frontier or other Police duty.
Police	.. ..	7	(The Superintendent of Police, Bangalore, being in charge of the Police of that District.)
General	.. ..	9	(One for each District with an extra Assistant for the large District of Shimoga, where no separate Sub-Division has been provided.)
District Treasuries	..	6	(The Treasuries at Chikmagalur and Hassan being placed under the Munsiffs with a local allowance of Rs. 50 each.)
Sub-Division charge	..	2	(At Closepet and French Rocks.)
Mysore Town	..	1	(Bangalore Town Magistrate being a separate officer.)
	Total....	28	

2. These will be graded as follows from 1st April 1886:—

3	First class	on Rs. 500
6	Second class	on Rs. 400
8	Third class	on Rs. 300
11	Fourth class	on Rs. 250

First Class.

1. Mr. Syed Nassiruddin.
2. „ E. Chidambram Iyer.
3. Mr. B. K. Venkatavardaiengar.

3. There will thus be six vacancies. Mr. F. B. Clerk, Supernumerary Assistant Commissioner, will be appointed to the charge of the Bangalore District Treasury. The remaining vacancies will be filled up as follows:—

Mr. L. Anantasami Rao, B. A., Registrar, Resident's Court. Mr. V. D. Ponnarangam Mudaliar, Munsiff of Shimoga. Mr. M. Narain Rao, Manager, Dewan's Office.	To be Assistant Commissioners of the 4th Grade.
Mr. H. V. Nanjundaiya, M. A., B. L., Munsiff of Nanjangud. Mr. N. Narasimmaiengar, Amildar of Manjarabad.	To be Probationers in the grade of Assistant Commissioners drawing a salary of Rs. 200 per mensem and to be confirmed as Assistant Commissioners of the 4th Class at the end of a year upon their giving satisfaction in the discharge of their duties and passing the examination prescribed for Assistant Commissioners.

4. Mr. M. Narain Rao, who is entitled from 1st April 1886 to a salary of Rs. 250 per mensem in his present appointment of Manager, Dewan's Office, will for the present continue to be employed in the Dewan's Office.

5. Mr. E. C. Shanmugavelu Pille, 1st Grade Assistant Commissioner, will be appointed Town Magistrate of Bangalore.

6. As Mr. A. Narasim Iengar, Assistant Commissioner in waiting, is not likely to be employed in connection with the executive administration of Districts, His Highness has been pleased to direct that he should be appointed Civil Bakshi on a salary of Rs. 500 per mensem.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Inspector General of Police.
The Deputy Commissioners of Districts.
The Comptroller.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 20th April 1886.

From the Superintendent, Mysore Revenue Survey, To the Secretary to the Dewan of Mysore, No. 700, dated Bangalore, 5th February 1884.

The rules at present sanctioned for converting into acres, and charging the excess on, the areas of Inam lands entered in former accounts in Sthal and Krishnaraj Bijavari, and in Krishnaraj Paimayish areas, having recently formed the subject of considerable complaint and having consequently come under the consideration of the Dewan with a view to alleviating any just cause of dissatisfaction on the part of the Inamdars, I have the honor to submit the following remarks on the subject.

2. The Malnad and Maidan Inams, as regards the question at issue, are quite distinct. Dealing first then with the Maidan portion, the conversion of Inams into their modern equivalents and the charging of excess is carried on under the order quoted in the margin. The only point which now requires revision as regards the mode of treatment embodied in the above order is the charging of excess beyond the authorized extent, the rules for fixing the authorized extent remaining just as they are at present.

Chief Commissioner's Order No. 6026 35—R. 1053, dated 15th January 1881.

3. The present practice then is to allow 10 per cent under Inam Rule XI in addition to the equivalent of the Inam as ascertained under the rules sanctioned in the order of the 15th January 1831 quoted in the preceding para, and to charge the excess over this extent with full assessment.

4. The Inamdars who have complained assign various reasons why excess should not be charged, such as long enjoyment, the impossibility of encroachment, the land having been originally demarcated and so on. These are assertions which the Inamdar will of course make but which, excepting long enjoyment, he cannot prove, and I think the present rules for fixing the equivalents of the Inams perfectly fair. But I think that the allowance of only 10 per cent over the exact equivalent, as thus worked out, to be insufficient to cover all possible chance of harsh and illiberal dealing in all cases. The complicated character of the old accounts and the generally unreliable nature of the data on which we have to depend for our settlement of this question, all point to the necessity of something more liberal than an allowance of only 10 per cent to cover error. The following rules in substitution of that of allowing 10 per cent on the nearest modern exact equivalent of the Inam will remove all real grounds of complaint :—

1st. All Inams the Survey valuation of which, as now enjoyed, does not exceed Rs. 5 to be confirmed in full, no excess being charged.

2nd. All Inams the Survey valuation of which, as now enjoyed, exceeds Rs. 5 to have half the excess confirmed as Inam and the remainder charged with full assessment; but Rs. 5 must be the lowest Survey valuation of the equivalent of the claim passed by the Inam Department before proceeding to charge half the excess under this rule.

5. I would also recommend that in the taluks for which statements have already been prepared the extent allowed should stand good if by any chance it exceeds the extent which would be allowed under the rules proposed in this letter. The amount involved will be little or nothing, very little more indeed than would be involved in the operation of eliminating fractions of a rupee, but the cases may be numerous and the adoption of my suggestion will save a number of petty alterations and upsetting of remeasurement already carried out, not to mention that the Inamdars in many cases know what the extent allowed under the 10 per cent rule was, and it is advisable that the extent under the new rule should not be less.

6. I beg that an early sanction may be given to these proposals. The case of the Malnad Taluks will be reported on hereafter.

Draft Notification received with Survey and Inam Superintendent's No. 55, dated 22nd April 1885.

The following rules for dealing with excesses in minor Inams in the settled Maidan Taluks where such Inams are enjoyed in land, are published for general information, in supersession of all previous rules and orders on the same subject :—

1. All Inams the Survey assessment of which, as now enjoyed, does not exceed Rs. 5 will be confirmed in full.

2. In the case of Inams the Survey assessment of which, as now enjoyed, exceeds Rs. 5, one-half of the excess over and above the extent authorized by the Inam Department will be confirmed as Inam, in addition to the said authorized extent, the other half being charged with the full survey assessment.

Provided that in no case is land bearing survey assessment of more than three times the survey valuation of the inam authorized by the Inam Department to be continued as inam.

3. If, however, three times the survey valuation, under the proviso to the preceding rule, falls short of Rs. 5, then land bearing survey assessment up to, but not exceeding Rs. 5, may be confirmed as inam.

From the Secretary to the Dewan of Mysore, To the Superintendent of Revenue Survey and Inam Settlement, No. 4717—R. 64, dated 23rd November 1885.

With reference to the draft notification, forwarded with your letter No. 55, dated 22nd April last, I am desired to make the following observations and to request your opinion in regard to them. The phrase "the extent authorized by the Inam Department" used in para 2 may possibly be understood as including within such "extent", the 10 per cent addition to area or to proportionate present value which is authorized by the rules hitherto in force. Under the liberal rules now adopted, it will not be necessary to conceed the 10 per cent addition, the 50 per cent under the new rules being in lieu of 10 per cent under the old rules. The point however may with advantage be quite clear in the notification proposed to be issued.

2. It is assumed that the Inam Department has hitherto adopted the following rules in confirming minor inams in maidan taluks, and I am to enquire if this assumption is correct—

A. When the Akshaya paimayish is forthcoming for a particular village, the extent therein given as *Jari Inam* plus 10 per cent thereof should be adopted as the area of the valid inam and confirmed accordingly as such.

B. When such paimayish is not forthcoming for the village, and it is ascertained that the extent according to jari inamti accounts is one of bijavari and not area, the proportional system of Land Inam Rule XI should be adopted; that is to say —

Total recorded beriz or bijavari of village.	:	Recorded inam beriz or bijavari.	::	Survey valuation of the village	:	The present value of the inam.

To the present value thus ascertained, 10 per cent being added, and the total confirmed as valid inam.

3. I am to request information whether the proportional rule as per clause B of the preceding para has had to be adopted to any large extent in any and what parts of the Province. (*Vide* concluding part of para 6 of Survey and Inam Commissioner's letter No. 1597, dated 13th December 1877).

4. Another point upon which the Dewan desires information is the extent to which the maidan rules under reference will be applied to minor inams, which though situated in the malnad, would be entitled to the liberal treatment proposed by the maidan rules. Such cases will be rare, but it will be seen that in the concluding part of Survey Commissioner's letter No. 1092, dated 15th August 1877, it was proposed that individual cases, met with in malnad taluks, of inams with defined limits, should be dealt with otherwise than under the general rules for malnad inams. It will be desirable to ascertain whether it has been found necessary to resort to any extent to such exceptional treatment in the malnad taluks. Again in para 6 of the Survey and Inam Commissioner's letter No. 1597, dated 13th December 1877, it was stated that some of the eastern taluks of Nagar have their inams confirmed in known areas. To such taluks the maidan rules will of course apply, and it will be desirable to define definitely to what particular taluks the maidan rules should apply, or rather to exclude from the applicability of those rules, particular malnad taluks in which the inams have had to be confirmed on the basis of their original shist valuation.

5. The notification under consideration may also with advantage specify the limit to which the resumed excess in minor inam will be allowed to be incorporated with the inam as confirmed, the assessment being charged by way of jodi.

6. A copy of the draft notification as amended in accordance with the foregoing observations is forwarded herewith for your opinion, and it will be published in the Gazette on the receipt of your reply to this letter. But in the meantime the work now in progress in your Department, in accordance with the rules therein laid down will of course proceed, these rules having already been approved of by Government.

From the Superintendent, Revenue Survey, To the Secretary to the Dewan of Mysore, No. 763, dated Bangalore, 19th December 1885.

In reply to your letter No. 4717—64, dated the 24th ultimo, on the subject of a draft notification regarding the treatment of excesses in minor inams, I have the honor to remark as follows

2. The addition, in the amended draft accompanying your letter, of the words "in lieu of the 10 per cent of such excesses allowed by the rules hitherto in force", will make the intention of Government perfectly clear.

3. With reference to para 2 of your letter, I submit herewith a statement marked C prepared the Inam office showing in detail the number of cases disposed of under Rules A & B, as specified in your letter, respectively. This statement will also furnish a reply to the query at para 4 your letter.

4. As regards your enquiry at para 4, I note in the margin the taluks in which inams have been confirmed on the basis of the original shist valuation. To all other taluks the maidan rules have been, or will be, applied. Instances of minor inams situated in malnad taluks, to which the maidan rules have had to be applied, have been almost nil.

Tirthahalli ...	All.	...	4 Amur
Koppa ...	All	...	5 Kundya
Mudgere ..	All.	..	6 Toldernad
Manjarabad ...	All.	...	7 Adyalli

5. I do not think that any necessity exists for specifying in the notification the limit to which resumed excesses will be allowed to be incorporated with the inam *in one survey number.*

6. I now send the "Tarav Takhta", showing my allocation of minor inams, to the Amildar who calls up all the inamdars and carries out and records a regular settlement embracing, amongst others, the particular point in question. The present ruling is that resumable excess, in one survey number, may be incorporated with the inam in the same survey number, the inamdar paying the assessment of the same as "Kasar Jodi", if the assessment of such excess falls short, in maidan taluks, of Rs. 2 and in malnad taluks of Rs. 10. If para 5 of the amended draft notification is retained, it should be made clear that the excesses alluded to are those in survey numbers and not in the inam generally.

From the Superintendent, Mysore Revenue Survey, To the Secretary to the Dewan of Mysore No. 663, dated Bangalore, 14th January 1885.

I have the honor, as requested in your letter No. 821 of the 5th instant, to submit the following report upon the conversion of minor inams in the malnad taluks of Mysore.

2. The above subject will be found fully discussed under Chief Commissioner's Proceedings No. 8650—60, dated 8th January 1878, and I need not therefore travel over the whole of the same ground again. The final orders, as the Dewan is aware, were that the shist valuation was to be taken as the basis for the conversion of the inams in question, treating the inam, in fact, as though it were a cash grant and assigning land, when it was held by the grantee, of an assessment equal to the inam valuation in the accounts, with a margin of 10 per cent in excess of the inam confirmed. This mode of conversion has been followed up to date, and the results have been incorporated in the annual jamabandi for some years past.

3. I am perfectly satisfied that the basis of a proportional plan of dealing with excesses in these inams could not have been found in the shist valuation, for the reasons, given by the Survey Commissioner in his letter No. 246 of the 17th February 1877, published with the Chief Commissioner's Proceedings above quoted, and which may be broadly summed up as want of uniformity in the shist rates of assessment and the doubt as to what really constituted a village in the old accounts.

4. It is useless to reopen the vexed question of whether these malnad inams were grants of land or not. Government, after hearing all that could be urged on both sides, accepted the conclusion that the inams in question could not be traced either as to extent or exact locâle and were really no more than cash allowances or assignments of a certain portion of the revenue and directed the mode of dealing with them accordingly, as stated in para 2. I may state that my own opinion is entirely in favor of the mode of conversion that has been adopted. It is, although bad at the best, incomparably the fairest mode left open to us and the results approximate more closely to what the inamdar is enjoying, and was intended to enjoy, than any results that could be obtained from adopting the proportional system in any shape the old accounts admit of. It is only since 1834 that the old numbering and bijavari appear in the accounts, and these have been adopted and entered by the Inam Department in Form II. It may be satisfactory to know that a comparison of the old shist valuation with the survey assessment shows that the former is pitched very nearly if not quite as high as the latter and, consequently, in the allocation of the inams in terms of survey assessment, the inamdars have received decidedly good measure, as I have tested by examining a considerable number of cases. If, instead of allowing the shist valuation as the basis of conversion, the khandis and kadus entered by the Inam Department, supposing them to have been measures of area which I do not for an instant believe, had been taken for the same purpose and the equivalent (the khandi seems from para 101 of Mr. Stokes letter of the 19th May 1838 to have contained 4,320 square yards) allocated in survey area, the inamdars would not have gained anything by the change of procedure and in many instances would

be worse off than they are now. The bijavari entered in the pahani and chitta accounts of 1834 I believe to have been, for the most part, made up, on no foundation whatever, just to give an appearance of completeness to the accounts.

5. If, then, my contention that the mode of conversion already adopted is the best available be admitted, the question of making any alteration in what has already been done narrows itself very much. The most apprehensible argument put forward to show that a grievance is entailed on the inamdar, is that, in assigning the value of the inam, in so many rupees of survey assessment, garden land which may have been formed *since* the grant of the inam bears an unduly high assessment and that therefore, in fairness to the inamdar, such garden land, for the purpose of allocation, should be valued only at rice rates. At the first glance I was inclined to think this course would be just, if only feasible. But after careful consideration, I have come to a different conclusion, for the following reasons:—

1st. It is not usual to convert rice into garden which latter is more frequently formed in virgin soil, where certain conditions of situation, water supply and leaf manure are imperative; it is therefore in most cases highly improbable that any land *since* made garden is identical with wet land of the varg at the time of the grant. I use the word "varg" advisedly for the inam never was in my opinion a land grant.

2nd. The inamdar, if also the vargdar, has the whole extent of the varg lands, Government as well as inam, from which to select the numbers which are to represent the inam portion and he may possibly therefore select garden land which is undoubtedly Government land and may indeed have been already allowed the privilege of "Shraya" or even "Maadmanya". The concession of a general selection from all the lands of the varg is no slight one and moreover the excess over the inam in individual survey numbers is in many cases continued on what may be called a permanent settlement to the inamdar and of course advantageous to the latter.

6. It may possibly be urged that the above points could easily be ascertained, but I very much doubt the possibility of any accurate inquiry, considering the nature of the old accounts and the evidence which would be required.

7. Any general original revision of the assessment such as that carried out by a Revenue Survey, must almost necessarily be open to the charge of taxing improvements like those in point, but this would apply to Government just as much as to inam lands and in each case the difficulty of making retrospective allowance for such improvements, if possible at all, would be equally great. Then, when we consider the character of these practically cash inams and who are the recipients, the inamdar does not present himself to the mind's eye as a struggling cultivator of the soil. As a matter of fact, in most of these malnad inams, the condition that the inamdar and the vargdar must be one and the same in order that the inam may be confirmed in land is a mere "*façon de parler*," the inamdar's connection with the land of the varg, or any question involved in the proprietary right to the land, being of the slightest.

This is especially true in the case of most of the devadaya malnad inams. I do not think that, in the event of a new garden being formed, the inamdar would have much to do with it and certainly not with the cost of making it.

8. On the whole, I think it would be too intricate and unequal a process, even if feasibel at all, to recalculate the assessment of garden lands in the manner suggested and I feel sure the results would tell most unequally.

9. The question remains, is the 10 per cent margin in excess of inam confirmed, enough to allow? The Survey Commissioner, in his letter No. 246 of the 17th February 1878, which will be found under Chief Commissioner's Proceedings quoted in para 2, advocates a much larger margin of excess, even up to 50 per cent, but this proposal was distinctly disallowed by the Chief Commissioner at para 4 of Proceedings No. 416—R. 14 of the 12th April 1877. The question requires a little careful consideration, with reference to the probable effect of allowing the larger margin.

10. In dealing with malnad and maidan inams, the great difference is, that in the former, by allowing too large a margin of excess, there may be a loss of existing revenue, while in the latter, it is merely a question of a diminution of the amount of revenue to be resumed, but there can be no adding to the extent confirmed from existing revenue paying Government land. The Survey Commissioner at para 10 of his letter No. 246 above quoted gives a contrary opinion, but it appears to me, with all due deference to his opinion, that a loss of existing revenue can very easily occur in the malnad, even with only the present 10 per cent margin in excess of inam confirmed. As an instance of what I mean, take the case of a varg of which a portion is Government and the bulk inam or jari. If the shist valuation be higher than the survey assessment, or at all uncommon occurrence, the whole varg, Government and inam, may not suffice to give an extent, the survey assessment of which will suffice to meet the claim passed in shist valuation + 10

per cent. No great harm can be done with the 10 per cent allowance, but a more liberal allowance might cause a good deal of loss. As I have already stated, the shist valuation generally is high, very little if at all less indeed than the survey valuation and the shist of the inam portion of the varg, we may feel sure, has not, to say the least, been shown too low in the old accounts.

11. I think that any relief that is given to these malnad inamdars must take the shape of an increased marginal allowance in excess of inam confirmed, but it will be necessary to guard by special treatment against the Government portion of the varg being eaten into by the inam claims. Of course a proportional plan of working would have secured this, but, as I have already said, that plan of working is quite unsatisfactory and if it saved the Government revenue, it would cause the most unequal results in other respects as regards the inamdars.

I do not myself think that the manner in which these malnad inams have been treated is otherwise than fair and liberal and I would not recommend the settlements already made and in force now for some years, being in any way disturbed.

12. It will be appropriate here to state briefly the mode of revising the allocation and charging excess in maidan minor inams; the following clauses fully suffice to define the plan now being worked out in my office:—

1st. If the survey valuation of an inam, as now enjoyed, does not exceed Rs. 5, the inam is confirmed in full.

2nd. In the case of inams the survey valuation of which, as now enjoyed, exceeds Rs. 5, one-half of the excess over the claim passed by the Inam Department is confirmed in addition to the equivalent of the said claim.

3rd. Provided that in no case is more than three times the survey valuation of the inam confirmed by the Inam Department to be continued as inam, excepting only when it falls short of Rs. 5, when it may be raised to that amount so as not to be less liberal than clause 1.

13. Several maidan taluks are now in hand on the above plan of working and I beg that the sanction of Government to the above rules may be recorded.

On the completion of the statement of any taluk, the results will be forwarded in suitable form to the Amildar to carry out a regular settlement with the inamdars for which due instructions will be issued. The Amildar will return the settlement papers after completion, when correct data will exist for the preparation of the final title-deeds in the Inam office.

DEWAN'S MEMORANDUM, DATED THE 23RD NOVEMBER 1885.

Malnad Inams.

Survey Superintendent's letter, dated 14th January 1885, No. 663.

I agree that it will be undesirable to disturb the basis of the shist valuation upon which these inams have been settled. The settlement has confirmed the shist valuation plus 10 per cent. If the inamdar has a varg in which the inam would be located, land the survey value of which is equal to $\frac{1}{10}$ths of the shist value of the inam has been confirmed to him as inam. If he has no such varg, $\frac{1}{10}$ths of the shist value has been continued to him as a ready money inam.

2. In the case of maidan inams the addition of 10 per cent to authorized extent, allowed by the rules hitherto in force, has now been increased to 50 per cent, and the question naturally arises whether similar liberal treatment is required or feasible in the case of malnad inams which are capable of allocation.

3. The Survey Commissioner in para 10 of his letter No. 246, dated 17th February 1877, proposed that in the case of land inams in the malnad, land bearing survey assessment equal to the amount of shist or assessment alienated by Dewan Purnaiya should be confirmed as the future inam, but with a liberal margin in excess: and observed "The ordinary margin of 10 per cent I would propose considerably to exceed in this case. The margin should, in my opinion, be put at least as high as 25 per cent, in addition to the original alienation, and if the Chief Commissioner will agree to a somewhat higher amount of margin, it would certainly render the measure more acceptable; I would even suggest that an addition of 50 per cent be allowed; whatever margin is allowed there can be no loss of existing revenue, as no one will have the deficiency made up to him if he is found to be actually holding less than the valuation confirmed by the Inam Department. It will only reduce the amount of revenue to be resumed; there is reason to believe that encroachments by inamdars in the wilder parts of the malnad have been greater than else-

where, as the facilities for encroaching undetected have been greater there than elsewhere, and how ever encroachments may have arisen, it is expedient to be lenient in dealing with them especially when they are of a large amount"

Adverting to this proposal of the Survey Commissioner, the Chief Commissioner remarked in paras 4 and 5 of Proceedings No. 416—R. 14, dated 12th April 1877, that "the allowance proposed to cover original inaccuracies of measurement should not exceed 10 per cent, as the grant of a more liberal concession would be contrary to the present rules, and will moreover require the sanction of the Government of India.

In the case of village service lands, Mr. Saunders thinks an exception may be allowed as the lands already enjoyed by these servants are hearly sufficient for their remuneration, and as it would not be equitable to charge additional assessment on the excess in the lands held by them."

As pointed out by the Survey Superintendent, a large increase to the shist valuation may in some cases lead to loss of present revenue, as land equivalent to the increased valuation may have to be made good from what is really the Government share of the varg.

4. The ascertainment of what land has been converted into garden after the grant of the inam would be attended with much difficulty, and any general rule to the effect that in converting shist valuation into survey valuation, gardens shall be valued at wet rates will lead to great loss of present revenue.

5. The only remaining course open would be to adopt a rule of proportion. The Survey Commissioner has, in his letters above referred to, shown why such a rule cannot be adopted owing to want of fixity in village boundaries. In the malnad it is believed that *fixity* is to be sought in the vargs and not in the villages. If this be so, the rule of proportion applied to vargs ought to give satisfactory results as follows:—

Shist of varg : shist of inam : : survey assessment of varg : survey assessment of inam :

In order to provide against cases of large encroachments, we may rule (on the analogy of maidan inams) that the survey valuation of inam confirmed shall in no case exceed three times (or even twice) their shist valuation. Whether this rule of proportion is workable will depend upon the reliability of the accounts forthcoming, a point on which enquiry will be made on the spot during my next visit as well as by a reference to the Survey Superintendent.

With reference to clause 2 of Survey Superintendent's para 5, it may be noted that in para 9 and 10 of the Chief Commissioner's Proceedings No. 937—R. 34, dated 30th April 1879, it was ruled, as regards malnad minor inams,

(*a*) that surplus Government land, when its survey value does not exceed Rs. 10, shall be incorporated with the inam, the assessment being charged as jodi;

(*b*) when its survey value exceeds Rs. 10, it shall be assessed as separate Government land, with the proviso that when the separate demarcation of such land is inconvenient, the full assessment on it shall be levied as inam kasar.

In Chief Commissioner's Proceedings No. 6026—R. 1053, dated 15th January 1881, as regards maidan taluks also the same limit of Rs. 10 was recognized, all excesses beyond that limit being treated as separate Government fields and presumably always separately demarcated and assessed.

From the Chief Secretary to the Dewan of Mysore, To the Superintendent of Revenue Survey and Inam Settlements, No. 822—14, dated 21st April 1886.

In continuation of this office letter No. 4717—64, dated 23rd November 1885, I am desired to forward herewith a copy of Dewan's Memo, dated 23rd November last, regarding excess in malnad inams. During his recent tour through the malnad, he made certain enquiries in the Koppa and Tirthahalli Taluks with the view of ascertaining whether the particular varg, out of which the inam shist was originally alienated, was now identifiable. The result of the enquiry was that in some cases it was, and in others it was not, identifiable. The Dewan is of opinion that under such circumstances, the practical working of any proportional rate for the settlement of malnad nams will be attended with considerable difficulty and he has accordingly resolved not to alter iin any way the present rules relating to such inams.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 20th April 1886.

No. 698-706—12, DATED 20TH APRIL 1886.

ORDER THEREON.—With reference to the correspondence read above, the Mysore Government resolves to issue the following notification in regard to the treatment of excesses in minor inams in settled maidan taluks.

2. The rules contained in this notification will for the present apply to the whole Province with the exception of the taluks specified in the list given in para 4 of the Survey and Inam Superintendent's letter No. 763, dated 19th December 1885.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Survey and Inam Superintendent.
The Deputy Commissioners of Districts.

NOTIFICATION.

The 20th April 1886.

The following rules for dealing with excesses in minor inams in the settled maidan taluks, where such inams are enjoyed in land, are published for general information in supersession of all previous rules and orders on the subject :—

1. All inams the survey assessment of which, as now enjoyed, does not exceed Rs. 5, will be confirmed in full.

2. In the case of inams, the survey valuation of which, as now enjoyed, exceeds Rs. 5, one-half of the excess over and above the extent authorized by the Inam Department (shall in lieu of the 10 per cent of such excess allowed by the rules hitherto in force) be confirmed as inam, in addition to the said authorized extent, the other half being charged with the full survey assessment.

Provided that in no case land bearing survey assessment of more than three times the survey valuation of the extent of inam authorized by the Inam Department shall be continued as inam, except when three times such survey valuation falls short of Rs. 5, in which case land bearing survey assessment up to, but not exceeding Rs. 5, shall be confirmed as inam out of the extent hitherto enjoyed as inam.

3. Out of any individual survey number hitherto enjoyed as inam, all excess over and above the extent confirmed as inam under rule 2 above shall be treated as Government land and charged with full assessment. When such excess does not exceed Rs. 10 in survey valuation, it shall be treated as part of the inam and the assessment charged on it by way of a jodi. When such excess exceeds Rs 10 in survey valuation, it shall be treated as one or more separate survey fields of Government land and charged separately with its or their appropriate Government assessment.

Chief Secretary.

PART II.

REVENUE.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF APRIL 1886.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	In reply, the Survey Superintendent was informed that the settlement of the final remuneration of the village officers in the Dodballapur Taluk sanctioned in Proceedings No. 6273-4—90, dated 6th February 1886, would take effect from the current year.	1st April 1886.	
2	In reply, the Deputy Commissioner of the Bangalore District was informed that the area of land left available for extension of cultivation in the village of Nademavinapura in the Kunigal Taluk being only about 25 acres, the Dewan was not prepared to sanction the alienation of the whole or any part thereof.	Do do	
3	In forwarding copy of a telegram addressed to the Town Magistrate of Mysore, the Deputy Commissioner of the Mysore District was informed that Mr. Davy's tender for the ganja contract of Province had been accepted.	Do do	
4	In reply, the officer in charge of the Amrut Mahal Department was informed that the salt pans in the Amrut Mahal kavals would be disposed of by the District revenue authorities and the proceeds credited under the head of Salt Revenue.—Communicated to the Deputy Commissioners of Districts, with a request that the salt pans in the Amrut Mahal kavals may be included in the list of the other salt pans.	Do do	
5	In reply, the Deputy Commissioner of the Kolar District was informed that the tender of Mr. Davy had been accepted for the ganja contract for the whole State.	2nd do	
6	A notification regarding the sale of jodi Ramumakalaballi and two other villages in the Kolar District, was forwarded to the Compiler of the Mysore Gazette for publication, with a request that 5 copies in English and 10 copies in Canarese of the notification may be forwarded direct to the Deputy Commissioner of the District.	Do do	
7	Do do to the Proprietor of the Daily Post.	Do do	
8	Sanction was accorded to the sale of the right of collecting tolls at Hydarghar and Lakshmipur Ghats for the year 1886—87 for Rs. 2,270 and Rs. 680 respectively,—Communicated to the Deputy Commissioner of the Shimoga District and the Comptroller.	Do do	
9	The sale of the right to collect tolls at the Haribar bridge for the current official year to Mallappa for Rs. 4,025, was confirmed, with the intimation that the concession applied for by him would be considered on the contingency mentioned by him occurring.	3rd do	
10	In forwarding certain petitions with enclosures received from Appajaiya and Bhaskara Shastri of Bangalore, the Inam Superintendent was requested to submit a statement regarding certain title-deeds.	Do do	
11	The sale of certain wet lands below the Mallagatta tank in the Turuvekere Sub-Taluk, was confirmed.—Communicated to the Deputy Commissioner of the Tumkur District.	6th do	
12	Two manuscript copies of the return of prices current of food grains in the Mysore State for the fortnight ending 31st March 1886, were forwarded to the Assistant to the Resident.	7th do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
13	Fifteen copies of the form of contract bond to be entered into with the ganja contractors of the State, were forwarded to each of the Deputy Commissioners of Districts.	7th April 1886.	
14	The Deputy Commissioner of the Bangalore District was requested to submit further information regarding the establishment of a weekly market at Lakkur in the Nelamangala Taluk.	Do do	
15	In reply, the Assistant Commissioner, French Rocks Sub-Division, was informed that the existing arrangements as regards fishing in the French Rocks and Arsikere tanks should be continued, the Nirgantis and Bestars being strictly warned that their free service to the tanks would be insisted upon.	Do do	
16	Sanction was accorded to the writing off of Rs. 46—15—10 from the accounts of the Davangere Taluk.—Communicated to the Deputy Commissioner of the Shimoga District and the Comptroller.	Do do	
17	In reply, the Deputy Commissioner of the Tumkur District was informed that the existing practice of charging certain professional men with mohatarfa house tax should be continued, and that the information called for in Proceedings No. 1040-8—22 should be submitted.	Do do	
18	A copy of letter No. 684, dated the 24th March 1885, from the Deputy Commissioner of the Kadur District, enclosing a letter from Mr Fitler expressing his willingness to supply 2 lbs. of cardamom seed in August next, was forwarded to the Assistant to the Resident.	Do do	
19	Sanction was accorded to the appointment of Marigaiyan Basaiya's, minor, eldest son as Patel of Kadurnahalli in the Channagiri Taluk and of Viraiya to act as Gumasta during the minority of the permanent incumbent.	8th do	
20	In reply, the Deputy Commissioner of the Kadur District was requested to submit a statement showing the description of the accounts received by the Amildars from their subordinates, and informed that when a case is pending in any court for more than 2 months, the cause of delay should be explained in the column of remarks, and that the oldest petition pending disposal should also be noted.	Do do	
21	The sale of the vrittis of Vyaramachar and Visvesvaravadhani in the village of jodi Lingadahalli in the Kadur Taluk for Rs. 92 and Rs. 72 respectively, was confirmed.—Communicated to the Deputy Commissioner of the Kadur District and the Inam Superintendent.	Do do	
22	A notification stating that in notification No. 187, dated 18th January 1886 "Karangi" should be read for "Karanji", and "Kanampalli" for "Kaunelli," was gazetted.—Communicated to the Deputy Commissioner, Kolar District.	Do do	
23	Certain lands were confirmed to Narayan Rao, late Record-keeper of the Hole-Narasipur Taluk, on shraya tenure for a period of 3 years with effect from the year 1886—87.	Do do	20th Nov. 1885, Part II, R.
24	In reply, the Deputy Commissioner of the Mysore District was requested to have the ganja contract bond drawn up in the name of the Deputy Commissioner of the Bangalore District as per printed form sent.	Do do	
25	The Deputy Commissioner of the Mysore District was requested to return sale proceeds of the jodi Venkataiyanchattar and Basavapur in the Chamarajnagar Taluk to the highest bidder C. Rangamma, and resume the jodi tenure of the villages, manage them as Government villages and notify the same to all parties interested.—Communicated to the Survey and Inam Superintendent.	Do do	
26	The site occupied by the old Palace at Seringapatam was transferred to the Municipality of Seringapatam and the Sub-Division officer was requested to report what fund there was at the disposal of the	Do do	

No	Subject and Order.	Date of Order.	Date of previous Orders.
	Municipality for the erection of a musafirkhana and also submit a plan and estimate for the work as now proposed		
27	Sanction was accorded to the alienation of certain land for the Government Farm at Kurugal and also to the remission of the assessment thereon —Communicated to the Deputy Commissioners of the Bangalore and Tumkur Districts and the Survey Superintendent	8th April 1886.	
2	Orders were passed on the proceedings of the Municipal Board of Tumkur, dated 12th March 1886, calling for further information regarding the levy of a license fee on betel leaf sellers in that town and sanctioning the levy of a uniform rent of 1½ rupees per mensem on each of the 12 shops in the mutton market and an allowance of Rs 5 per annum to the Municipal Shanbhog on account of contingencies with effect from the 1st April 1886, and the proceedings were forwarded to the Compiler, Mysore Gazette, for publication —Communicated to the Deputy Commissioner, Tumkur District, and the Comptroller	9th do	
29	Five printed copies of the return of prices current of food grains and salt in the Mysore State for the fortnight ending 15th February 1886, were forwarded to the Assistant to the Resident	Do do	
30	Messrs. Wilson and Co, Madras, were requested to return the duplicate copies of certain mining leases for record in this office	10th do	
31	In reply, the Deputy Commissioner of the Kolar District was informed that the villages of Hettakki and Marasandahalli being surrounded on all sides by the villages of the Hoskote Taluk as might be seen from the map sent it was very undesirable to retain them in the Kolar Taluk that the objection that the proposed transfer would result in splitting up Shanbhogs charges could be met by allowing the registered Shanbhogs to appoint separate Shanbhogs for the villages to be transferred retaining the hak in their own names, and requested to inquire of the Shanbhogs concerned and report whether such an arrangement could be made without much inconvenience	Do do	
32	Orders were passed on a petition from Ranganaiya of Tirumale in the Magadi Taluk to the effect that if the temple of Varadarajaswami at Bachapur had been restored or if sufficient security should be given for its restoration within a fixed reasonable time, the inams (both land and money) should be restored to the temple —Communicated to the Survey and Inam Superintendent	Do do	
33	A letter dated 19th ultimo, from Mr B Ross, requesting to be informed as to what had become of his coffee garden at Sirgur, was forwarded to the Deputy Commissioner of the Hassan District for report.	Do do	
34	The sale of three vrittis in the jodi village of Andahalli, in the Chikballapur Taluk, was confirmed —Communicated to the Deputy Commissioner of the Kolar District and the Inam Superintendent.	Do do	
35	The sale of two vrittis in the jodi village of Alasandramanahalli in the Gowribidnur Taluk for Rs. 121—0—0, was confirmed —Communicated to the Deputy Commissioner of the Kolar District and the Inam Superintendent.	Do do	
36	The sale of the jodi village of Angatatti in the Sidlaghatta Taluk, was confirmed —Communicated to the Deputy Commissioner of the Kolar District and the Inam Superintendent.	Do do	
37	Sanction was accorded to the alienation of certain land in the village of Indavar in the Chikmagalur Taluk for the conservation of the fruit trees thereon —Communicated to the Deputy Commissioner of the Kadur District and the Survey Superintendent.	Do do	
38	The alienation of a certain land in the village of Dasarahalli in the Honnali Taluk for the construction of a new village, was cancelled, with the intimation that the amount of kandayam paid by Gopalappa would be refunded to him on the receipt of a refund bill.—Communicated to the Deputy Commissioner of the Shimoga District.	12th do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
39	The proposal of the Sub-Division Officer, Closepet, to levy a uniform rate of wet assessment on the lands below the Govindahalli and certain other tanks, was approved, with the remark that wet assessment should be levied in all similar cases mentioned by the Sub-Division Officer.	13th April 1886.	
40	In reply, the Deputy Commissioner of the Kolar District was informed that the inam land referred to might be restored to the Talvars of Jarabandahalli and Pedachalhalh in the Goribidnur Taluk, but that the remission of the arrears of jodi asked for could not be granted.	Do do	
41	In reply, the Deputy Commissioner of the Bangalore District was informed that as Mr. Brown cultivated certain lands in the village of Ranisandra in the Bangalore Taluk partly, the assessment on them must be paid in full; and that it was against rules to grant remission in such cases—Communicated to Mr. Brown who was requested to pay up the arrears early.	Do do	
42	In forwarding copy of a letter, dated 20th March 1886, from Major General R. J. Baker, Mr A. H. Bachelor was requested to submit further information regarding General Baker's application.	Do do	
43	In forwarding a copy of the rules for the grant of mining leases in Mysore, Lieutenant-Colonel J. Campbell Walker, Ootacamund, was informed that the Mysore Government was not at present prepared to entertain any application for mining leases.	Do do	
44	In returning a deposit of Rs. 1,000, Mr. W. Marsh was informed that His Highness the Maharaja's Government was not at present prepared to entertain any applications for mining leases.	Do do
